| **Quick Guide**                  | This guide is the help built into the system. You can access basic information on how to control the system and a brief description of major functions directly on the system screen.  
  
  - How to access the guide: On the Home screen, touch **All Menus ➤ Quick Guide**.  
  
  For safety, this quick guide will not be displayed while the vehicle is moving. Park your vehicle in a safe location before accessing the quick guide. |
Symbols used in this guide

⚠️ **Warning**
Indicates important information related to user safety. Failure to follow warnings may result in death or serious personal injury.

⚠️ **Caution**
Indicates important information related to user safety. Failure to follow cautions may result in personal injury, or damage or malfunction your vehicle.

📝 **Note**
Indicates helpful information for convenient use.

*if equipped
Indicates descriptions for optional features.

This guide covers all specifications, including all trim models and optional specifications. It may include descriptions for features that are not equipped in your vehicle.
Safety warnings

For safety, follow the instructions below. Failure to do so may increase the risk of a traffic accident, which may result in death or personal injury.

⚠️ About driving

Do not operate the system while driving.
• Driving while distracted may result in a loss of vehicle control, potentially leading to an accident, severe personal injury, or death. The driver’s primary responsibility is the safe and legal operation of a vehicle, and any handheld devices, equipment, or vehicle systems which divert the driver’s attention from this responsibility should never be used during operation of the vehicle.

Follow traffic regulations while driving.
• Driving only with the guidance of the navigation system may cause violation of traffic regulations, which may lead to a traffic accident.

Depend on your vehicle’s speedometer when checking your driving speed.
• The speed displayed in the navigation screen may differ from your actual speed.

Avoid watching the screen while driving.
• Driving while distracted may lead to a traffic accident.
• Stop your vehicle in a safe location before using functions that require multiple operations.

Stop your vehicle first before using your mobile phone.
• Using a mobile phone while driving may lead to a traffic accident.
• If necessary, use the Bluetooth Handsfree feature to make calls and keep the call as short as possible.

Keep the volume low enough to hear external sounds.
• Driving without the ability to hear external sounds may lead to a traffic accident.
• Listening to a loud volume for a long time may cause hearing damage.

When looking for emergency services, such as hospitals or fire stations, do not depend solely on the navigation system.
• Some emergency services may not be included in the navigation map. Locate nearby emergency services in advance so you can take the proper action quickly in an emergency situation.
About handling the system

Do not disassemble or modify the system.
  • Doing so may result in an accident, fire, or electric shock.

Do not allow liquids or foreign substances to enter the system.
  • Liquids or foreign substances may cause noxious fumes, a fire, or a system malfunction.

Stop using the system if it malfunctions, such as no audio output or display.
  • If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

Note

If you experience any problems with the system, contact your place of purchase or dealer.
Safety cautions

For safety, follow the instructions below. Failure to do so may result in personal injury or damage to the system.

⚠️ About operating the system

Use the system with the engine running.
- Using the system for a long time when the engine is stopped may discharge the battery.

Do not install unapproved products.
- Using unapproved products may cause an error while using the system.
- System errors caused by installing unapproved products are not covered under the warranty.

⚠️ About handling the system

Do not apply excessive force to the system.
- Excessive pressure on the screen may damage the LCD panel or the touch panel.

When cleaning the screen or button panel, make sure to stop the engine and use a soft, dry cloth.
- Wiping the screen or buttons with a rough cloth or using solvents (alcohol, benzene, paint thinner, etc.) may scratch or chemically damage the surface.

If you attach a liquid-type air freshener to the fan louver, the surface of the louver may become deformed due to the flowing air.

⚠️ Note

If you experience any problems with the system, contact your place of purchase or dealer.
Cautions when using an SD card

⚠️ **Caution**

The SD card installed in the system contains map data and software necessary for navigation. Be careful not to damage the SD card.

- Remove the SD card only when you update the system.
- Stop the engine before removing or re-inserting the SD card. Removing or re-inserting the SD card while the system is operating may cause an error or damage the SD card or the system.
- The SD card is intended for storing map data and update files only. Do not add or delete files on the SD card.
- Do not format the SD card arbitrarily.
HYUNDAI VEHICLE OWNER PRIVACY POLICY

Your Hyundai vehicle may be equipped with technologies and services that use information collected, generated, recorded or stored by the vehicle. Hyundai has created a Vehicle Owner Privacy Policy to explain how these technologies and services collect use and share this information.

If you would like to receive a hard copy of our Vehicle Owner Privacy Policy, please contact our Customer Connect Center at: Hyundai Customer Care
P.O. Box 20850
Fountain Valley, CA 92728
800-633-5151
consumeraffairs@hmausa.com

Hyundai’s Customer Connect Center representatives are available Monday through Friday, between the hours of 5:00 AM and 7:00 PM PST and Saturday and Sunday between 6:30 AM and 3:00 PM PST (English).

For Customer Connect Center assistance in Spanish or Korean, representatives are available Monday through Friday between 6:30 AM and 3:00 PM PST.

System overview

- Component names and functions
- Turning the system on or off
- Controlling the touch screen
- Getting to know the Home screen
- Getting to know the rear view screen
- Using the climate control system (*if equipped)
Component names and functions

1. **RADIO button**
   - Press to turn on the radio. While listening to the radio, press to change the radio mode.

2. **MEDIA button**
   - Press to play content from a media storage device.
   - If you have multiple media storage devices, select one from the media selection window.

3. **SEEK/TRACK button**
   - While using an AV function, change the station/track/file (except for the AUX mode).
   - While listening to the radio, press and hold to search for a station.
   - While playing media, press and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

4. **Reset button**

5. **PWR button/VOL knob**
   - Press to turn AV (radio/media) on or off.
   - Press and hold to turn off the screen and the sound.
   - Turn to the left or right to adjust the system sound volume.
   - While the navigation guidance is playing, turn to adjust the sound volume.

6. **Touch screen**
   - See p.12-11 "Display."

Note: Depending on vehicle models and specifications, the illustration above may differ from the product's actual appearance and layout.
7 **MAP button**
   - Press to view a map of your current location.

8 **NAV button**
   - Press to access the navigation menu screen.

9 **Custom button (☆)**
   - Press to use a custom function.
   - Press and hold to access the settings screen for the custom button.

10 **SETUP button**
   - Press to access the settings screen.

11 **TUNE knob/FILE knob/ENTER button**
   - While listening to the radio, turn to adjust the frequency or change the channel.
   - While playing media, turn to search for a track/file (except for the AUX and Bluetooth audio modes).
   - During a search, press to select the current track/file.

12 **SD card slot**

Note: Depending on vehicle models and specifications, the illustration above may differ from the product's actual appearance and layout.
1 Voice recognition button (📢)
- Press to start voice recognition.
- If the system does not support voice recognition, press to start voice recognition of a connected smartphone via phone projection.
- Press and hold to end voice recognition.

2 MODE button
- Press to switch between AV (radio/media) modes.
- Press and hold to turn AV (radio/media) on or off.

3 Volume lever (VOL +/VOL -)/Mute button ( tắt)
- Push up or down to adjust the volume.
- Press to mute or unmute the system (except for the navigation).
- While playing media, press to pause or resume playback (except for the iPod mode).

4 Up/Down lever (.imgur)
- While using an AV function, change the station/track/file (except for the AUX mode).
- While listening to the radio, push and hold to search for a station.
- While playing media, push and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

5 Call/Answer button (📞)
- Press to start connecting a mobile phone via Bluetooth.
- After a Bluetooth phone connection is made, press to access your call history. Press and hold to dial the most recent phone number. When a call comes in, press to answer the call.
- During a call, press to switch between the active call and the held call. Press and hold to switch the call between the system and the mobile phone.

6 Call end button (📲)

Note: Depending on vehicle models and specifications, the illustration above may differ from the product’s actual appearance and layout.
Turning the system on or off

1. To turn on the system, start the engine.

2. When the safety warning appears, read it and touch Confirm.
   - To change the system language, touch Language.

   ![Image of a navigation system]

   Drive safely and obey traffic rules. Watching this screen while the vehicle is in motion can lead to a serious accident. Make selections only while stopped. Some map data may be incorrect. Please read the safety instructions in the Navigation Manual.

   Confirm    Language

   The system turns off when you stop the engine (ACC Off).
   - When you turn back on the system, the previous mode and settings will remain intact.

   • If you do not want to use the system while driving, you can turn off the screen and the sound by pressing and holding the [PWR] button on the control panel. To use the system again, press the [PWR] button.
• Some functions may be disabled for safety reasons while the vehicle is moving. They work only when the vehicle stops. Park your vehicle in a safe location before using any of them.

• Stop using the system if it malfunctions, such as no audio output or display. If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

⚠️ **Warning**

- If you turn on your system without starting the engine, a battery warning will appear. Once the engine starts, the battery warning will disappear.

⚠️ **Caution**

- You can turn on the system when the key ignition switch is placed in the "ACC" or "ON" position. Using the system for an extended period without the engine running drains the battery. If you plan on using the system for a long time, start the engine.

• If you turn on your system without starting the engine, a battery warning will appear. Once the engine starts, the battery warning will disappear.

⚠️ **Note**

To avoid having audio play at an excessive volume when you start the engine, adjust the volume level before stopping the engine. You can also set the system to decrease the volume level automatically. On the Home screen, touch **All Menus** ➤ **Setup** ➤ **Sound** ➤ **Priority** and activate the **Start-up Volume Limit** option.
Controlling the touch screen

Your system is equipped with a touch screen. You can perform various functions via touch inputs.

**Caution**

- Do not apply excessive pressure to the touch screen or touch it with a pointed object. Doing so may damage the touch screen.
- Do not let any electrically conductive material contact the touch screen. A shock from static electricity may cause the system or the touch screen to malfunction.

**Note**

If you wear regular gloves, you will not be able to control the touch screen. Remove your gloves or wear gloves designed for use with a touch screen.

**Touch**

Touch an object lightly and lift your finger. You can perform a function or select an option.

**Touch and hold**

Touch an object and hold it for at least one second without lifting your finger. You can rewind or fast forward media by touching and holding an appropriate button.
Getting to know the Home screen

From the Home screen, you can access various functions.

Drag

Touch and hold an object, drag it, and then drop it on a new location. You can move the selected object to another location or skip ahead or replay part of a song.

Swipe

Swipe the screen lightly in an appropriate direction. This is an easy way to scroll through a menu or list quickly.

1. Current time and date
2. System status icons ➤ See p.12-2 "System status icons."
3. AV information. Touch to activate the corresponding AV mode in full screen.
5. Access the smart driving maintenance (EV) menu.
The rear view and the parking guides provide a safer experience when you park your vehicle.

Getting to know the rear view screen

When you put the transmission shift lever in the "R" (Reverse) position while the engine is running, the system screen will automatically display what is behind you.

**Note**

- To move to the Home screen from another screen, touch 
  - If an SD card is not inserted into your system, the map will not be displayed on the Home screen.

- **Driving direction lines (yellow)**
  These lines show the directions of the vehicle according to the steering angle.

- **Neutral direction lines (blue)**
  These lines indicate your vehicle's expected path with the steering wheel in the neutral position. It can help you determine whether the vehicle is in the correct position in a parking space and prevent you from parking too close to the next vehicle.

- **Crash warning lines (red)**
  These lines are to help prevent a collision.
**Warning**

When backing up, make sure to follow the guidelines below:

- Before entering your vehicle, always check the area behind your vehicle.
- Do not solely rely on the rear view camera when backing up. Always ensure that it is safe to back up by checking behind you and looking in the rearview mirrors.
- Always back up slowly and stop immediately if you suspect that a person, especially a child, might be behind you.

**Caution**

The distance shown in the rear view screen may differ from the actual distance. For safety, be sure to visually check the rear, left, and right sides of your vehicle.

**Note**

- The rear view screen remains active while you are backing up. When you move the transmission shift lever to any position other than the "R" (Reverse) position after backing up, the rear view screen will be deactivated and the system will display the previous screen automatically.
- As you steer your vehicle, the parking guides change accordingly to indicate your vehicle's path.

- Depending on vehicle models, the steering-interactive parking guides may not be supported.
- If an object comes too close to your vehicle as you are parking the vehicle, a warning beep will sound. To prevent an accident that might result if you do not hear the beep, you can set the system to decrease the volume level of any media playing automatically when you are parking the vehicle. On the Home screen, touch All Menus ► Setup ► Sound ► Priority ► Proximity Warning.
Using the climate control system (*if equipped)

You can check the current status of the climate control system via the system screen.

On your vehicle, press the [CLIMATE] button.
- For more information on how to use the climate control system, refer to the owner’s manual of your vehicle.

If you operate the climate control system while using your system, the climate control settings are displayed at the top of the screen.

![Climate Control Screen](image)

1. Exterior temperature
2. Interior temperature
3. Air direction
4. Air volume
5. AUTO mode activated
6. Climate control activated only for the driver's seat
7. Air conditioner turned on
8. Heater only mode activated

**Note**
- The interior temperature is displayed in units of 1 °F.
- The AUTO mode will be deactivated automatically in the following situations:
  - When you adjust the air volume or direction
  - When you turn on or off the air conditioner
  - When you activate the front windshield defroster
- Depending on vehicle models or specifications, some functions may not be supported.
Smart driving maintenance (EV)

Starting the smart driving maintenance (EV) menu
Checking the drivable range
Viewing energy information
Viewing eco-driving information
Using the charging management features
Changing the EV settings
Starting the smart driving maintenance (EV) menu

You can use convenient features for electric vehicles, such as viewing your vehicle's driving or energy information, scheduling a charging of your vehicle, or searching for charging stations.

On the Home screen, touch **EV**.

1. Check the range you can drive with the current amount of battery and search for nearby charging stations.
2. View information related to energy, such as the drivable distance and battery status. ► See p.2-4 "Viewing energy information."
3. Schedule battery chargings or customize related options. ► See p.2-6 "Using the charging management features."
4. View your eco-driving information. ► See p.2-5 "Viewing eco-driving information."
5. Change the settings for smart driving maintenance (EV) features. ► See p.2-11 "Changing the EV settings."

**Note**

Depending on vehicle models or specifications, the screen layout and available options may vary.
Checking the drivable range

You can check the range you can drive with the current amount of battery on the map. You can also search for nearby charging stations and start navigation to the selected station if needed.

1. On the Home screen, touch **EV** and touch the map area.

2. On the map, view the drivable range and locations of nearby charging stations.
   - The drivable range will be indicated by a blue circle.
   - The locations of the charging stations within range will also be displayed.

   ![Map screenshot](image)

   - **1** Access the list of charging stations.
   - **2** Move to the previous screen.
   - **3** Change how the map is displayed.
   - **4** Zoom in.
   - **5** Zoom out.
Searching for nearby charging stations

If you need to drive beyond the drivable range, you can search for charging stations within range and start navigation to a selected station.

1. On the drivable range screen, touch List.

2. Select a charging station from the search result list.
   - To filter the search results, select a filtering option from the left side of the screen.
   - To sort the search results, touch the option menu (▼) and select a sorting option.
   - To set a charging station as your favorites, touch ★.

3. View the location on the map and touch Set as Destination ▶ Start Guidance.

Note

Depending on the third-party data provider’s situation and circumstances, some information may be inaccurate.

Viewing energy information

To view your vehicle’s energy information, on the Home screen, touch EV ▶ Energy Information.
Display the options list.
- **Electricity Use**: View the energy consumption of each component in your vehicle since you started the vehicle.
- **Maximum % Charge: DC Charger**: Set a target battery level for DC charging. ► See p.2-10 "Setting the target battery level."
- **Maximum % Charge: AC Charger**: Set a target battery level for AC charging. ► See p.2-10 "Setting the target battery level."

View the current battery status, drivable distance with the current battery level, and charging time. Touch ➕ to access energy consumption information.

View the estimated charging time and drivable distance when your vehicle is charged to the target battery amount by DC charging. Touch ➕ to set the target battery level.

View the estimated charging time and drivable distance when your vehicle is charged to the target battery amount by AC charging. Touch ➕ to set the target battery level.

**Note**
- The drivable distance is an estimate based on the real-time fuel efficiency. If your driving pattern changes, the estimated drivable distance will change accordingly.
- Even if you set the same target battery level, the estimated drivable distance may vary depending on changes in your driving pattern.

**Viewing eco-driving information**

To view your eco-driving information, on the Home screen, touch **EV ➤ ECO Driving**.
Using the charging management features

You can use various features, such as scheduling battery charges or climate controls according to a preset departure time.

Setting up scheduled chargings and climate controls

1. On the Home screen, touch **EV ➤ Charge Management ➤ Charging and Climate.**

---

1. View the amount of carbon dioxide reduction in comparison with gasoline vehicles.
2. View the records of your previous driving, such as the date, driving distance, and fuel efficiency.
   - The record with the best fuel efficiency is indicated with a star icon (⭐).
   - To delete your driving history, touch **Menu ➤ Delete History.**
2 Touch ▼ next to **Next Departure**.

3 Select a departure setting option and touch ▼ next to it.

4 Set the departure time and the days of the week and touch **OK**.
   - You can check the set departure time on the main screen of the Charge Management menu.

### Setting scheduled chargings

1 On the Home screen, touch **EV ➤ Charge Management ➤ Charging and Climate**.

2 Touch **Scheduled Charging** to activate it and touch ▼ next to it.
3 Set the off-peak electricity time and a time priority option and touch **OK**.

![Setting scheduled climate controls](image)

- **Prioritize Off-peak Charging**: Your vehicle will charge the battery for the preset departure time, primarily using the off-peak electricity time.
- **Charge ONLY during Off-peak**: Your vehicle will charge the battery only at the off-peak electricity time.

**Note**

Scheduled charging will start only if a charging cable is connected to your vehicle at the scheduled time.

**Setting scheduled climate controls**

1 On the Home screen, touch **EV ► Charge Management ► Charging and Climate**.

2 Touch **Scheduled Climate** to activate it and touch next to it.
3 Set a desired temperature, set whether to activate the auto defogging system, and touch OK.

Setting location-based chargings

1 On the Home screen, touch EV ► Charge Management ► Charging Location.

2 Touch Use Location-based Charging and set detailed options.

• Location Settings: Set a location where you want to implement scheduled chargings and climate controls.
• Restrict Location for Scheduled Charging/Climate: Set to implement scheduled chargings and climate controls only in the preset location.
• Charging Current at Location: Select a charging current to use in the preset location.

Note

• Depending on the types of chargers or cables, the maximum amount of charging current available may vary.
• If you do not set an appropriate charging current, the battery may not be charged properly and it may cause a charging error.
Setting the target battery level

1 On the Home screen, touch **EV ➤ Charge Management ➤ Max. % Charge**.

2 Select a charger type to set the target battery level.

3 Set the target battery level and touch **OK**.

---

**Note**

- AC charging ensures the optimal battery performance for a longer period of time than DC charging.
- When the battery amount reaches the target level, charging will stop. Charging the battery only as much as needed ensures the optimal battery performance for a longer period of time than charging the battery fully each time.

---

Setting the charging current

1 On the Home screen, touch **EV ➤ Charge Management ➤ Charging Current**.
2 Select a charger type to set the charging current.

3 Set the charging current and touch **OK**.

**Note**

- Depending on the types of chargers or cables, the maximum amount of charging current available may vary.
- If you do not set an appropriate charging current, the battery may not be charged properly and it may cause a charging error.

**Changing the EV settings**

To change the settings for smart driving maintenance (EV) features, on the Home screen, touch **EV ➤ EV Settings**.

**Note**

Depending on vehicle models or specifications, available options may vary.
Useful features

Setting up My Menu
Using Voice Memo
Using phone projection
Using data services
Setting up My Menu

Add your frequently used functions or favorites to My Menu to access them quickly from the Home screen. You can add up to 24 items to My Menu.

   - If you have already added items, on the My Menu screen, touch Menu ➤ Add.

2. Select items to add and touch Add ➤ Yes.

Editing My Menu

You can rearrange the items added to My Menu.

2. Drag an item to a desired location.

You can delete the items added to My Menu.

2. Select items to delete and touch Delete ➤ Yes.

Using Voice Memo

You can record voice memos using the microphone installed in your vehicle and play voice memos on your system.

On the Home screen, touch All Menus ➤ Voice Memo.
Using phone projection

Phone projection enables you to connect your Android smartphone or iPhone to your system and use their functions via the system. You can perform and control your smartphone applications by using the larger screen and enhance your use of the system.

⚠️ Caution

- Use only applications that are compatible with phone projection. Using incompatible applications may cause problems for your system or smartphone.
- Only compatible applications will be displayed on the phone projection screen. You can also check compatible applications by visiting the following websites:
  - Apple CarPlay: https://www.apple.com/ios/carplay
  - Android Auto: https://www.android.com/auto

1. Display the options list.
   - **Delete**: Delete voice memos.
   - **Save to USB Device**: Save voice memos to a USB storage device. This option is available only for USB storage devices formatted in FAT16/32 formats.
   - **Storage Info**: View information on the storage space used for your voice memos.

2. List of your voice memos. Touch a voice memo to play it.

3. Record/Pause button
   - Touch ‣ to start recording.
   - Touch ‾ to pause recording.

4. Stop button
   - Touch ‣ to stop recording. The recorded memo is added to the voice memos list on the left of the screen.
   - You can also press the [ 🎙 ] button on the steering wheel.

💡 Note

- Voice memo recording mutes the function in operation or pauses media playback.
- If you make or answer a call while recording a voice memo, the recording pauses. If an emergency call or Auto Crash Notification (ACN) call is connected, the recording will stop and the recorded voice memo will be saved automatically.
Connecting your iPhone via Apple CarPlay

Before using Apple CarPlay, be sure to check the following:

Apple CarPlay support on your iPhone

Visit the Apple homepage (https://www.apple.com/ios/carplay) and check the iPhone models that support Apple CarPlay.

Apple CarPlay activated or updated on your iPhone

On your iPhone, ensure that Apple CarPlay is activated. If your iPhone does not have the function, update the iPhone's operating system to the latest version.

Start Apple CarPlay by following the steps below:

1. On the Home screen, touch All Menus ➤ Setup ➤ Phone Projection ➤ Apple CarPlay ➤ Enable Apple CarPlay.

2. Connect your iPhone to the USB port in your vehicle via the cable supplied with the iPhone.
   - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch OK.

⚠️ Caution

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.
3 If your iPhone is locked, unlock it and agree to use phone projection.
   - When the iPhone is recognized successfully, **Apple CarPlay** appears on the Home screen.

4 On the Home screen, touch **Apple CarPlay**.

5 Use your iPhone's functions, such as calling and messaging, on your system.
   - Touch an icon on the screen to run an application or perform a function.
     - Touch the Apple home icon ( الخي) to move to the main screen of Apple CarPlay.
     - Touch the **HYUNDAI** icon ( الخي) to move to the Home screen of your system.

6 To end Apple CarPlay, remove the USB cable from your system.

**Note**

- When a USB cable is connected to your system, you cannot change the phone projection settings.
- Depending on Apple's policies, applications or functions that are compatible with Apple CarPlay, such as navigation apps or media players, may change. To check compatible applications, visit the Apple homepage (https://www.apple.com/ios/carplay).
- To use phone projection in optimized environments, update your smartphone's operating system to the latest version.
Connecting your Android smartphone via Android Auto

Before using Android Auto, be sure to check the following:

Android Auto support on your smartphone

Visit the Google homepage (https://www.android.com/auto) and check the regions, device types, and models that support Android Auto.

Android Auto installed on your smartphone

Download and install the Android Auto application from Google Play. If you are in a region where Android Auto is not supported, you cannot install the application.

- Depending on the connected device's hardware, firmware, and operating system versions, the recognition time may vary.
- Using phone projection may result in mobile communication charges.
- Depending on the network signal status, some functions may not work correctly.
- Avoid controlling your smartphone while phone projection is in use.
- While you are using Apple CarPlay, the following functions are unavailable:
  - Bluetooth
  - Blue Link calls
  - System's voice recognition (iPhone's voice recognition is available.)
  - USB and iPod modes
  - Volume control (depending on the connected device)
  - Searches using the [TUNE/FILE] knob
  - Android Auto
Start Android Auto by following the steps below:

1. On the Home screen, touch **All Menus ▶ Setup ▶ Phone Projection ▶ Android Auto ▶ Enable Android Auto.**

2. Connect your smartphone to the USB port in your vehicle via the cable supplied with the smartphone.
   - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK.**

   **Caution**
   Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

3. If your smartphone is locked, unlock it and agree to use phone projection.
   - When the smartphone is recognized successfully, **Android Auto** appears on the Home screen.

4. On the Home screen, touch **Android Auto.**

5. Use your smartphone's functions, such as calling and messaging, on your system.
   - Touch an icon on the screen to run an application or perform a function.
   - Press the [ení] button on the steering wheel to start Google voice recognition.
   - Press the [MODE] button on the steering wheel to select and start a media player installed on your smartphone, in addition to the system's AV modes.
   - Press the [én] button on the steering wheel to start using Bluetooth call functions.

6. To end Android Auto, remove the USB cable from your system.
Using phone projection may result in mobile communication charges.

Depending on the network signal status, some functions may not work correctly.

Avoid controlling your smartphone while phone projection is in use.

While you are using Android Auto, the following functions are unavailable:
- Bluetooth audio
- Blue Link calls
- System's voice recognition (smartphone's voice recognition is available.)
- USB and iPod modes
- Searches using the [TUNE/FILE] knob
- Apple CarPlay

Using data services

You can access an array of information with data services, such as HD Radio™ or SiriusXM™.

**Note**

- HD Radio data services are only available in metropolitan areas.
- SiriusXM is a paid satellite radio service.

On the Home screen, touch All Menus ➤ Data Services.

1. View traffic information. ➤ See p.3-10 "Viewing traffic information."
2. View weather information via HD Radio. ➤ See p.3-11 "Viewing weather information via HD Radio."
3. View details of current weather conditions, if you are in an HD Radio coverage area. ➤ See p.3-11 "Viewing weather information in HD Radio Doppler Radar."
4. View weather information via SiriusXM. ➤ See p.3-12 "Viewing weather information via SiriusXM."
5. Stay on top of current stock values and trends in the stock market. ➤ See p.3-12 "Viewing stock information via SiriusXM."
6. View sports information. ➤ See p.3-13 "Viewing sports information via SiriusXM."
7. See what is playing now and search for a nearby theater. ➤ See p.3-14 "Viewing the latest movie information via SiriusXM."
Viewing traffic information

1 On the Home screen, touch All Menus ➤ Data Services.

2 Touch Traffic.

3 Select an item from the traffic information list to view its details.
   • To view traffic information along your current route or to view all available traffic information, touch On Route.
   • To select the types of traffic information you want to view, touch Category.

4 View detailed traffic information.

   ① View the previous or next traffic information.
   ② Reflect traffic information to your current route.

Note

Traffic support for border crossings and speed limits set for individual roads may not be accurate. Use the information at your discretion.
Viewing weather information via HD Radio

1. On the Home screen, touch **All Menus ➤ Data Services**.

2. Touch **HD Radio Weather**.

3. View today's weather information in your city.
   - To view weather forecasts for today and the next four days, touch **5 Days**.
   - To view weather information of another area, touch **Other City**.

Viewing weather information in HD Radio Doppler Radar

1. On the Home screen, touch **All Menus ➤ Data Services**.

2. Touch **HD Radio Doppler Radar**.

3. View detailed weather conditions in the HD Radio coverage area.
Viewing weather information via SiriusXM

1. On the Home screen, touch All Menus ➤ Data Services.

2. Touch SiriusXM Weather.

3. View today's weather information in your city.
   - To view weather forecasts for today and the next four days, touch 5 Days.
   - To view weather information of another area, touch Other City.
   - To view warnings and advisories for adverse weather conditions, such as tornadoes, tropical storms, and blizzards, touch Warnings and Advisories.

Viewing stock information via SiriusXM

1. On the Home screen, touch All Menus ➤ Data Services.

2. Touch SiriusXM Stocks ➤ Add.

3. Search for your favorite stock by entering a stock symbol in the search bar and then touch ⭐ to add it to the list.
   - Repeat this step to add more stock symbols.
Now you can check information on your stock every day by touching All Menus ► Data Services ► SiriusXM Stocks.

Viewing sports information via SiriusXM

1 On the Home screen, touch All Menus ► Data Services.

2 Touch SiriusXM Sports.

3 Select the sport that interests you.
   • To set up a list of your favorite teams and check their daily results and schedules, touch My Teams.

4 View real-time scores and schedules for major events and games.

Note
To delete a stock symbol from your favorites list, touch .
Creating a list of your favorite teams

1. On the Home screen, touch All Menus ➤ Data Services.

3. Search for your favorite team by entering its name in the search bar and then touch 🌟 to add it to the list.
   - Repeat this step to add more teams.

Note

To delete a team from your favorites list, touch 🌟.

Viewing the latest movie information via SiriusXM

1. On the Home screen, touch All Menus ➤ Data Services.
2 Touch **SiriusXM Movies ➤ Top Movies.**

3 View information about the latest movies.
   • To reorder the titles on the list, touch the option menu (▼) and select an option.
   • To view detailed information about a movie, touch 📀.

### Searching for nearby theaters

1 On the Home screen, touch **All Menus ➤ Data Services.**

2 Touch **SiriusXM Movies ➤ Nearby Theaters.**

3 Search for nearby theaters and view their location information.
   • To sort the search results, touch the option menu (▼) and select a sorting option.
   • To view detailed information about a theater, touch 📈.
   • To set a theater as one of your favorites, touch ✭.
| Creating a list of your favorite theaters |

1. On the Home screen, touch **All Menus ➤ Data Services**.

2. Touch **SiriusXM Movies ➤ Favorite Theaters ➤ Add**.

3. Find your favorite theater from the list and touch ⭐.
   - Repeat this step to add more theaters.
Radio

- Turning on the radio
- Changing the radio mode
- Scanning for available radio stations
- Searching for radio stations
- Saving radio stations
- Listening to saved radio stations
- Listening to HD Radio™
- Listening to SiriusXM™ radio
Turning on the radio

On the Home screen, touch All Menus ➤ Radio.

1. Display the options list.
   - **Station List**: Access the list of available radio stations.
   - **Delete Presets**: Delete saved radio stations from the preset list.
   - **Info**: Set to display text information received from the current broadcasting station.
   - **Sound Settings**: Customize the system sound settings.
     ► See p.10-3 “Setting the system sound.”

2. Move to the previous screen.
3. Radio station information
4. Preset list

5. Select a radio mode.
6. Activate the HD Radio mode.
7. Preview each radio station for five seconds and select the station you want.

Changing the radio mode

On the radio screen, touch Band and select a desired mode.

- Alternatively, press the [RADIO] button on the control panel or the [MODE] button on the steering wheel. Each time you press the button, the radio mode switches to FM ➤ AM ➤ SiriusXM in order.
Scanning for available radio stations

You can listen to each radio station for a few seconds and select the one you want.

1. On the radio screen, touch **Scan**.
   - The system provides a preview of each radio station on the available stations list for five seconds.

2. When you find the radio station you want to listen to, touch **Scan** to stop the scan.
   - You can continue listening to the current radio station.

Searching for radio stations

To search for the previous or next available radio station, press the [.Track] or [Seek] button on the control panel.

- To select a radio station from the available stations list, touch **Menu ➤ Station List** on the radio screen.
- You can also press and hold the [.Track] or [Seek] button to search for frequencies quickly. When you release the button, the next available radio station is selected automatically.
Saving radio stations

You can save your favorite radio stations and listen to them by selecting them from the preset list.

On the radio screen, touch and hold an empty slot from the preset list.
- The radio station you are listening to will be added to the selected slot.

Note
- You can save up to 40 radio stations.
- If a station is already saved to the selected preset number, the station will be replaced by the station you are listening to.
- To delete saved radio stations from the preset list, touch Menu ➔ Delete Presets.

Listening to saved radio stations

Select one of the radio stations in the preset list.
- Alternatively, push the [▲/▼] lever on the steering wheel to change the radio station.

Listening to HD Radio™

If you enable HD Radio reception by touching HD Radio, you can listen to HD Radio stations in areas where they are available. When HD Radio signals are received, the radio will switch from the analog mode to the HD mode.
In the HD mode, HD Radio station buttons are displayed at the top of the radio screen. Touch a button to select one of the available HD Radio stations.

Note

HD Radio is only available in metropolitan areas.

Program Info: Presents song name, artist, station IDs, and other relevant data streams.

Digital Sound

Digital, CD-quality sound. HD Radio™ Technology enables local radio stations to broadcast a clean digital signal. AM sounds like today's FM and FM sounds like a CD.

HD2/HD3

FM stations can provide additional digital-only audio programming on HD2/HD3 Channels.

Traffic

Real-Time Traffic reports, alerts, and flow data displayed on screen via interactive traffic maps and/or data.
Listening to SiriusXM™ radio

You can listen to radio channels provided by SiriusXM, a satellite radio service. Various kinds of channels, such as music, sports, and news, are available via streaming or live broadcast.

Note

- SiriusXM service requires a subscription (sold separately) after the three-month trial included with the vehicle expires. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call Sirius XM at 1-866-635-2349 to cancel. See Customer Agreement for terms and conditions at www.siriusxm.com.
- Programming is subject to change.
- Sirius satellite service is available only to those at least 18 years of age and older in the Continental United States (including Puerto Rico) with coverage limitations.
- Traffic information is not available for all markets. See siriusxm.com/traffic for details.

On the radio screen, touch Band ➤ SiriusXM.

1 Access the list of available SiriusXM radio channels.
2 Display the options list.
   - **Delete Presets**: Delete saved radio stations from the preset list.
   - **What is on My Presets?**: View broadcast schedule.
   - **Featured Favorites**: Listen to groups of channels provided by SiriusXM.
   - **Sound Settings**: Customize the system sound settings.

➤ See p.10-3 “Setting the system sound.”
Searching for SiriusXM radio channels

You can select a channel from the available SiriusXM channels list.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Channel List.

3. Select a category and a channel.
   • To skip a channel when scanning with the [TRACK] and [SEEK] buttons or [TUNE] knob, touch Skip.

**Note**

The icon will be shown next to the first 10 SiriusXM channels saved. Once preset channels are saved, broadcasts from these channels will be buffered automatically for your convenience each time you start your vehicle.

- Move to the previous screen.
- Switch to the live broadcast mode. This button is activated only when a live broadcast is available on the selected channel.
- Move to the previous segment. Touch and hold to rewind the broadcast by five second decrements.
- Pause or stop the broadcast.
- Move to the next segment. Touch and hold to fast forward the broadcast by five second increments.
- Weak reception indicator
- Change the radio mode.
- Select a channel by entering its channel number.
- Scan through all available SiriusXM radio channels.
Selecting channels by using channel numbers

If you know the exact channel number, you can enter it to select the channel directly.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Direct Tune.

3. Enter a channel number and touch OK.

Viewing the program schedule

You can view the program schedule and information for the channels stored in your preset list.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Menu ➤ What is on My Presets?.

3. Set a date and time on the top line of the screen.
   - To select a date, touch the date display field at the top left of the preset list and select a date and time zone.
   - To select a time, touch or .
Select a channel and a program to view its detailed information.

Note
If there is hidden information, an arrow will appear next to the program. Touch the arrow to view the hidden information.

Listening to Featured Favorites channels

You can listen to Featured Favorites channels on SiriusXM radio. Multiple sets of channels can be broadcast and can be changed by SiriusXM.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Menu ➤ Featured Favorites.
Media player

Using the media player
Using the USB mode
Using the iPod mode
Using the AUX mode
Using the media player

You can play music stored in various media storage devices, such as USB storage devices, smartphones, and iPods.

1 Connect a device to the USB port or the AUX port in your vehicle.
   • Playback may start immediately depending on the device that you connect to the system.

2 Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • If you have multiple media storage devices, press the [MEDIA] button again and select a media mode from the media selection window.

Note

• When you connect an Apple device, playback does not start automatically and the AV information area remains in the previous mode. You cannot touch the AV information area to start playback. To start the media player in the iPod mode, press the [MEDIA] button on the control panel.
• You can also change the mode by pressing the [MODE] button repeatedly on the steering wheel.
• Depending on vehicle models and specifications, available buttons or the appearance and layout of the USB/AUX ports in your vehicle may vary.
Controlling the media player

Use the buttons at the bottom of the playback screen to control the media player.

Rewinding/Fast forwarding

Touch and hold [←] or [→] to rewind or fast forward. Alternatively, press and hold the [TRACK] or [SEEK] button on the control panel.
• You can also push and hold the [>/<] lever on the steering wheel.

Restarting the current playback

Touch [++] to restart the song currently playing. Alternatively, press the [TRACK] button on the control panel.
• You can also push the [>/<] lever downward on the steering wheel.

Pausing/Resuming playback

Touch [↓] to pause playback. Touch [↑] to resume playing your music.
• You can also press the [↑] button on the steering wheel.

Note

The iPod mode does not support pausing or resuming playback with the [↑] button.
Playing the previous or next song

To play the previous song, touch \( \text{[} \triangleright \text{ TRACK}\text{]} \) twice or press the \( \text{[} \triangleright \text{ TRACK}\text{]} \) button twice on the control panel. To play the next song, touch \( \text{[} \triangleright \text{ SEEK}\text{]} \) or press the \( \text{[} \triangleright \text{ SEEK}\text{]} \) button on the control panel.

- You can also use the \( \text{[} \triangleright \text{ SEEK}/\triangleright \text{ SEEK}\text{]} \) lever on the steering wheel.

Note

- On the control panel, turn the \( \text{[} \text{FILE}\text{]} \) knob to find the desired song and press the knob within five seconds to play the file.
- If no control is detected within five seconds, the search is canceled and the screen displays information about the song currently playing.

Playing repeatedly

Touch \text{Repeat} to play a file on repeat. The repeat play mode changes each time you touch it. The corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available repeat play modes may vary.

Playing in random order

Touch \text{Shuffle} to shuffle an album or playlist. The shuffle play mode is activated or deactivated each time you touch it. When you activate the shuffle mode, the corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available shuffle play modes may vary.

Note

For specific descriptions of each media mode, refer to the corresponding section. The description on the Bluetooth audio mode is included in the "Bluetooth" chapter.
Using the USB mode

You can play media files stored in portable devices, such as USB storage devices and MP3 players. Check compatible USB storage devices and file specifications before using the USB mode. ► See p.12-8 "USB mode."

Listening to music

1 Connect your USB device to the USB port in the vehicle.

2 Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • The media player is displayed in full screen.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch USB Music from the media selection window.

Using the USB mode

You can play media files stored in portable devices, such as USB storage devices and MP3 players. Check compatible USB storage devices and file specifications before using the USB mode. ► See p.12-8 "USB mode."

Listening to music

1 Connect your USB device to the USB port in the vehicle.

2 Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • The media player is displayed in full screen.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch USB Music from the media selection window.

Listening to music

1 Connect your USB device to the USB port in the vehicle.

2 Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • The media player is displayed in full screen.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch USB Music from the media selection window.
Note

Only USB storage devices formatted in FAT16/32 formats support deleting files. You can find the deleted files in the "Hidden_" folder.

Caution

- Start the engine of your vehicle before connecting a USB device to your system. Starting the engine with a USB device connected to the system may damage the USB device.
- Be careful of static electricity when connecting or disconnecting a USB device. A static discharge may cause a system malfunction.
- Be careful not to let your body or external objects contact the USB port. Doing so may cause an accident or a system malfunction.
- Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.
- Do not use a USB device for purposes other than playing files. Using USB accessories for charging or heating may cause poor performance or a system malfunction.

Note

- When connecting a USB storage device, do not use an extension cable. Connect it directly to the USB port. If you use a USB hub or an extension cable, the device may not be recognized.
- Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
- When you disconnect a USB device, a distorted noise may occur.
- The system can play only files encoded in a standard format.
- The following types of USB devices may not be recognized or work correctly:
  - Encrypted MP3 players
  - USB devices not recognized as removable disks
- A USB device may not be recognized depending on its condition.
- Some USB devices may be incompatible with your system.
- Depending on the USB device's type, capacity, or the format of files, USB recognition time may be longer.
- Depending on the specification, some USB devices may not support charging via a USB connection.
## Searching for music files on a file list

Access a file list to search for and select a song.

1. On the music playback screen, touch **List**.

2. Touch the screen to open a folder, move to another category, or play a music file.

   ![File List](image)

   - **1** Display the options list.
     - **Now Playing**: Move to the location of the file currently playing while searching for a music file in another folder/category. This option is disabled when a file in the current playlist is playing.
   
   - **2** Move to the previous screen.
   - **3** Move up to another folder/category.
   - **4** Folder/Category name
   - **5** Search for a song based on categories.
   - **6** Scroll bar

### Using the iPod mode

You can listen to music stored on your Apple devices, such as an iPod or an iPhone. Check compatible Apple devices and iOS specifications before using the iPod mode. ► See p.12-10 “iPod mode.”

1. Connect your Apple device to the USB port in your vehicle using the cable supplied with the Apple device.
   - When connected, the device will begin charging. Music playback will not start automatically.
2 On the control panel, press the [MEDIA] button.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch iPod from the media selection window.

Access the files list.
2 Display the options list.
   • Sound Settings: Customize the system sound settings. ▶ See p.10-3 "Setting the system sound."
3 Move to the previous screen.
4 Information about the song currently playing
5 Repeat play mode
6 Shuffle play mode
7 Number of files on the current playlist
8 Playback time and playback position

⚠️ Caution

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

Searching for music files on a file list

Access a file list to search for and select a song.

1 On the music playback screen, touch List.
2 Touch the screen to move to another category or play a music file.

1 Move to the previous screen.
2 Move up to another category.
If you connect your device to the system while playback is in progress on the device, you may hear a high pitch sound just after the connection. Connect the device after stopping or pausing playback.

Connecting your device during a download or synchronizing with iTunes may cause an error. Connect the device after the download or synchronization is complete.

If you connect an iPod nano (except for the 6th generation) or an iPod classic, the brand logo will be displayed on the device screen. For an iPhone and an iPod touch, the logo will not be displayed.

Notes on connecting Apple devices

- Ensure that the iOS and firmware of your device is up-to-date before connecting it to your system. Outdated devices may cause a system error.
- If your device’s battery is low, the device may not be recognized. Check the battery level and, if necessary, charge the battery before connecting the device to your system.
- Use an Apple-approved cable. Using an unapproved cable may cause a distorted noise or an error during playback.
- Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
- If you connect a media device or mobile phone to your system via both a USB cable and an AUX cable, your system or device may not operate correctly. To use a USB connection, disconnect the AUX cable from the device.

Notes on playing Apple devices

- Depending on the model, your device may not be recognized due to unsupported communication protocols.
- The order of the songs displayed or played on the system may differ from the order of the songs stored in your device.
- Podcasts and audiobooks will play on your system if the dedicated applications are not installed on your Apple device. You can access those files in the Other category.
Using the AUX mode

You can listen to audio from your vehicle's speakers by connecting external devices, such as smartphones and MP3 players.

Connect an external device to the AUX port in your vehicle using an AUX cable.

- The AUX mode starts automatically and the sound is heard via your vehicle's speakers.

</tbody>
</table>

- Podcasts and audiobooks may not play or may not be displayed on your system if your Apple device has iOS 6.0 or later installed.
- In an iPhone, the audio streaming function and iPod mode control may conflict. If an error occurs, disconnect and reconnect the USB cable.
- When using an iPhone or an iPod touch, do not control the device while it is connected to your system. An error may occur.
- If you make or receive a call during playback via an iPhone, the music may remain paused after you end the call. If you do not hear the music after ending a call, check the device to see if the music is paused.
- Do not duplicate a song in multiple folders. One song saved in multiple folders may cause an error with search and playback functions.
- If you perform a media control function, such as stop or repeat, just before a song ends, the song information displayed on the screen may not match the song currently playing. This is not a system error. Restart the iPod mode on the system or pause and resume playback on your device.

- Sound Settings: Customize the system sound settings.

  ► See p.10-3 "Setting the system sound."
Note

- Because the system works as an output device of the connected external device in the AUX mode, you cannot use controls other than the volume control. Use controls on the external device to control playback.
- The sound volume for the AUX mode is adjusted separately from the other modes.
- Depending on the device type, using an external device with the power cable plugged into the power jack may cause a distorted noise.
- If the AUX cable is plugged into the system without an external device, a distorted noise may occur. Remove the AUX cable from the AUX port when an external device is not connected.
Navigation

- Finding a route quickly
- Finding a route with various search methods
- Using helpful navigation options
- Registering locations
- Updating the map
- Changing navigation settings
Finding a route quickly

You can find a route to your destination quickly and start the navigation.

1 On the Home screen, touch the map area.
   • Alternatively, if your system has the [MAP] button on the control panel, press the [MAP] button.

2 On the map, touch Place or Address.

3 Enter location information, such as a place name, an address, or coordinates, and touch OK.

Note

The Place or Address field appears only when the transmission shift lever is in the "P" (Park) position.

•  View the recent keywords list.
• MI: Narrow the search range to a desired region. Touch to view the recent states list.
• : Switch to the uppercase mode.
• : Delete the entered characters.
• & #: Switch to the symbol input mode.
• **ABC**: Switch to the alphabet input mode.
• **AAAA**: Switch to the accent input mode.
• **(space)**: Enter a space.
• **(.)**: Enter a punctuation mark.
• **(Setting)**: Change the keyboard settings.

4 Select a location from the search result list.
• To filter the search results by region, touch **Filter by City**.
• To filter the search results by POI category, touch **Filter by Category**.

5 Touch **Start Guidance**.

![Navigation Screen](image)

**Note**

- You can use various search methods available in the navigation menu. On the Home screen, touch **All Menus** ➤ **NAV Menu**. ➤ See p.6-8 "Finding a route with various search methods."

- If the HD Radio or SiriusXM service is available for traffic information, the corresponding icon will appear at the top of the navigation screen.
  - **HD Radio (HD)**: The system is using HD Radio data. HD Radio is only available in metropolitan areas.
  - **SiriusXM (XM)**: The system is using SiriusXM data. SiriusXM is only available when HD Radio is unavailable because HD Radio data has higher priority than SiriusXM data.
When you are driving on a road under construction or a new road
- When your vehicle is transported by a car ferry or a towing car
- When you are driving on a road on a steep mountain or a road with a sharp curve
- When your vehicle enters a road after rotating on a turn table of an underground parking lot or a multistory parking lot
- When you start and stop repeatedly or drive slowly at an intersection
- When you turn on your system just after charging or replacing the discharged battery
- When you are driving in slippery conditions, such as in heavy sand or snow
- When the tires have been replaced recently or when studless tires or spare tires are used
- When improper-sized tires are used or the pressure of each tire is different
- When the replacement tire is worn, especially studless tires that have been used for more than two seasons
- When a roof carrier has been installed on your vehicle
- While a long distance route is being calculated on a highway. In this circumstance, continued driving will enable the system to conduct map matching or use updated GPS information to provide the current location information.

Caution

Depending on the region you are driving in or the driving conditions, information on the map may differ from the actual road conditions.

- When converted to an electronic map, the road shape may be altered. If the navigation guidance is different from the actual road, use your judgment and take the appropriate road.
- The navigation guidance may differ from the actual road due to the time difference between the map production and your driving. Drive according to the current road conditions and traffic regulations. When you reach the section of the route that matches the actual road, the navigation will resume your route correctly.

Notes on navigation

- The location of your vehicle displayed on the screen may temporarily differ from the actual location in the following situations:
  - When you are driving on a narrow Y-shaped or spiral road
  - When another road is located close to the current road
  - When you are driving on a road with a lot of high buildings nearby
Getting to know the navigation screen

You can use the following functions and information on the navigation screen.

1. Move to the Home screen.
2. Change how the map is displayed.
   - North Up: North is always up.
   - Heading Up: The map rotates according to your driving direction.
   - 3D Map: A three-dimension effect is applied and the map rotates according to your driving direction.
3. Adjust the navigation sound volume.
4. Zoom in.

- The navigation guidance may be incorrect temporarily depending on search conditions or your driving position:
  - The navigation may instruct you to go straight when you are driving on a straight road.
  - The navigation guidance may stop while you are driving an intersection or just after turning at an intersection.
  - The navigation may instruct you to take a U-turn at a location where a U-turn is prohibited.
  - The navigation may instruct you to take prohibited roads, such as roads marked as no trespassing or roads under construction.
  - The navigation may instruct you to a distant location from your destination when there is no road or where only narrow roads to the destination exist.
  - The navigation guidance may be incorrect when you are off your route.
  - The navigation estimate to your destination may differ from the actual distance due to the difference in the starting point of the road on a overpass or an underpass.
  - When you are driving at high speeds, route recalculations may take longer.
5 Set to fix the map scale or to set it to change automatically according to driving conditions.
6 Zoom out.
7 Information about this turn point
8 Information about the next turn point
9 Lane guidance
   • Yellow: The recommended lane
   • White: Lanes you can choose
   • Gray: Lanes to avoid
10 Display the quick menus you can use for navigation guidance.
11 View the distance to your destination and the estimated arrival time. Touch to view detailed destination information.
12 Stop the navigation guidance.
13 Hide or display the split screen.

---

**Viewing the split screen**

The screen splits automatically when you need to take a turn or change lane and displays detailed information.

- To hide or display the split screen, touch 💡 or ⬅️.

On the split screen, you can view brief or detailed information about each section of the route.
Adjusting the navigation sound volume

You can adjust the sound volume of the navigation guidance including GPS alert beeps.

Touch \( \) on the navigation screen and touch \( \) or \( \) or drag the adjustment bar to adjust the volume level.

- To mute the voice guidance, touch \( \). You can also set to hear the voice guidance prior to the AV audio.

Changing the default map view settings

You can change the default view mode of the map screen.

On the navigation screen, touch Menu > Map Display and select a view mode or set to display nearby buildings.

Note

To change the navigation settings other than the default map view settings, touch Menu > Settings.
**Note**

You can set to use the [VOL] knob or the [VOL +/VOL -] lever to adjust the navigation sound volume while the voice guidance is playing. On the Home screen, touch **All Menus ➤ Setup ➤ Sound ➤ Navigation Volume** and select **Use Map Screen Volume Buttons or Volume Knob**.

**Canceling the navigation**

To stop the navigation guidance and cancel the set destination, touch **Cancel Route ➤ Yes**.
- The destination mark at the bottom of the screen disappears.

**Finding a route with various search methods**

You can search for a location by various ways, such as entering location information, selecting among categorized locations or the recently selected locations in the navigation menu.

On the Home screen, touch **All Menus ➤ NAV Menu** to access the navigation menu.
- Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.
Searching for locations by keyword

You can find a location by entering various keywords, such as a place name, an address, or a phone number and select a location from the search results to set it as your destination.

1. On the navigation menu screen, touch **Place or Address**.

- **Searching for a location by entering various kinds of keywords, such as a place name or an address.** ► See p.6-9 "Searching for locations by keyword."

- **Search for a location by entering an address.** ► See p.6-11 "Searching for locations by address."

- **Select one of the destinations you entered previously.** ► See p.6-16 "Selecting a location from previous destinations."

- **If you are subscribed to the Blue Link service, search for a location based on the online map database.** ► See p.6-16 "Searching for locations via the online server."

- **Search for a location by using the point of interest (POI) category.** ► See p.6-11 "Searching for locations by POI category."

- **Search for a charging station.** ► See p.6-13 "Searching for charging stations."

- **Search for a restaurant by type.** ► See p.6-14 "Searching for restaurants."

- **Search for a nearby emergency service.** ► See p.6-14 "Searching for emergency services."

- **Select one of locations stored in your address book.** ► See p.6-26 "Using the saved locations."

- **Search for a location by entering coordinates.** ► See p.6-15 "Searching for locations by coordinates."
2 Enter location information, such as a place name, an address, or coordinates, and touch OK.
   • If there are any entries in your search history that match your input, they will appear above the keyboard.

3 Select a location from the search result list.
   • To filter the search results by region, touch Filter by City.
   • To filter the search results by POI category, touch Filter by Category.

4 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.

1 Select another route or access route-related options.
   • Route Options: Set the route options and find another route.
   • Route Info.: View the detailed information about the selected route.
   • Edit Route: Edit the detailed path of the selected route.

2 Add a waypoint to your current route.

3 Save the currently selected location to your address book.

4 Access the POI category list to view or search for nearby POIs.
Searching for locations by address

1. On the navigation menu screen, touch **Address**.
2. Enter the address of your destination and touch **OK**.
3. Select a location from the search result list.
4. View the location on the map and touch **Start Guidance**.
   - If the destination is active, touch **Yes** to change the destination.

Searching for locations by POI category

You can find a location by using the POI categories or names.

1. On the navigation menu screen, touch **POI Categories**.
2. Select a POI category.
   - To select one from the recent search list, touch **History**.
   - To search for a POI by entering a POI category, touch **Search**.
3 Select a sub-category by following the on-screen instructions.

4 Select a location from the search result list.
   • To filter the search results, select a filtering option from the left side of the screen.
   • To sort the search results, touch the option menu (▼) and select a sorting option.

5 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.

Note
To search for nearby points of interest during the navigation guidance, touch Menu ► POI ► All POI Categories. You can also select a category from the POI category list.
Displaying POIs on the map

You can set to display nearby POIs on the map.

On the navigation screen, touch Menu ► POI and touch the check boxes next to items to display on the map.

• To edit the POI category list in the quick menu, touch Menu ► POI ► Edit.

Searching for charging stations

1 On the navigation menu screen, touch Charging Stations.

2 Select a location from the search result list.
   • To sort the search results, touch the option menu (▼) and select a sorting option.

3 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.
Searching for restaurants

1. On the navigation menu screen, touch **Restaurants**.

2. Select a location from the search result list.
   - To filter the search results, select a filtering option from the left side of the screen.
   - To sort the search results, touch the option menu (▼) and select a sorting option.

3. View the location on the map and touch **Start Guidance**.
   - If the destination is active, touch **Yes** to change the destination.

Searching for emergency services

1. On the navigation menu screen, touch **Emergency**.

2. Select an emergency service type.
   - If applicable, use the location displayed at the bottom of the screen when contacting an emergency service.
Searching for locations by coordinates

1. On the navigation menu screen, touch **Coordinates**.

2. Enter the latitude and longitude of the location you want and touch **OK**.
   - You can enter coordinates in either the DMS (degrees, minutes, seconds) format or the decimal degree format. When you enter a decimal point or degree symbol, the format will change automatically.

3. View the location on the map and touch **Start Guidance**.
   - If the destination is active, touch **Yes** to change the destination.

4. Select a location from the search result list.

View the location on the map and touch **Start Guidance**.

- If the destination is active, touch **Yes** to change the destination.
Selecting a location from previous destinations

You can select a location from the list of locations you have previously entered.

1 On the navigation menu screen, touch Previous Destinations.

2 Select a location type and a location.
   • To sort the search results, touch the option menu (▼) and select a sorting option.
   • To delete the locations from a list, touch Delete Items. You can select and delete locations, or delete all locations at a time.

3 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.

Searching for locations via the online server

You can search for locations in the online map database. To use this feature, you must subscribe to the Blue Link service.

1 On the navigation menu screen, touch Online Search.

2 Enter a keyword in the input field and touch OK.
3 Select a location from the search result list.

4 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.

Using helpful navigation options

Finding another route

You can change the route options to search for a route again.

1 On the navigation screen, touch Menu ► Route ► Route Options.

2 Set the route options and touch Recalculate.
3 Select a route and touch **Start Guidance**.

![Navigation Screen]

**Note**

Depending on vehicle models or specifications, available options may vary.

---

**Making a detour**

You can search for a detour from the current route.

1 On the navigation screen, touch **Menu ▶ Route ▶ Detour**.

2 Select a detour by distance.
   - The navigation system searches for a new route according to the selected distance.

3 Select a new route and touch **Start Guidance**.
Avoiding specific roads

You can search for a new route that avoids specific roads, such as congested roads and roads under construction.

1 On the Home screen, touch All Menus ➤ NAV Menu to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2 Touch Route ➤ Avoid Street.

3 Select the roads you want to avoid and touch Done.

4 Select a new route and touch Start Guidance.

Note

When there is a nearby road under construction, a notification pop-up window appears to ask you whether to avoid the section. To avoid the section, touch Yes. The navigation system will search for a new route.
Adding waypoints

You can add waypoints to the current route to your destination. You can add up to two waypoints to your route.

Searching for and adding waypoints

You can search for a location and add it as a waypoint.

1. Search for a waypoint by various search methods. ► See p.6-8 "Finding a route with various search methods."

2. View the location and information on the map and touch Add Waypoint.

3. Touch Done.

4. Select a new route and touch Start Guidance.

Editing your route

You can edit your route by adding waypoints or rearranging the locations in the route.

1. On the navigation screen, touch Menu ► Route ► Edit Route.
2 On the route editing screen, touch **Add Waypoint**.

3 Select a search method and search for a location to add it as a waypoint. ▶ See p.6-8 "Finding a route with various search methods."

4 Edit the route, if necessary.
   - To rearrange the locations, select a location and touch ▲ or ▼.
   - To delete a waypoint, select the location you want and touch □.

5 When editing your route is complete, touch **Done**.

6 Select a new route and touch **Start Guidance**.
Viewing information

During navigation, you can view useful information, such as traffic conditions.

Viewing traffic information

You can view real-time traffic information including any ongoing road work or accidents.

1. On the navigation screen, touch Menu ➤ Traffic.

2. Select an item from the traffic information list to view its details.
   - To view traffic information along your current route or to view all available traffic information, touch On Route.
   - To select the types of traffic information you want to view, touch Category.
3 View detailed traffic information.

Viewing satellite information

You can view GPS satellite status and the coordinates of your current location. Use this information if you need to know your accurate location, such as in an emergency situation.

On the navigation screen, touch Menu ➤ Settings ➤ Display ➤ GPS Information.

1 View the previous or next traffic information.
2 Reflect traffic information to your current route.

Note

Traffic support for border crossings and speed limits set for individual roads may not be accurate. Use the information at your discretion.

Current status of satellite signal reception

- **Receiving**: The system is receiving satellite signals and the current location is recognized.
- **Searching**: The system is searching for satellite signals.

Information about your current location
Registering locations

You can register your current location or desired locations to your address book and select them quickly when setting a destination.

Saving your current location

You can save your current location quickly.

1. On the navigation screen, touch **Menu ➤ Save**.

Searching for and saving locations

You can search for a location and save it to your address book.

1. On the Home screen, touch **All Menus ➤ NAV Menu** to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2. Edit the location information, if necessary, and touch **Save**.
Touch **Address Book ➤ My Places**.

2

Touch **Add** from the address book.

3

Touch **Places** and enter a keyword to search for a location.

- You can use other search methods to find a location.
  ➤ See p.6-8 “Finding a route with various search methods.”

4

View the location and information on the map and touch **Done**.

5

Edit the information, if necessary, and touch **Save**.

6
**Saving your favorite locations**

You can save your favorite locations, such as your home and workplace, to use navigation guidance more quickly.

1. On the Home screen, touch **All Menus ➤ NAV Menu** to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2. Touch a shortcut button with 📆.

3. Touch **Yes**.

4. Touch **Places** and enter a keyword to search for a location.
   - You can use other search methods to find a location. ➤ See p.6-8 "Finding a route with various search methods."

5. View the location and information on the map and touch **Done**.

**Using the saved locations**

1. On the Home screen, touch **All Menus ➤ NAV Menu** to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2. Touch **Address Book ➤ My Places**.
   - To select a location from the ones received from Google, touch **Send to Car**. ➤ See p.9-5 "Using the received location information."
Using your favorite locations

If you have set up a list of your favorite locations, you can select one of them directly at the bottom of the screen to set it as your destination.

1 On the Home screen, touch All Menus ➤ NAV Menu to access the navigation menu.
   • Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2 Touch a shortcut button where a desired location has been saved.
   • If the destination is active, touch Yes to change the destination.

3 Select a route and touch Start Guidance.

4 View the location on the map and touch Start Guidance.
   • If the destination is active, touch Yes to change the destination.

Note

You can import or export your address book data by using a USB storage device. From the address book screen, touch Import/Export and select an option you want.
Editing saved locations

You can edit information, such as the name and phone number, or change the attributes of the information.

1. On the Home screen, touch All Menus ➤ NAV Menu to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

2. Touch Address Book.

3. Select a group including the location information you want to change on the left side of the screen.

4. Touch Edit next to the location name from the address book.

5. Edit the information and touch Save.

Deleting saved locations

You can delete saved location information.

1. On the Home screen, touch All Menus ➤ NAV Menu to access the navigation menu.
   - Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.
Changing navigation settings

You can customize various settings for navigation, such as map view and guidance settings.

On the Home screen, touch **All Menus ► Setup ► Navigation.**

YOU AGREE THAT YOUR RIGHTS UNDER THIS EULA MAY BE TERMINATED AUTOMATICALLY WITHOUT NOTICE IF YOU FAIL TO COMPLY WITH ANY TERM(S) OF THIS EULA.
Terms and Conditions

**Personal Use Only.** You agree to use this Product together with COMPANY's authorized application for the solely personal, non-commercial purposes for which you were licensed, and not for service bureau, time-sharing or other similar purposes. Accordingly, but subject to the restrictions set forth in the following paragraphs, you agree not to otherwise reproduce, copy, modify, decompile, disassemble, create any derivative works of, or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws. You may not assign this EULA or any of the rights or licenses granted under this EULA, except when installed in the system for which it was created.

**Restrictions.** Except where you have been specifically licensed to do so by COMPANY, and without limiting the preceding paragraph, you may not use the Product (i) with any products, systems, or applications installed or otherwise connected to or in communication with vehicles, capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (ii) with or in communication with any positioning devices or any mobile or wireless-connected electronic or computer devices, including without limitation cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

**Uploads.** The Product may provide functionality through which you are able to upload certain information about your use of the Product (collectively, "Uploads") to COMPANY's servers or receive other services from COMPANY (collectively, the "Services"). If you use such functionality, you authorize COMPANY to retain your Uploads on its servers. COMPANY will have no obligation to provide any Services, may change the form and nature of any Services at any time with or without notice to you, will have no liability whatsoever to you for any failure of the Product or Services to transmit your Uploads to or from COMPANY's servers, may cease providing any Services at any time with or without notice to you, and will have no obligation to retain your Uploads (or any other materials
FOR ANY OTHER APPLICATION IN WHICH THE ACCURACY OR RELIABILITY OF THE PRODUCT OR SERVICES COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR. DO NOT ATTEMPT TO CONFIGURE THE PRODUCT OR INPUT INFORMATION WHILE DRIVING. FAILURE TO PAY FULL ATTENTION TO THE OPERATION OF YOUR VEHICLE COULD RESULT IN DEATH, SERIOUS INJURY, OR PROPERTY DAMAGE. BY USING THE PRODUCT, YOU ASSUME ALL RESPONSIBILITY AND RISK.

Disclaimer of Warranty. The Product is provided to you "as is," and you agree to use it at your own risk. SUBJECT TO THE APPLICABLE LAWS, COMPANY AND THE LICENSORS MAKE NO GUARANTEES, REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ARISING BY LAW OR OTHERWISE, INCLUDING BUT NOT LIMITED TO, CONTENT, QUALITY, ACCURACY, COMPLETENESS, EFFECTIVENESS, RELIABILITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, USEFULNESS, USE OR RESULTS TO BE OBTAINED FROM THE PRODUCT, OR THAT THE PRODUCT OR SERVER WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT ERRORS IN THE PRODUCT OR NONCONFORMITY TO ITS DOCUMENTATION CAN OR WILL BE CORRECTED. YOU ACKNOWLEDGE THAT THE PROVISIONS OF THIS SECTION ARE A MATERIAL INDUCEMENT AND CONSIDERATION TO COMPANY AND THE LICENSORS TO GRANT THE LICENSE CONTAINED IN THIS EULA AND TO PROVIDE YOU WITH ACCESS TO THE SERVICES.

Storage. The Product may provide functionality through which you are able to store information (such as images) on the device on which you are using the Product. COMPANY will have no liability whatsoever to you or any third party for any failure of the Product to store any such information on such device.

Personal Information. By using the Product, you agree to the collection, retention and processing of your personal data (including the location of your mobile device) by COMPANY and to the storage and processing of such personal information on computers located outside of the country in which you reside. Even though COMPANY has taken steps intended to protect your personal information from being intercepted, accessed, used, or disclosed by unauthorized persons, COMPANY cannot fully eliminate security risks associated with your personal information and cannot guarantee that its systems will not be breached. See [*] for additional information regarding COMPANY’s use of your personal information.

WARNING. THE PRODUCT REFLECTS REALITY AS EXISTING BEFORE YOU RECEIVED THE PRODUCT AND IT COMPRISSES DATA AND INFORMATION FROM GOVERNMENT OTHER SOURCES. ACCORDINGLY, THE PRODUCT MAY CONTAIN INACCURATE OR INCOMPLETE INFORMATION DUE TO THE PASSAGE OF TIME, CHANGING CIRCUMSTANCES, SOURCES USED AND THE NATURE OF COLLECTING COMPREHENSIVE GEOGRAPHIC PRODUCT, ANY OF WHICH MAY LEAD TO INCORRECT RESULTS. THE PRODUCT AND SERVICES MAY NOT TO BE USED FOR SAFETY OF LIFE APPLICATIONS, OR...

you may provide to COMPANY) on its servers or return your Uploads (or any other materials you may provide to COMPANY) to you before deleting them from its servers.

Storage. The Product may provide functionality through which you are able to store information (such as images) on the device on which you are using the Product. COMPANY will have no liability whatsoever to you or any third party for any failure of the Product to store any such information on such device.

Personal Information. By using the Product, you agree to the collection, retention and processing of your personal data (including the location of your mobile device) by COMPANY and to the storage and processing of such personal information on computers located outside of the country in which you reside. Even though COMPANY has taken steps intended to protect your personal information from being intercepted, accessed, used, or disclosed by unauthorized persons, COMPANY cannot fully eliminate security risks associated with your personal information and cannot guarantee that its systems will not be breached. See [*] for additional information regarding COMPANY’s use of your personal information.

WARNING. THE PRODUCT REFLECTS REALITY AS EXISTING BEFORE YOU RECEIVED THE PRODUCT AND IT COMPRISSES DATA AND INFORMATION FROM GOVERNMENT OTHER SOURCES. ACCORDINGLY, THE PRODUCT MAY CONTAIN INACCURATE OR INCOMPLETE INFORMATION DUE TO THE PASSAGE OF TIME, CHANGING CIRCUMSTANCES, SOURCES USED AND THE NATURE OF COLLECTING COMPREHENSIVE GEOGRAPHIC PRODUCT, ANY OF WHICH MAY LEAD TO INCORRECT RESULTS. THE PRODUCT AND SERVICES MAY NOT TO BE USED FOR SAFETY OF LIFE APPLICATIONS, OR...
**Limitation of Liability:** TO THE MAXIMUM EXTENT PERMITTED UNDER THE APPLICABLE LAWS, COMPANY AND THE LICENSORS SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, INCURRED BY YOU OR ANY THIRD PARTY WHICH MAY ARISE IN CONNECTION WITH OR RESULT FROM THE USE OR POSSESSION OF THE PRODUCT; OR FOR ANY LOSS OF DATA, PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THE PRODUCT, ANY DEFECT IN THE PRODUCT, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF COMPANY OR THE LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING THE FAILURE OF ANY LIMITED REMEDY PROVIDED HEREIN.

**Exclusions.** Some jurisdictions do not allow certain warranty exclusions or the limitation or exclusion of liability, so to that extent the above exclusion may not apply to you. To the extent that COMPANY may not, as a matter of applicable law, disclaim any implied warranty or limit its liabilities, the scope and duration of such warranty and the extent of COMPANY's liability shall be the minimum permitted under such applicable law. The disclaimer of warranty and limitation of liability set forth in this EULA does not affect or prejudice your statutory rights where you have acquired the Product otherwise than in the course of business.

**Third-Party Copyright Notices.** The third-party sourced data has been incorporated into or made a part of the Product and is being sublicensed to you subject to the terms and conditions of this EULA. In this regard, you shall not remove or tamper with any intellectual property rights notice attached or used in relation to data supplied by the Licensors.

**Entire Agreement.** This EULA is the entire agreement between COMPANY (and the Licensors) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all previous written or oral communications or documents (including, if you are obtaining an update, any agreement that may have been included with an earlier version of the Product) with respect to such subject matter.

**Governing Law.** This EULA shall be governed by the laws of the jurisdiction in which you reside at the date of acquisition of the Product. Should you at that moment reside outside the European Union or Switzerland, the law of the jurisdiction within the European Union or Switzerland where you acquired the Product shall apply. In all other cases, or if the jurisdiction where you acquired the Product cannot be defined, the laws of the Republic of Korea shall apply. This EULA will not be governed by the U.N. Convention on Contracts for the International Sale of Goods. The courts competent at your place of residence at the time you acquired the Product shall have jurisdiction over any dispute arising out of, or relating to this EULA, without prejudice to COMPANY's right to bring claims at your then current place of residence.
Export Control. You agree not to export or re-export from anywhere any part of the Product in any form except in compliance with applicable export laws, rules and regulations, including but not limited to the laws, rules and regulations administered by the Office of Foreign Assets Control of the U.S. Department of Commerce and the Bureau of Industry and Security of the U.S. Department of Commerce.

Miscellaneous. If any provision of this EULA is found to be invalid or unenforceable, it will be enforced to the extent permissible and the remainder of this EULA will remain in full force and effect. Failure by COMPANY to prosecute any right with respect to a default hereunder will not constitute a waiver by COMPANY of the right to enforce rights with respect to the same or any other breach. No refunds or replacements will be permitted on damaged Product.

U.S. Government End Users. If the Product is being acquired by or on behalf of the United States Government or any other entity seeking or applying rights similar to those customarily claimed by the United States Government, this Product and related documentation are "Commercial Items" as that term is defined at 48 C.F.R. ("FAR") 2.101. This Product and related documentation are licensed to the United States Government end users (a) only as "Commercial Items" and (b) with only those rights as are granted to all other end users in accordance with this EULA, and each copy of Product delivered or otherwise furnished shall be marked and embedded as appropriate with the following "Notice of Use," and shall be treated in accordance with such Notice:

NOTICE OF USE

Using a Bluetooth phone
Connecting Bluetooth devices

Bluetooth is a short-range wireless networking technology. Via Bluetooth, you can connect nearby mobile devices wirelessly to send and receive data between connected devices. This enables you to use your devices effectively.

To use Bluetooth, you must first connect a Bluetooth-enabled device to your system, such as a mobile phone or an MP3 player. Ensure that the device you want to connect supports Bluetooth.

⚠️ Warning ⚠️

Park your vehicle in a safe location before connecting Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.

💡 Note 💡

- On your system, you can use only Bluetooth Handsfree and Audio features. Connect a mobile device that supports the Bluetooth Handsfree or Audio feature.
- For more information on Bluetooth-enabled devices and their functional compatibility, visit the HYUNDAI Motor America website (https://www.hyundaiusa.com/bluetooth).

Pairing devices with your system

For Bluetooth connections, first pair your device with your system to add it to the system's list of Bluetooth devices. You can register up to five devices.

   - If you are pairing a device with your system for the first time, you can also press the [/json] button on the steering wheel. Alternatively, on the Home screen, touch All Menus > Phone.

2. On the Bluetooth device you want to connect, activate Bluetooth, search for your vehicle's system, and then select it.
   - Check the system's Bluetooth name, which is displayed in the new registration pop-up window on the system screen.
3 Ensure that the Bluetooth passkeys displayed on the Bluetooth device screen and the system screen are the same and confirm the connection from the device.

4 Choose whether or not to connect the Bluetooth device to your system prior to other devices.
   • If you grant priority to the Bluetooth device, it will be connected automatically to the system when you turn on the system.

5 If you are connecting a mobile phone, permit the system to access and download your data from the device.
   • Downloading data is only for Bluetooth call functions. Permission is not required if you are connecting an audio device.

   ![Note](image)

   • It may take a while for the system to connect with the device after you permit the system to access the device. When a connection is made, the Bluetooth status icon appears at the top of the screen.
   • You can change the permission settings via the mobile phone's Bluetooth settings menu. For more information, refer to your mobile phone's user guide.
   • To register a new device, repeat steps 1 to 5.
   • When a device is connected to the system via Bluetooth, you cannot pair another device.
   • If you do not want the system to connect with the device automatically, deactivate Bluetooth on your device.
Connecting a paired device

To use a Bluetooth device on your system, connect the paired device to the system. Your system can connect with only one device at a time.

1. On the Home screen, touch All Menus ► Setup ► Bluetooth ► Bluetooth Connection.

2. Touch Connect next to the device you want to connect.
   - If another device is already connected to your system, disconnect it. Touch Disconnect next to the device.

   ![Bluetooth Connection Menu]

   - View Bluetooth help.
   - Connect the device.
   - Disconnect the device.
   - Pair a new device with your system.
   - Delete paired devices. Downloaded data from devices will also be deleted.

   **Note**
   - If a connection ends because a device is out of the connection range or a device error occurs, the connection will be restored automatically when the device enters the connection range or when the error is cleared.
   - If a connection is unstable due to a communication error, reset Bluetooth by touching All Menus ► Setup ► Bluetooth ► Default Factory Settings, and then re-connect the device.
Deleting paired devices

If you no longer want a Bluetooth device paired or if you want to connect a new device when the Bluetooth device list is full, delete paired devices.

1 On the Home screen, touch All Menus ► Setup ► Bluetooth ► Bluetooth Connection ► Delete Devices.

2 Select the devices you want to delete and touch Delete.
   • To delete all paired devices, touch Mark All ► Delete.

3 Touch Yes.

Disconnecting a device

If you want to stop using a Bluetooth device or connect another device, disconnect your currently connected device.

1 On the Home screen, touch All Menus ► Setup ► Bluetooth ► Bluetooth Connection.

2 Touch Disconnect next to the device.

3 Touch Yes.
Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle's speakers.

On the control panel, press the [MEDIA] button.

- If you have multiple media storage devices, press the [MEDIA] button again and touch Bluetooth Audio from the media selection window.

1. Search for and connect another Bluetooth device.
2. Display the options list.
   - **Change Device**: Search for and connect another Bluetooth device.
   - **Sound Settings**: Customize the system sound settings.
     - See p.10-3 "Setting the system sound."
3. Move to the previous screen.
4. Information about the song currently playing
5. Repeat play mode
6. Shuffle play mode
7. Restart the current playback. Touch twice to play the previous file. You can also press the [TRACK] button on the control panel or use the [ ] lever on the steering wheel.
8. Pause or resume playback.
9. Play the next file. You can also press the [SEEK] button on the control panel or use the [ ] lever on the steering wheel.
10. Change the repeat play mode.
11. Activate or deactivate the shuffle play mode.

Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle's speakers.
Using a Bluetooth phone

You can use Bluetooth to talk on the phone hands free. View call information on the system screen, and make or receive calls safely and conveniently via the vehicle's built-in microphone and speakers.

⚠️ **Warning**

- Park your vehicle in a safe location before connecting any Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.
- Never dial a phone number or pick up your mobile phone while driving. Use of a mobile phone may distract your attention, making it difficult to recognize external conditions and reducing the ability to cope with unexpected situations, which may lead to an accident. If necessary, use the Bluetooth Handsfree feature to make a call and keep the call as short as possible.

⚠️ **Note**

You can use voice commands to make calls more safely and eliminate the need to look at the screen while you are driving.

► See p.8-2 "Starting voice recognition."
Making a call

If your mobile phone is connected to the system, you can make a call by selecting a name from your call history or contacts list. You can also enter a phone number on the keypad.

1. On the Home screen, touch All Menus ➤ Phone.
   - Alternatively, press the [.reverse] button on the steering wheel.

2. If you have multiple paired mobile devices, select a mobile phone from your list of paired devices.

3. Select a phone number from your call history.
   - You can find the number you want by pushing the [up/down] lever on the steering wheel. You do not need to touch the screen.
   - To select a phone number from your contacts list, touch 📞.
   - To enter a phone number manually, touch 📞.
4 To end the call, press the [📞] button on the steering wheel or touch End on the call screen.

Using your call history

1 On the Bluetooth phone screen, touch 📞.
2 Select a call record from the list to make a call.

1 Search for and connect another Bluetooth device.
2 Display the options list.
   • **Download**: Download your call history.
   • **Privacy Mode**: Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
   • **Change Device**: Search for and connect another Bluetooth device.

3 View all call records.
4 View only dialed calls.
5 View only received calls.
6 View only missed calls.

Note

• Some mobile phones may not support the download function.
• Up to 50 call records will be downloaded per individual list.
• Call duration and time information will not be displayed on the system screen.
• Permission is required to download your call history from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone's permission setting.
• When you download your call history, any old data will be deleted.
Using the contacts list

1 On the Bluetooth phone screen, touch 📞.

2 Select a contact from the list to make a call.

1 Search for and connect another Bluetooth device.
2 Display the options list.
   - **Download**: Download your mobile phone contacts.
   - **Search**: Enter a contact's name or phone number to search the list.
   - **Privacy Mode**: Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
   - **Change Device**: Search for and connect another Bluetooth device.
3 Select an initial letter to find contacts quickly.

Note

- Only contacts in the supported format can be downloaded and displayed from the Bluetooth device. Contacts from some applications will not be included.
- Up to 5,000 contacts can be downloaded from your device.
- Some mobile phones may not support the download function.
- Depending on the system's specifications, some of the downloaded contacts may be lost.
- Contacts stored both in the phone and in the SIM card are downloaded. With some mobile phones, contacts in the SIM card may not be downloaded.
- If you have set up speed dial numbers on the mobile phone, you can make a call by touching and holding a speed dial number on the keypad. Depending on the mobile phone type, the speed dialing function may not be supported.
- Permission is required to download contacts from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone's permission setting.
Search for and connect another Bluetooth device.
Display the options list.

- **Privacy Mode**: Activate the privacy mode to protect your personal information. In the privacy mode, personal data will not be displayed.
- **Change Device**: Search for and connect another Bluetooth device.

Change the settings for Bluetooth connections.

### Using the keypad

1. On the Bluetooth phone screen, touch 📞.

2. Enter a phone number on the keypad and touch ✆ to make a call.

### Answering calls

When a call comes in, a notification pop-up window of the incoming call appears on the system screen.
To answer the call, touch **Accept**.
- Alternatively, press the [✓] button on the steering wheel.

To reject the call, touch **Reject**.
- Alternatively, press the [✓] button on the steering wheel.
- To reject the call with a text message, touch **Message**. Select a call rejection message from the list and touch **Send**.

**Note**
- Depending on the mobile phone type, call rejection or sending call rejection messages may not be supported.
- Once your mobile phone is connected to the system, the call sound may be output through the vehicle’s speakers even after you exit the vehicle if the phone is within the connection range. To end the connection, disconnect the device from the system or deactivate Bluetooth on the device.

**Using options during a call**

During a call, you will see the call screen shown below. Touch a button to perform the function you want.

- **1** Turn off the microphone so the other party cannot hear you.
- **2** Adjust the microphone volume.
- **3** Switch the call to your mobile phone. Depending on the mobile phone type, this function may not be supported.
- **4** End the call.
- **5** Display the keypad.
Switching between calls

If your mobile phone supports call waiting, you can accept a second call. The first call is put on hold.

To switch between the active call and the held call, touch **Switch** or touch the phone number displayed on the call screen.

Note

- If the caller information is saved in your contacts list, the caller’s name and phone number will be displayed. If the caller information is not saved in your contacts list, only the caller’s phone number will be displayed.
- You cannot switch to any other screen, such as the AV screen or the settings screen, during a Bluetooth call.
- Depending on the mobile phone type, call quality may vary. On some phones, your voice may be less audible to the other party.
- Depending on the mobile phone type, the phone number may not be displayed.

Note

Depending on the mobile phone type, this function may not be supported.
Setting up your favorites list

If you register frequently used phone numbers as your favorites, you can find them and dial them quickly.

1. On the Home screen, touch All Menus ➤ Phone.
   • Alternatively, press the [icone] button on the steering wheel.

2. On the Bluetooth phone screen, touch [icone].

3. Touch Menu ➤ Edit and select a contact from your contacts list.
   • If you have not yet added any favorites, touch Add New.

4. Touch [icone] next to the phone number you want.
   • The star icon changes to orange and the phone number is added your favorites list.

Note

• You can register up to 10 favorites for each device.
• To delete one of your favorites, on the favorites list, touch Menu ➤ Delete.
• When you connect a new mobile phone, your favorites set for the previous mobile phone will not be displayed, but they will remain in your system until you delete the previous phone from the device list.

Viewing text messages

You can view your messages on the system screen and listen to the messages converted to voice. You can also send a simple reply using the templates predefined on the system.
Viewing a new message

When you receive a message, a new message notification appears.

1. Sender information
2. View the message details.
3. Convert the message to voice and listen to it through the vehicle's speakers.
4. Close the notification pop-up window.

Viewing messages from the messages list

1. On the Home screen, touch All Menus ➤ Phone.
   - Alternatively, on the steering wheel, press the [📞] button.
2. On the Bluetooth phone screen, touch 📬.
3. Select a message from the list.
4. View the message details.

   1. Move to the previous or next message.
   2. Call the sender back.
   3. Convert the message to voice and listen to it through the vehicle's speakers.
   4. Send a simple reply using one of the message templates.
When you connect an iPhone, you may have some restrictions on receiving messages.
- If the caller information is saved in your contacts list, only the caller's name will be displayed.
- If the caller information is not saved in your contacts list, only the caller's phone number will be displayed.
- Replying to received messages is not available.
- If the message notification setting is disabled or the option for viewing content on the lock screen is disabled, messages will not be received by your system.

Depending on the system language, converting the message to voice may not be supported.

- To receive notifications every time you receive a message, touch Menu ► Message Settings and touch Message Notification to select it.
- To edit the reply message templates, touch Menu ► Message Settings ► Predefined Messages and select the template you want to edit.

Depending on the mobile phone type, replying to received messages may not be supported.

To edit or delete templates, park your vehicle in a safe location first and use your mobile phone's messaging function. You cannot edit or delete your messages on your system.

You can change the message settings on the messages list.

Note
• You can change the message settings on the messages list.

- To receive notifications every time you receive a message, touch Menu ► Message Settings and touch Message Notification to select it.
- To edit the reply message templates, touch Menu ► Message Settings ► Predefined Messages and select the template you want to edit.

• Depending on the mobile phone type, replying to received messages may not be supported.

• To edit or delete templates, park your vehicle in a safe location first and use your mobile phone's messaging function. You cannot edit or delete your messages on your system.
Voice recognition

- Starting voice recognition
- Viewing the voice recognition help
- Available voice commands
- Using Siri Eyes Free
Before starting voice recognition

• The system can recognize only specified voice commands. ► See p.8-7 "Available voice commands" or the on-screen help of the voice recognition.

• To increase the recognition rate, keep in mind the following when saying a voice command:
  - Say a command naturally and clearly.
  - Say a command in the direction of the microphone, keeping your body straight in the driver’s seat. The microphone is located at the top part of the inside rearview mirror.

• Voice recognition will end automatically in the following situations:
  - When a call comes in or when you make a call
  - When you connect or remove a media storage device
  - When the front view or rear view camera turns on (*if equipped)
  - When you start another function by pressing a button, such as the [RADIO] or [MEDIA] button.
  - When an unintentional function is performed, such as a new route search when you deviate from the route during navigation.

• Voice recognition will be affected by the ambient noise in the following situations:
  - When a window or the sun roof is open, causing a loud sound made by the wind
  - When the air conditioner or heater is set to a high air volume level (level 3 or lower is recommended)
  - While you are driving through a tunnel
  - When severe vibrations and noises occur while driving on a unpaved or uneven road
  - When severe noises occur due to heavy rain or a storm

Starting voice recognition

With voice recognition, you can use your system's functions without controlling the screen or buttons. This can help you maintain focus while driving and avoid any dangerous situations.

Use voice recognition to perform functions safely and conveniently.
Use voice recognition by following the steps below.

1. On the steering wheel, press the [\(\text{\textregistered}\)] button. Voice recognition starts with a voice guidance.

   • Voice recognition status
     - \(\text{\textregistered}\): Waiting for your command
     - \(\text{\textregistered}\): Playing a voice guidance
     - \(\text{\textregistered}\): Processing your command

2. Recognized command. The voice volume level is indicated as a bar graph while you are saying a command.

3. Primary voice commands you can use

4. End voice recognition.
2 After the voice guidance ends and you hear a beep, say a command. ► See p.8-7 "Available voice commands" or the on-screen help of the voice recognition.
   • The system displays the recognized command at the top of the screen and performs the corresponding function.
   • If an additional command is required for performing the function, available commands for the next step are displayed on the screen. Say or touch a command.
   • When there are multiple commands similar to the recognized command, the system displays the numbered candidates on the screen. Say the number corresponding to the command you want.

3 To end voice recognition, say "Exit" while the system is waiting for your command.
   • Alternatively, press the [ Exit ] button on the steering wheel or touch Exit on the voice recognition screen.

Note
   • To skip a voice guidance, press the [ Exit ] button on the steering wheel.
   • To extend the waiting time, press the [ Exit ] button while the system is waiting.
   • If you sign up for Blue Link and activate the service on your system, you can use server-based voice recognition with voice commands for finding POIs and addresses. To activate this feature, on the Home screen, touch All Menus ► Setup ► Voice Recognition ► Use Network and ensure that Use Blue Link Network is selected.
Adjusting the voice guidance volume

You can adjust the volume of the voice guidance to an appropriate level for using voice recognition while driving.

While you are using voice recognition, turn the [VOL] knob on the control panel.

Viewing the voice recognition help

You can see how to perform various functions by voice commands.

⚠️ Caution

For safety, voice recognition help will not be displayed while the vehicle is moving. Park your vehicle in a safe location to view the on-screen help.

1. On the steering wheel, press the [ ] button.

2. Touch Help on the voice recognition screen or say "Help" while the system is waiting for your command.
3 To view full help information on how to use voice commands, touch □ at the bottom of the screen.

- To view help on how to use voice commands for a specific function, touch □ next to the function name you want.

4 To close the help screen, touch Exit on the voice recognition screen or say "Exit" while the system is waiting for your command.

Note

- To view a list of available voice commands for each function, say or touch a function name you want.
- After accessing a list of voice commands, you can perform a function by saying or touching a command.
- You can view a list of available voice commands without activating voice recognition. On the Home screen, touch All Menus ➤ Voice Commands.
Available voice commands

### Call commands

<table>
<thead>
<tr>
<th>Command</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call</td>
<td>You can make a call to one of your mobile phone's contacts. Say a contact's name to begin a call.</td>
</tr>
<tr>
<td>Call &lt;Name&gt;</td>
<td>The system dials the phone number of that contact. If the contact has multiple phone numbers, select a phone number.</td>
</tr>
<tr>
<td>Call &lt;Name&gt; on Mobile</td>
<td>The system dials the phone number saved as &quot;Mobile&quot; for that contact.</td>

</tbody>
</table>

**Note**

- When you use a command starting with "Find," the system searches for locations within the state or province where your vehicle is currently located. To search for locations in another state or province, say the state or province name first and then say the location you want.
- Some commands, such as "Cancel Route" or "Show Route," are available only when a destination is set.
- When **Use Blue Link Network** is selected in the **Setup ➤ Voice Recognition ➤ Use Network** menu, a Blue Link subscription is required to use voice commands for finding POIs or addresses. If you do not have a Blue Link subscription or do not want to use server-based voice recognition, deactivate the option.
## Radio commands

<table>
<thead>
<tr>
<th>Command</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>FM &lt;87.5 to 107.9&gt;</td>
<td>Turn on the FM radio with that frequency.</td>

**Using Siri Eyes Free**

When you connect an Apple device that is compatible with Siri to your system via Bluetooth, you can use Siri Eyes Free. This allows you to perform the functions of your system and Apple device with voice commands so that you can devote your attention to driving.

First, ensure that your Apple device supports Siri and that you have activated Siri.

1. **Connect your Apple device to your system via Bluetooth.** ► See p.7-2 “Connecting Bluetooth devices.”

2. **On the steering wheel, press and hold the [] button.**

3. **On the Siri screen, touch Speak.**

---

**Note**

Available POI names may change when the system is updated.
4 Say a command.
   • You can perform the functions related to Bluetooth calls on the system and other functions on your Apple device.
   • Press the \[\text{[\text{\textregistered}}\] button to restart Siri.

5 To end Siri, press and hold the \[\text{[\text{\textregistered}}\] button.

Siri Eyes Free is enabled only while you are driving. When you put the transmission shift lever in the "P" (Park) position or apply the parking brake, you disable this function.

Note

Different Apple devices may have different functions enabled and may vary in how they respond to Siri commands, depending on the type of device and the iOS version.
Blue Link services

Contacting the Blue Link Center
Blue Link services

Blue Link provides connected car services, such as roadside assistance and emergency rescue, via the latest IT and communication technologies.

Once subscribed, you can access Blue Link services via the buttons on the inside rearview mirror. You can also access other useful features using the Blue Link menu on your system.

Refer to the Blue Link Service Manual for more Blue Link features.

Note

• You must be an active Blue Link subscriber or within the initial free trial period to receive Blue Link services, including Auto Crash Notifications.
• Depending on conditions, such as the vehicle type, the system type, or the subscribed service package, available services may vary.
• Some services may incur additional charges.
• Services may be modified, added, or deleted according to changes in the company’s policies.

Activating the service

Once you sign up for Blue Link, you must activate the service to use it on the system.

On the Home screen, touch All Menus ➤ Blue Link ➤ Blue Link Settings ➤ Service Activation.

Caution

Do not stop the engine while the activation is in progress. Doing so may cause a system malfunction.

Note

• If the activation fails, contact the Blue Link Center at (855) 2-BlueLink.
• While the activation is in progress, the system buttons will be locked.
Service limitations

Because the Blue Link service is provided via mobile networks, the use of the service may be restricted depending on the mobile network status. Check the network signal icon (.getCellSignalStrength) at the top line of the screen to see if the network signal strength is proper.

Note

- It is recommended to use the service when the network signal icon has more than four signal bars.
- Depending on the mobile network status, the use of the Blue Link service may be affected in the following places:
  - In a building or tunnel
  - In a mountain or dense forest
  - On a road close to cliffs
  - In an area with a lot of high buildings
  - On a highway or a road under overpass
  - Out of a service area based on the mobile network service provider's coverage policy

Locating the Blue Link buttons

You can access Blue Link services via the buttons on the inside rearview mirror.

1. Call the Blue Link Center.
2. Start Voice Local Search to search for locations with voice commands.
3. Call for an emergency service.

Note

Depending on vehicle models and specifications, the illustration may differ from the product's actual appearance and layout.
Using the Blue Link menu

You can use the Blue Link service via the Blue Link menu on the system.

On the Home screen, touch All Menus ➤ Blue Link.

1 View your vehicle's driving information. ➤ See p.9-4 "Viewing driving information."
2 View location information received from Google. ➤ See p.9-5 "Using the received location information."
3 Check your vehicle's abnormal conditions and view the diagnosis result. ➤ See p.9-6 "Diagnosing your vehicle."
4 Activate the Blue Link service to use it on the system or access modem information.

Viewing driving information

You can see your driving patterns by checking information such as driving time, distance, idling time ratio, and speed distribution. Use driving information for safe and economical vehicle operation.

1 On the Home screen, touch All Menus ➤ Blue Link ➤ Driving Info.

2 View your vehicle's driving information.
   • To view the latest information, touch Update.
Note
You can use this function only when your vehicle is stationary with the engine is running.

Using the received location information
You can view location information received from Google and set one of them as your destination.

1 On the Home screen, touch All Menus ➤ Blue Link ➤ Send to Car with Google.

2 From the list of received locations, select a place name.

3 Check the location information.

1 View the previous or next information.
2 Move to the previous screen.
3 Call the selected place. This is enabled when the information includes a phone number.
4 View the location of the selected place on the map.

Note
You can use this function only when your vehicle is stationary with the engine is running.
Diagnosing your vehicle

You can diagnose your vehicle. The information will be sent to the Blue Link Center. You can receive diagnosis results from a representative and use additional services, such as towing, route guidance to a repair shop, or a maintenance reservation.

1 Park your vehicle in a safe location.
   • You can start a diagnosis only when the vehicle stops, because some components cannot be diagnosed while the vehicle is moving.

2 On the Home screen, touch All Menus ➤ Blue Link ➤ Vehicle Diagnostics.
   • A remote diagnosis will begin. Refrain from using your system until the diagnosis is complete and the result is displayed on the screen. If you move to another screen while a diagnosis is in progress, the diagnosis will be canceled.

3 Check the result displayed on the screen.

Note

A diagnosis result provided by this service is only an estimated result based on the signals from your vehicle. Visit a Hyundai Motor Company Service Center or a service coordinator for a detailed diagnosis.
Using Voice Local Search

With Blue Link, you can search for locations from the online map database by using voice commands.

If you did not update the map or system or you cannot find your destination in the navigation, you can use the latest information from the online server to search for locations and receive guidance.

1. On the inside rearview mirror, press the [VOICE] button.
   • Voice recognition starts with a voice guidance.

2. After the voice guidance ends and you hear a beep, say a command.
   • To search for a location by entering a keyword manually using the keyboard, touch [ ].

3. To end voice recognition, touch [x] on the screen or press the [VOICE] button on the inside rearview mirror.

Note
• This feature operates separately from voice recognition that is activated by the [VOICE] button on the steering wheel.
• Depending on the system language, voice recognition may not be supported.
Using safety and security services

In situations of emergencies or accidents, you can use various kinds of assistance.

Auto Crash Notification

This service provides you with immediate assistance when an accident occurs and an airbag is deployed. If this happens, an Auto Crash Notification (ACN) signal, containing your customer and location information, will be transmitted to the Blue Link center automatically.

Once the signal is received, a response specialist will attempt to establish voice communications with you and forward any pertinent information to Blue Link emergency services.

Note

The Auto Crash Notification feature is subject to adequate mobile network coverage, signal strength, and battery power, and is only available in the 50 US states.

SOS

You can request Blue Link emergency services.

In an emergency, press the [sos] button on the inside rearview mirror.
Vehicle information and location will be sent to specially trained response specialists, who assist in coordinating the dispatch of appropriate emergency assistance to you.

• The response specialist will remain connected with you until the first emergency assistance arrives.
• To end the SOS call, press the [SOS] button.

**Stolen Vehicle Recovery**

If your vehicle is reported stolen, the Blue Link center can provide assistance to the police in an attempt to recover the vehicle. A stolen vehicle report will be filed with the appropriate police department.

**Vehicle slowdown**

This feature enables law enforcement to gradually reduce the engine power of the vehicle, thus slowing it down to safe levels. A warning will be sent to the driver prior to the slowdown procedure.

**Vehicle immobilization**

This feature enables law enforcement to send a signal to the vehicle that immobilizes the engine management system, thus preventing startup. This feature is only valid when the vehicle ignition is off. If the ignition is on or the engine is running when the signal is sent to the vehicle, the signal will be saved for later immobilization.
Contacting the Blue Link Center

You can contact a Blue Link Center representative directly to request help or make inquiries.

On the inside rearview mirror, press the [📞] button.

- When connected to the Blue Link Center, ask a representative for the service you need.
- To end the call, press the [📞] button.
Settings

Setting the vehicle environment
Setting sounds
Setting the system screen
Setting the screen saver
Setting voice recognition
Setting Bluetooth
Setting the system environments
Updating system software and map data
Setting the vehicle environment

You can change the settings related to driving or the interior and exterior environment of your vehicle.

On the Home screen, touch All Menus ▶ Setup ▶ Vehicle.

<table>
<thead>
<tr>
<th>Drive Mode</th>
<th>Customize the drive modes for your vehicle.</th>
</tr>
</thead>
<tbody>
<tr>
<td>• ECO:</td>
<td>This is a drive mode for increasing the vehicle's fuel efficiency. You can change the climate control mode, the active coast energy regeneration level, and speed limit settings.</td>
</tr>
<tr>
<td>• NORMAL:</td>
<td>This is a drive mode focused on the driver and passenger's comfort. You can change the climate control mode and the active coast energy regeneration level.</td>
</tr>
<tr>
<td>• SPORT:</td>
<td>This drive mode enables a more dynamic driving performance. You can change the climate control mode and the active coast energy regeneration level.</td>
</tr>
</tbody>
</table>

• Drive Mode Change Alert: Set to display a notification when you change your vehicle's drive mode.
• Reset ECO/NORMAL/SPORT: Reset your drive mode settings to the default values.

Note

• You can change the drive mode settings only when the engine is running.
• Depending on vehicle models and specifications, available options may vary.
Setting sounds

You can change the settings related to sounds, such as the speaker volume and sound effects.

Setting the system sound

On the Home screen, touch All Menus ➤ Setup ➤ Sound.

Note

- Depending on vehicle models or specifications, available options may vary.
- Depending on the system or amplifier specifications applied to your vehicle, available options may vary.

<table>
<thead>
<tr>
<th>Position</th>
<th>Select a location where sound will be concentrated in the vehicle. Touch a desired location on the seat image or touch the arrow buttons to move the focus. To set sound to be centered in the vehicle, touch .</th>
</tr>
</thead>
<tbody>
<tr>
<td>Volume</td>
<td>Adjust the volume levels for various system features, including phone projection.</td>
</tr>
<tr>
<td>Tone</td>
<td>Adjust the output level for each sound tone mode.</td>
</tr>
</tbody>
</table>
| Priority | • **Navigation Guidance Priority**: Set to hear the navigation guidance prior to AV audio when using the navigation and AV functions at the same time.  
  • **Proximity Warning**: Set to decrease the audio volume to hear a proximity warning prior to other sounds while parking your vehicle. |
- **Navigation During Calls**: Set to hear the navigation guidance during a call.
- **Start-up Volume Limit**: Set the system to automatically decrease the volume when turned on, if the volume has been set to too high of a level.

### Navigation Volume

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advanced (*if equipped)</td>
<td>Set the advanced sound options or apply various sound effects.</td>
</tr>
<tr>
<td></td>
<td>Depending on the amplifier specifications, available sound options and effects may vary.</td>
</tr>
<tr>
<td>Default</td>
<td>Reset your sound settings to the default values.</td>
</tr>
</tbody>
</table>

### Note

To turn the touch sound on or off, touch **Beep** at the top of the sound settings screen.

- **Use Map Screen Volume Buttons**: You can use the volume adjustment button on the navigation screen.
- **Use Map Screen Volume Buttons or Volume Knob**: You can use the volume adjustment button on the navigation screen or the [VOL] knob on the control panel while the voice guidance is playing.
Setting the system screen

You can change the settings for the screen display.

On the Home screen, touch All Menus ➤ Setup ➤ Display.

- **Mode**: Set the screen brightness to be adjusted automatically according to ambient lighting conditions or set the screen to stay bright or dark continuously.

- **Illumination**: Link to Cluster Illumination Control enables the system brightness to be adjusted according to the instrument cluster’s brightness. If this feature is deactivated, you can adjust the brightness for the day or night mode according to your setting in the **Mode** option.

- **Default**: Reset your screen settings to the default values.

Setting the screen saver

You can select a screen saver option to be displayed when you turn off the screen by pressing and holding the [PWR] button on the control panel.

1. On the Home screen, touch All Menus ➤ Setup ➤ Screen Saver.

2. Select a screen saver option.
   - **Digital**: The digital clock is displayed.
   - **Analog**: The analog clock is displayed.
   - **None**: No screen saver is displayed.
### Setting voice recognition

You can change the settings for voice recognition.

On the Home screen, touch **All Menus ➤ Setup ➤ Voice Recognition**.

<table>
<thead>
<tr>
<th><strong>Use Network</strong></th>
<th>If you are subscribed to the Blue Link service, set to use the server-based voice recognition.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Guidance</strong></td>
<td>Set to hear brief guidance or detailed guidance.</td>
</tr>
</tbody>
</table>

### Setting Bluetooth

You can change the settings for Bluetooth connections.

On the Home screen, touch **All Menus ➤ Setup ➤ Bluetooth**.

<table>
<thead>
<tr>
<th><strong>Bluetooth Connection</strong></th>
<th>Pair new Bluetooth devices with your system, or connect or disconnect a paired device. You can also delete paired devices.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Auto Connection Priority</strong></td>
<td>Select a paired device to connect to your system automatically when it turns on.</td>
</tr>
<tr>
<td><strong>Message Settings</strong></td>
<td>• <strong>Message Notification</strong>: Set to receive message notifications.</td>
</tr>
<tr>
<td></td>
<td>• <strong>Predefined Messages</strong>: Edit message templates for replies.</td>
</tr>
<tr>
<td><strong>Bluetooth Voice Prompts</strong></td>
<td>Set whether to hear voice prompts for events related to Bluetooth connections.</td>
</tr>
</tbody>
</table>
Setting the system environments

You can customize system environment settings, such as the time and date, system language, and more.

Setting the system language

1. On the Home screen, touch **All Menus » Setup » Language**.

2. Select a language.

**Note**

- This setting will not affect user data, such as MP3 file names.
- Depending on the system language, converting the message to voice may not be supported when using Bluetooth.
- Depending on the system language, voice recognition may not be supported.
Setting the time and date

1. On the Home screen, touch All Menus ➤ Setup ➤ Date/Time.

2. Touch GPS Time to activate it to receive time information from the GPS.
   - To set the time and date manually, touch GPS Time to deactivate it and set the current date and time in the input fields.
   - Touch 24 Hours to set the time in the 24 hour format.
   - Touch Daylight Saving Time to apply summer time.

Setting the keyboard

You can customize the keyboard settings for text input.

On the Home screen, touch All Menus ➤ Setup ➤ Keyboard.

<table>
<thead>
<tr>
<th>Keyboard Type - English</th>
<th>Select a default keyboard type for English.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Default Keyboard</td>
<td>Select a default character type for the keyboard.</td>
</tr>
</tbody>
</table>

Note

This setting will be applied to all text input on your system.
Setting advanced options

You can customize additional settings, such as notifications or button functions.

On the Home screen, touch All Menus ► Setup ► Advanced.

### Media Change Notifications
Set to briefly display media information at the top of the screen when the next item starts playing if you move from the media player to another function screen.

### My Data
- **Import Address Book from USB**: Import address book data from a USB storage device.
- **Export Address Book to USB**: Export your address book data to a USB storage device.

### Note
- For importing and exporting address book data, use only USB storage devices formatted in FAT16/32 formats.
- If you import data that uses different coordinates, the locations of the imported places may be altered.

<table>
<thead>
<tr>
<th><strong>Return to Map:</strong> Set Time</th>
<th>Select a length of time to return to the map screen automatically if you move to an AV screen while using the navigation system.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>TUNE Knob Function</strong></td>
<td>Select which function the [TUNE/FILE] knob will perform in the navigation screen.</td>
</tr>
<tr>
<td><strong>Custom Button</strong></td>
<td>Select a function to access when you press the custom button[☆] on the control panel.</td>
</tr>
<tr>
<td><strong>Steering Wheel Mode Button</strong></td>
<td>Select AV modes to access when you press the [MODE] button on the steering wheel.</td>
</tr>
</tbody>
</table>
Viewing system information

On the Home screen, touch All Menus ► Setup ► System Info.

<table>
<thead>
<tr>
<th>SW Info</th>
<th>View your system’s version information or update it to the latest version. To update your system, visit your local dealership.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Storage</td>
<td>View storage information of your system’s memory.</td>
</tr>
<tr>
<td>Default</td>
<td>Reset your system settings to the default values. All user data stored in the system, including navigation history, will also be deleted.</td>
</tr>
</tbody>
</table>

Updating system software and map data

Your vehicle comes with three years of complimentary map updates to your navigation system. To find out if a new update is available, please refer to the following options:

- Visit your Hyundai owners website (http://www.myhyundai.com).
- Call or visit your local Hyundai dealership.

**Note**

- Any changes made after the update file is created are not reflected in the map. As a result, certain roads, buildings, and speed limits on the map may not be up-to-date.
- Depending on the total data amount, an update may take several minutes.
- Do not turn off the system or remove the storage device while the update is in progress. If the power supply is cut off or the storage device is removed from the system, it may damage the data or cause a system malfunction.
Troubleshooting Solutions
Solutions

Before reporting a malfunctioning system, refer to the following table and see if you can identify and fix the problem. If the problem persists or you are unable to locate your specific need, contact your place of purchase or dealer.

## Sound and display

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Possible cause</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>No sound</td>
<td>System turned off</td>
<td>• Ensure that the engine start/stop button is set to &quot;ACC&quot; or &quot;ON,&quot;</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Press the [PWR] button to turn on the system.</td>
</tr>
<tr>
<td>Low volume level</td>
<td>Turn the [VOL] knob on the control panel to adjust the volume.</td>
<td></td>
</tr>
<tr>
<td>System muted</td>
<td>Press the [✓] button on the steering wheel to unmute the system.</td>
<td></td>
</tr>
<tr>
<td>Sound is heard from only one speaker.</td>
<td>Unbalanced sound output</td>
<td>On the Home screen, touch All Menus ➤ Setup ➤ Sound ➤ Position and change the settings to adjust the sound balance.</td>
</tr>
<tr>
<td>Sound is cut off or a distorted noise is heard.</td>
<td>System vibration</td>
<td>It is not a malfunction. If the system vibrates, the sound may be cut off or a distorted noise may occur. When the vibration stops, the system will operate normally.</td>
</tr>
<tr>
<td>AUX cable connected without an external device</td>
<td>If the AUX cable is plugged into the system without an external device, a distorted noise may occur. Remove the AUX cable from the AUX port when an external device is not connected.</td>
<td></td>

FAQ

Navigation

Q How do I update the map?

A You can download the latest map data by using the SD card provided with your system. ► See p.10-10 “Updating system software and map data.”

Q The navigation system guides me to incorrect bypasses and notifies me the position of speed cameras too late.

A You can search for an alternative route by reconfiguring the route options. On the navigation screen, touch Menu ► Route ► Route Options and set the options and search for other routes. ► See p.6-17 “Finding another route.”

If your system is outdated, update the system's software and map data with the latest version. ► See p.10-10 “Updating system software and map data.”

Bluetooth

Q What kinds of functions can I use with Bluetooth?

A You can connect your mobile phone to make or answer calls hands free. You can also connect audio devices, such as MP3 players and mobile phones, to listen to music in your vehicle. ► See p.7-7 “Using a Bluetooth phone,” p.7-6 “Using a Bluetooth audio device.”

Q What is the difference between pairing a device and connecting a device?

A Pairing occurs through authenticating the system and a mobile device. Devices paired with the system can be connected and disconnected until they are deleted from the system. Bluetooth Handsfree features, such as making or answering calls or accessing contacts, are supported only in mobile phones connected with the system.
Q How do I pair a Bluetooth device with the system?

A On the Home screen, touch All Menus ► Setup ► Bluetooth ► Bluetooth Connection ► Add New. From the Bluetooth device you want to connect, search for and pair with your system. When you enter or confirm a Bluetooth passkey displayed on the system screen, the device is registered to the system's Bluetooth device list and connected to the system automatically. ► See p.7-2 "Connecting Bluetooth devices."

Q What is a passkey?

A A passkey is the password used to authenticate the connection between the system and the mobile device. The passkey needs to be entered only once when you pair a mobile phone for the first time.

The initial passkey is "0000." You can change it by touching All Menus ► Setup ► Bluetooth ► Bluetooth System Info ► Passkey.

Q I changed my mobile phone that was registered to the system via Bluetooth. How can I register my new mobile phone?

A You can register additional devices to your system by following the instructions to pair a device. Up to five devices can be added to your system's Bluetooth device list. To delete a registered device, on the Bluetooth device list, touch Delete Devices, select the devices to delete, and touch Delete. ► See p.7-2 "Connecting Bluetooth devices."

Q How do I answer a call?

A When a call comes in and a notification pop-up window appears, press the [📞] button on the steering wheel or touch Accept on the screen.

To reject the call, press the [📞] button on the steering wheel or touch Reject on the screen.
Q What is the range of my wireless connection?

A A wireless connection can be used within about 10 m (about 33 ft). The maximum Bluetooth range may be affected by the usage environment, such as the vehicle type, the system platform, or the connected mobile phone.

Q How many mobile devices can be paired?

A Up to five devices can be paired with your system.

Q Why is call quality sometimes poor?

A Check your mobile phone's reception sensitivity when call quality deteriorates. The call quality may deteriorate when the signal strength is low. Call quality may also become poor if metal objects, such as beverage cans, are placed near the mobile phone. Check to see if any metal objects are near the mobile phone. The call sound and quality may differ depending on the type of mobile phone.

Q What should I do if I want to switch the call to my mobile phone while on a call via the system?

A Press and hold the [️⃣] button on the steering wheel or touch Use Private on the screen to switch the call to your mobile phone.

Q How do I access the contacts in my mobile phone from the system?

A When connecting your mobile phone to your system, permit the system to access the contacts saved in the mobile phone. The contacts will be downloaded to the system. To open the downloaded contacts list, press the [️⃣] button on the steering wheel and touch 🔄 on the phone screen. You can search for a contact to make a call or add it to favorites. See p.7-7 "Using a Bluetooth phone."
**AV function**

**Q** What kinds of AV functions does my system have?

**A** Your system provides you with the radio and media player (USB, iPod, AUX, etc.). For more information, see the corresponding chapters.

**Q** I want to move to the previous or next song without touching the screen while driving. How do I do this?

**A** Push the [▲/▼] lever on the steering wheel to move to the previous or next song.

---

**Broadcast reception**

**Q** No sound is heard or a distorted noise is heard when listening to the radio while driving.

**A** Depending on the location, the reception may deteriorate due to obstacles. If the reception diminishes, change the radio station to another one. Attaching a window film including metal components to the rear window equipped with a glass antenna may lower radio reception.
How to self-check a system fault

Q My system does not operate normally. What should I do?

A Check your system by referring to the solutions explained in the troubleshooting sections. See p.11-2 "Solutions."

If the system still does not operate normally after following the relevant instructions, press and hold the reset button.

If the problem persists, contact your place of purchase or dealer.

</tr>
</tbody>
</table>
Sound quality of music files using a bit rate in more than 192 kbps is not guaranteed.

For files that do not use a fixed bit rate, some functions may not work or the playback time may be incorrect.

If an error occurs when you play a file or the file is not in supported format, change the file format by using the latest encoding software.

Note

- You cannot play the following types of files:
  - Modified files (files whose file format has changed)
  - Variant files (for example, MP3 files encoded with WMA audio codec)
  - Files with digital rights management (DRM)
  - Files with no index

- Operation is guaranteed only for a metal cover type USB storage device with a plug type connector.
  - USB storage devices with a plastic plug may not be recognized.
  - USB storage devices in memory card types, such as CF card or SD cards, may not be recognized.
• Any problem caused by the use of USB storage devices not listed in the following table are not covered by the warranty.

</tbody>
</table>
Important information

Before using your system, read and follow all instructions and safety information provided in this user's guide ("User's Manual"). Not following precautions found in this guide can lead to an accident or other serious consequences.

Keep this guide in your vehicle

When kept in the vehicle, this guide will be a ready reference for you and other users unfamiliar with the system. Ensure that before using the system for the first time, all persons have access to this guide and read its instructions and safety information carefully.

Warning

Operating certain parts of this system while driving can distract your attention away from the road, and possibly cause an accident or other serious consequences. Do not change system settings or enter data non-verbally (using your hands) while driving. Stop the vehicle in a safe and legal manner before attempting these operations. This is important since while setting up or changing some functions as you may to distract your attention away from the road and remove your hands from the steering wheel.

General operation

Voice command control

Features within the system may be executed using only voice commands. Using voice commands while driving allows you to operate the system without removing your hands from the steering wheel.

Prolonged views of screen

Do not access any function requiring a prolonged view of the screen while you are driving. Pull over in a safe and legal manner before attempting to access a function of the system requiring prolonged attention. Even short views of the screen may be hazardous if your attention has been diverted away from your driving.

Volume setting

Do not raise the volume excessively. Keep the volume at a level where you can still hear outside traffic and emergency signals while driving. Driving while unable to hear these sounds could cause an accident.
Navigation features

Navigation features included in the system are intended to provide detailed instructions to get you to a desired destination. Ensure that all persons using this system carefully read and follow all instructions on safety information.

Distraction hazard

Some navigation features may require manual (non-verbal) setup. Attempting to perform such setup or inputting data while driving can seriously distract your attention and could cause an accident. Stop the vehicle in a safe and legal manner before attempting these operations.

Let your judgment prevail

Any navigation features are provided only as an aid. Make your driving decisions based on your observations of local conditions and existing traffic regulations. Any such feature is not a substitute for your personal judgment. Any route suggestions made by this system should never replace any local traffic regulations or your personal judgment or knowledge of safe driving practices.

Route safety

Do not follow the route suggestions if doing so would result in an unsafe or illegal maneuver, if you would be placed in an unsafe situation, or if you would be directed into an area that you consider unsafe. The driver is ultimately responsible for the safe operation of the vehicle and must evaluate whether it is safe to follow the suggested directions.

Potential map inaccuracy

Maps used by this system may be inaccurate because of changes in roads, traffic controls or driving conditions. Always use good judgment and common sense when following the suggested routes.

Emergency services

Do not rely on any navigation features included in the system to direct you to emergency services. Ask local authorities or an emergency services operator for these locations. Not all emergency services such as police, fire stations, hospitals and clinics are contained in the map database for navigation features.
Use of speech recognition functions

Speech recognition software is inherently a statistical process which is subject to errors. It is your responsibility to monitor any speech recognition functions included in the system and address any errors.

FCC Certification

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to this device not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum 20 cm between the radiator and your body. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter unless authorized to do so by the FCC.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
The functions and services described in this guide are subject to change without prior notice for performance improvement. If the system software is updated, the screenshots in this guide may appear different than the actual images on the system.

The functions and services described in this guide may differ from those provided in your vehicle. For precise information related to your vehicle, refer to the owner's manual or catalog of your vehicle.

The design and specification of the system may change without prior notice for performance improvement.

Component names and functions

1. RADIO button
   • Press to turn on the radio. While listening to the radio, press to change the radio mode.

2. MEDIA button
   • Press to play content from a media storage device.
   • If you have multiple media storage devices, select one from the media selection window.

3. SEEK/TRACK button
   • While using an AV function, change the station/track/file (except for the AUX mode).
   • While listening to the radio, press and hold to search for a station.
   • While playing media, press and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

4. Reset button

5. PWR button/VOL knob
   • Press to turn AV (radio/media) on or off.
   • Press and hold to turn off the screen and the sound.
   • Turn to the left or right to adjust the system sound volume.
   • While the navigation guidance is playing, turn to adjust the sound volume.

6. Touch screen

Note: Depending on vehicle models and specifications, the illustration above may differ from the product's actual appearance and layout.
Note: Depending on vehicle models and specifications, the illustration above may differ from the product’s actual appearance and layout.
1. **Voice recognition button ( микрофон)**
   - Press to start voice recognition.
   - If the system does not support voice recognition, press to start voice recognition of a connected smartphone via phone projection.
   - Press and hold to end voice recognition.

2. **MODE button**
   - Press to switch between AV (radio/media) modes.
   - Press and hold to turn AV (radio/media) on or off.

3. **Volume lever (VOL +/VOL -)/Mute button ( молчание)**
   - Push up or down to adjust the volume.
   - Press to mute or unmute the system (except for the navigation).
   - While playing media, press to pause or resume playback (except for the iPod mode).

4. **Up/Down lever ( ⧲/⧳)**
   - While using an AV function, change the station/track/file (except for the AUX mode).
   - While listening to the radio, push and hold to search for a station.
   - While playing media, push and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

5. **Call/Answer button ( телеф.)**
   - Press to start connecting a mobile phone via Bluetooth.
   - After a Bluetooth phone connection is made, press to access your call history. Press and hold to dial the most recent phone number. When a call comes in, press to answer the call.
   - During a call, press to switch between the active call and the held call. Press and hold to switch the call between the system and the mobile phone.

6. **Call end button ( завершить)**

Note: Depending on vehicle models and specifications, the illustration above may differ from the product's actual appearance and layout.
Turning the system on or off

1. To turn on the system, start the engine.

2. When the safety warning appears, read it and touch **Confirm**.
   - To change the system language, touch **Language**.
   - If you do not want to use the system while driving, you can turn off the screen and the sound by pressing and holding the [PWR] button on the control panel. To use the system again, press the [PWR] button.

The system turns off when you stop the engine (ACC Off).
   - When you turn back on the system, the previous mode and settings will remain intact.
Warning

• Some functions may be disabled for safety reasons while the vehicle is moving. They work only when the vehicle stops. Park your vehicle in a safe location before using any of them.

• Stop using the system if it malfunctions, such as no audio output or display. If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

Caution

• You can turn on the system when the key ignition switch is placed in the "ACC" or "ON" position. Using the system for an extended period without the engine running drains the battery. If you plan on using the system for a long time, start the engine.

• If you turn on your system without starting the engine, a battery warning will appear. Once the engine starts, the battery warning will disappear.
Getting to know the Home screen

From the Home screen, you can access various functions.

1. Current time and date
2. System status icons
3. AV information. Touch to activate the corresponding AV mode in full screen.
5. Access the smart driving maintenance (EV) menu.
6. Access the All Menus screen.
7. Access the My Menu screen.

Note

- To move to the Home screen from another screen, touch 🏡.
- If an SD card is not inserted into your system, the map will not be displayed on the Home screen.
**System status icons**

Status icons appear at the top right of the screen to display the current system status.

Familiarize yourself with the status icons that appear when you perform certain actions or functions and their meanings.

- The battery level displayed on the screen may differ from the battery level displayed on the connected device.
- The signal strength displayed on the screen may differ from the signal strength displayed on the connected mobile phone.
- Depending on vehicle models and specifications, some status icons may not be displayed.
Using phone projection

Phone projection enables you to connect your Android smartphone or iPhone to your system and use their functions via the system. You can perform and control your smartphone applications by using the larger screen and enhance your use of the system.

⚠️ Caution

- Use only applications that are compatible with phone projection. Using incompatible applications may cause problems for your system or smartphone.
- Only compatible applications will be displayed on the phone projection screen. You can also check compatible applications by visiting the following websites:
  - Apple CarPlay: https://www.apple.com/ios/carplay
  - Android Auto: https://www.android.com/auto

Connecting your iPhone via Apple CarPlay

Before using Apple CarPlay, be sure to check the following:

Apple CarPlay support on your iPhone

Visit the Apple homepage (https://www.apple.com/ios/carplay) and check the iPhone models that support Apple CarPlay.

Apple CarPlay activated or updated on your iPhone

On your iPhone, ensure that Apple CarPlay is activated. If your iPhone does not have the function, update the iPhone’s operating system to the latest version.
Start Apple CarPlay by following the steps below:

1. On the Home screen, touch **All Menus ➤ Setup ➤ Phone Projection ➤ Apple CarPlay ➤ Enable Apple CarPlay.**

![Image of Phone Projection Settings]

2. Connect your iPhone to the USB port in your vehicle via the cable supplied with the iPhone.
   - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK.**
   
   **Caution**
   
   Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

3. If your iPhone is locked, unlock it and agree to use phone projection.
   - When the iPhone is recognized successfully, **Apple CarPlay** appears on the Home screen.
4 On the Home screen, touch **Apple CarPlay**.

5 Use your iPhone's functions, such as calling and messaging, on your system.
   - Touch an icon on the screen to run an application or perform a function.
     - Touch the Apple home icon () to move to the main screen of Apple CarPlay.
     - Touch the **HYUNDAI** icon (🚗) to move to the Home screen of your system.
   - Press the [ asign] button on the steering wheel to start Siri.
   - Press the [MODE] button on the steering wheel to select and start a media player installed on your smartphone, in addition to the system's AV modes.
   - Press the [ ] button on the steering wheel to answer an incoming call.

6 To end Apple CarPlay, remove the USB cable from your system.
Connecting your Android smartphone via Android Auto

Before using Android Auto, be sure to check the following:

### Android Auto support on your smartphone

Visit the Google homepage (https://www.android.com/auto) and check the regions, device types, and models that support Android Auto.

### Android Auto installed on your smartphone

Download and install the Android Auto application from Google Play. If you are in a region where Android Auto is not supported, you cannot install the application.

Start Android Auto by following the steps below:

1. On the Home screen, touch **All Menus ➤ Setup ➤ Phone Projection ➤ Android Auto ➤ Enable Android Auto.**
2 Connect your smartphone to the USB port in your vehicle via the cable supplied with the smartphone.
   • If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch OK.

⚠️ Caution

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

3 If your smartphone is locked, unlock it and agree to use phone projection.
   • When the smartphone is recognized successfully, Android Auto appears on the Home screen.

4 On the Home screen, touch Android Auto.

5 Use your smartphone's functions, such as calling and messaging, on your system.
   • Touch an icon on the screen to run an application or perform a function.
   • Press the [క ] button on the steering wheel to start Google voice recognition.
   • Press the [MODE] button on the steering wheel to select and start a media player installed on your smartphone, in addition to the system's AV modes.
   • Press the [📞] button on the steering wheel to start using Bluetooth call functions.

6 To end Android Auto, remove the USB cable from your system.
Using the radio

Turning on the radio

On the Home screen, touch **All Menus ➤ Radio**.

1. Display the options list.
   - **Station List**: Access the list of available radio stations.
   - **Delete Presets**: Delete saved radio stations from the preset list.
   - **Info**: Set to display text information received from the current broadcasting station.
   - **Sound Settings**: Customize the system sound settings.

2. Move to the previous screen.

3. Radio station information

4. Preset list

5. Select a radio mode.

6. Activate the HD Radio mode.

7. Preview each radio station for five seconds and select the station you want.
Scanning for available radio stations

You can listen to each radio station for a few seconds and select the one you want.

1 On the radio screen, touch Scan.
   • The system provides a preview of each radio station on the available stations list for five seconds.

2 When you find the radio station you want to listen to, touch Scan to stop the scan.
   • You can continue listening to the current radio station.

Searching for radio stations

To search for the previous or next available radio station, press the [TRACK] or [SEEK] button on the control panel.

• To select a radio station from the available stations list, touch Menu ► Station List on the radio screen.
• You can also press and hold the [TRACK] or [SEEK] button to search for frequencies quickly. When you release the button, the next available radio station is selected automatically.
Listening to HD Radio™

If you enable HD Radio reception by touching HD Radio, you can listen to HD Radio stations in areas where they are available. When HD Radio signals are received, the radio will switch from the analog mode to the HD mode.

In the HD mode, HD Radio station buttons are displayed at the top of the radio screen. Touch a button to select one of the available HD Radio stations.

Note

HD Radio is only available in metropolitan areas.

Listening to SiriusXM™ radio

You can listen to radio channels provided by SiriusXM, a satellite radio service. Various kinds of channels, such as music, sports, and news, are available via streaming or live broadcast.

Note

- SiriusXM service requires a subscription (sold separately) after the three-month trial included with the vehicle expires. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call Sirius XM at 1-866-635-2349 to cancel. See Customer Agreement for terms and conditions at www.siriusxm.com.
• Programming is subject to change.
• Sirius satellite service is available only to those at least 18 years of age and older in the Continental United States (including Puerto Rico) with coverage limitations.
• Traffic information is not available for all markets. See siriusxm.com/traffic for details.

On the radio screen, touch Band ★ SiriusXM.

Access the list of available SiriusXM radio channels.

Display the options list.
• **Delete Presets**: Delete saved radio stations from the preset list.
• **What is on My Presets?**: View broadcast schedule.
• **Featured Favorites**: Listen to groups of channels provided by SiriusXM.
• **Sound Settings**: Customize the system sound settings.

Move to the previous screen.

Switch to the live broadcast mode. This button is activated only when a live broadcast is available on the selected channel.

Move to the previous segment. Touch and hold to rewind the broadcast by five second decrements.

Pause or stop the broadcast.

Move to the next segment. Touch and hold to fast forward the broadcast by five second increments.

Weak reception indicator

Change the radio mode.

Select a channel by entering its channel number.

Scan through all available SiriusXM radio channels.
Using the media player

You can play music stored in various media storage devices, such as USB storage devices, smartphones, and iPods.

1. Connect a device to the USB port or the AUX port in your vehicle.
   - Playback may start immediately depending on the device that you connect to the system.

2. Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   - If you have multiple media storage devices, press the [MEDIA] button again and select a media mode from the media selection window.
Note

- When you connect an Apple device, playback does not start automatically and the AV information area remains in the previous mode. You cannot touch the AV information area to start playback. To start the media player in the iPod mode, press the [MEDIA] button on the control panel.
- You can also change the mode by pressing the [MODE] button repeatedly on the steering wheel.
- Depending on vehicle models and specifications, available buttons or the appearance and layout of the USB/AUX ports in your vehicle may vary.

Controlling the media player

Use the buttons at the bottom of the playback screen to control the media player.

Pausing/Resuming playback

Touch ■ to pause playback. Touch ▶ to resume playing your music.
- You can also press the [aurants] button on the steering wheel.

Note

The iPod mode does not support pausing or resuming playback with the [抗生素] button.

Rewinding/Fast forwarding

Touch and hold ◀ or ▶ to rewind or fast forward. Alternatively, press and hold the [TRACK] or [SEEK] button on the control panel.
- You can also push and hold the [▲/▼] lever on the steering wheel.
Restarting the current playback

Touch \[ \text{REW} \] to restart the song currently playing. Alternatively, press the [\( \vee \text{ TRACK} \)] button on the control panel.

- You can also push the \( \wedge / \vee \) lever downward on the steering wheel.

Playing the previous or next song

To play the previous song, touch \[ \text{REW} \] twice or press the [\( \vee \text{ TRACK} \)] button twice on the control panel. To play the next song, touch \[ \text{FF} \] or press the [\( \wedge \text{ SEEK} \)] button on the control panel.

- You can also use the \( \wedge / \vee \) lever on the steering wheel.

Note

- On the control panel, turn the [\( \text{FILE} \)] knob to find the desired song and press the knob within five seconds to play the file.
- If no control is detected within five seconds, the search is canceled and the screen displays information about the song currently playing.

Playing repeatedly

Touch Repeat to play a file on repeat. The repeat play mode changes each time you touch it. The corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available repeat play modes may vary.

Playing in random order

Touch Shuffle to shuffle an album or playlist. The shuffle play mode is activated or deactivated each time you touch it. When you activate the shuffle mode, the corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available shuffle play modes may vary.
Finding a route quickly

You can find a route to your destination quickly and start the navigation.

1. On the Home screen, touch the map area.
   - Alternatively, if your system has the [MAP] button on the control panel, press the [MAP] button.

2. On the map, touch **Place or Address**.

**Note**

The **Place or Address** field appears only when the transmission shift lever is in the "P" (Park) position.
3 Enter location information, such as a place name, an address, or coordinates, and touch **OK**.

- ▼: View the recent keywords list.
- MI: Narrow the search range to a desired region. Touch ▼ to view the recent states list.
- ◀: Switch to the uppercase mode.
- ◀: Delete the entered characters.
- &#: Switch to the symbol input mode.
- ABC: Switch to the alphabet input mode.
- AAAA: Switch to the accent input mode.
- : Enter a space.
- : Enter a punctuation mark.
- ☑: Change the keyboard settings.

4 Select a location from the search result list.
- To filter the search results by region, touch **Filter by City**.
- To filter the search results by POI category, touch **Filter by Category**.
5  Touch **Start Guidance.**

![Navigation screen](image)

---

**Note**

- You can use various search methods available in the navigation menu. On the Home screen, touch **All Menus ➤ NAV Menu.**
- If the HD Radio or SiriusXM service is available for traffic information, the corresponding icon will appear at the top of the navigation screen.
  - **HD Radio ( familial) :** The system is using HD Radio data. HD Radio is only available in metropolitan areas.
  - **SiriusXM ( familial) :** The system is using SiriusXM data. SiriusXM is only available when HD Radio is unavailable because HD Radio data has higher priority than SiriusXM data.

---

**Caution**

Depending on the region you are driving in or the driving conditions, information on the map may differ from the actual road conditions.

- When converted to an electronic map, the road shape may be altered. If the navigation guidance is different from the actual road, use your judgment and take the appropriate road.
- The navigation guidance may differ from the actual road due to the time difference between the map production and your driving. Drive according to the current road conditions and traffic regulations. When you reach the section of the route that matches the actual road, the navigation will resume your route correctly.
**Getting to know the navigation screen**

You can use the following functions and information on the navigation screen.

1. Move to the Home screen.
2. Change how the map is displayed.
   - **(North Up):** North is always up.
   - **(Heading Up):** The map rotates according to your driving direction.
   - **(3D Map):** A three-dimension effect is applied and the map rotates according to your driving direction.
3. Adjust the navigation sound volume.
4. Zoom in.
5. Set to fix the map scale or to set it to change automatically according to driving conditions.
6. Zoom out.
7. Information about this turn point
8. Information about the next turn point
9. Lane guidance
   - Yellow: The recommended lane
   - White: Lanes you can choose
   - Gray: Lanes to avoid
10. Display the quick menus you can use for navigation guidance.
11. View the distance to your destination and the estimated arrival time. Touch to view detailed destination information.
12. Stop the navigation guidance.
13. Hide or display the split screen.
Finding a route with various search methods

You can search for a location by various ways, such as entering location information, selecting among categorized locations or the recently selected locations in the navigation menu.

On the Home screen, touch **All Menus ➤ NAV Menu** to access the navigation menu.

- Alternatively, if your system has the [NAV] button on the control panel, press the [NAV] button.

1. Search for a location by entering various kinds of keywords, such as a place name or an address.
2. Search for a location by entering an address.
3. Select one of the destinations you entered previously.
4. If you are subscribed to the Blue Link service, search for a location based on the online map database.
5. Search for a location by using the point of interest (POI) category.
6. Search for a charging station.
7. Search for a restaurant by type.
8. Search for a nearby emergency service.
9. Select one of locations stored in your address book.
10. Search for a location by entering coordinates.
Using the quick menus

Finding another route

You can change the route options to search for a route again.

1 On the navigation screen, touch Menu ► Route ► Route Options.

2 Set the route options and touch Recalculate.

3 Select a route and touch Start Guidance.
Note

Depending on vehicle models or specifications, available options may vary.

Making a detour

You can search for a detour from the current route.

1. On the navigation screen, touch **Menu ➤ Route ➤ Detour**.

2. Select a detour by distance.
   - The navigation system searches for a new route according to the selected distance.

3. Select a new route and touch **Start Guidance**.

Editing your route

You can edit your route by adding waypoints or rearranging the locations in the route.

1. On the navigation screen, touch **Menu ➤ Route ➤ Edit Route**.
2 On the route editing screen, touch **Add Waypoint**.

3 Select a search method and search for a location to add it as a waypoint.

4 Edit the route, if necessary.
   - To rearrange the locations, select a location and touch ↑ or ↓.
   - To delete a waypoint, select the location you want and touch 删除.

5 When editing your route is complete, touch **Done**.

6 Select a new route and touch **Start Guidance**.
Changing the default map view settings

You can change the default view mode of the map screen.

On the navigation screen, touch **Menu ➤ Map Display** and select a view mode or set to display nearby buildings.

Searching for locations by POI category

To search for nearby points of interest during the navigation guidance, touch **Menu ➤ POI ➤ All POI Categories**. You can also select a category from the POI category list.
Displaying POIs on the map

You can set to display nearby POIs on the map.

On the navigation screen, touch Menu ► POI and touch the check boxes next to items to display on the map.

• To edit the POI category list in the quick menu, touch Menu ► POI ► Edit.

Viewing traffic information

You can view real-time traffic information including any ongoing road work or accidents.

1 On the navigation screen, touch Menu ► Traffic.
2 Select an item from the traffic information list to view its details.
   • To view traffic information along your current route or to view all available traffic information, touch **On Route**.
   • To select the types of traffic information you want to view, touch **Category**.

3 View detailed traffic information.

1 View the previous or next traffic information.
2 Reflect traffic information to your current route.

**Note**
Traffic support for border crossings and speed limits set for individual roads may not be accurate. Use the information at your discretion.
Saving your current location

You can save your current location quickly.

1. On the navigation screen, touch **Menu ➤ Save**.

2. Edit the location information, if necessary, and touch **Save**.
Using Bluetooth

Connecting Bluetooth devices

Bluetooth is a short-range wireless networking technology. Via Bluetooth, you can connect nearby mobile devices wirelessly to send and receive data between connected devices. This enables you to use your devices effectively.

To use Bluetooth, you must first connect a Bluetooth-enabled device to your system, such as a mobile phone or an MP3 player. Ensure that the device you want to connect supports Bluetooth.

⚠️ Warning

Park your vehicle in a safe location before connecting Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.

❗ Note

• On your system, you can use only Bluetooth Handsfree and Audio features. Connect a mobile device that supports the Bluetooth Handsfree or Audio feature.
• For more information on Bluetooth-enabled devices and their functional compatibility, visit the HYUNDAI Motor America website (https://www.hyundaiusa.com/bluetooth).

Pairing devices with your system

For Bluetooth connections, first pair your device with your system to add it to the system’s list of Bluetooth devices. You can register up to five devices.

   • If you are pairing a device with your system for the first time, you can also press the [.bluetooth] button on the steering wheel. Alternatively, on the Home screen, touch All Menus ➤ Phone.
2 On the Bluetooth device you want to connect, activate Bluetooth, search for your vehicle's system, and then select it.
   • Check the system's Bluetooth name, which is displayed in the new registration pop-up window on the system screen.

3 Ensure that the Bluetooth passkeys displayed on the Bluetooth device screen and the system screen are the same and confirm the connection from the device.

4 Choose whether or not to connect the Bluetooth device to your system prior to other devices.
   • If you grant priority to the Bluetooth device, it will be connected automatically to the system when you turn on the system.

5 If you are connecting a mobile phone, permit the system to access and download your data from the device.
   • Downloading data is only for Bluetooth call functions. Permission is not required if you are connecting an audio device.
Connecting a paired device

To use a Bluetooth device on your system, connect the paired device to the system. Your system can connect with only one device at a time.

1. On the Home screen, touch All Menus ► Setup ► Bluetooth ► Bluetooth Connection.

2. Touch Connect next to the device you want to connect.
   - If another device is already connected to your system, disconnect it. Touch Disconnect next to the device.

1. View Bluetooth help.
2. Connect the device.
3. Disconnect the device.
4. Pair a new device with your system.
5. Delete paired devices. Downloaded data from devices will also be deleted.
Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle’s speakers.

On the control panel, press the [MEDIA] button.

- If you have multiple media storage devices, press the [MEDIA] button again and touch Bluetooth Audio from the media selection window.

1. Search for and connect another Bluetooth device.
2. Display the options list.
   - Change Device: Search for and connect another Bluetooth device.
   - Sound Settings: Customize the system sound settings.
3. Move to the previous screen.
4. Information about the song currently playing
5. Repeat play mode
6. Shuffle play mode
7. Restart the current playback. Touch twice to play the previous file. You can also press the [TRACK] button on the control panel or use the [levator] lever on the steering wheel.
8. Pause or resume playback.
9. Play the next file. You can also press the [SEEK] button on the control panel or use the [levator] lever on the steering wheel.
10. Change the repeat play mode.
11. Activate or deactivate the shuffle play mode.
Using a Bluetooth phone

You can use Bluetooth to talk on the phone hands free. View call information on the system screen, and make or receive calls safely and conveniently via the vehicle’s built-in microphone and speakers.

⚠️ Warning

- Park your vehicle in a safe location before connecting any Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.
- Never dial a phone number or pick up your mobile phone while driving. Use of a mobile phone may distract your attention, making it difficult to recognize external conditions and reducing the ability to cope with unexpected situations, which may lead to an accident. If necessary, use the Bluetooth Handsfree feature to make a call and keep the call as short as possible.

Making a call

If your mobile phone is connected to the system, you can make a call by selecting a name from your call history or contacts list. You can also enter a phone number on the keypad.

1. On the Home screen, touch All Menus ➤ Phone.
   • Alternatively, press the [羟] button on the steering wheel.

2. If you have multiple paired mobile devices, select a mobile phone from your list of paired devices.
3 Select a phone number from your call history.
   • You can find the number you want by pushing the [▲/▼] lever on the steering wheel. You do not need to touch the screen.
   • To select a phone number from your contacts list, touch [ lehető.]
   • To enter a phone number manually, touch [ lehető.

4 To end the call, press the [ ] button on the steering wheel or touch End on the call screen.

Answering calls

When a call comes in, a notification pop-up window of the incoming call appears on the system screen.
To answer the call, touch **Accept**.
- Alternatively, press the [📞] button on the steering wheel.

To reject the call, touch **Reject**.
- Alternatively, press the [📞] button on the steering wheel.
- To reject the call with a text message, touch **Message**. Select a call rejection message from the list and touch **Send**.

**Note**
- Depending on the mobile phone type, call rejection or sending call rejection messages may not be supported.
- Once your mobile phone is connected to the system, the call sound may be output through the vehicle’s speakers even after you exit the vehicle if the phone is within the connection range. To end the connection, disconnect the device from the system or deactivate Bluetooth on the device.

**Viewing text messages**

You can view your messages on the system screen and listen to the messages converted to voice. You can also send a simple reply using the templates predefined on the system.

1. On the Home screen, touch **All Menus ➤ Phone**.
   - Alternatively, on the steering wheel, press the [📞] button.

2. On the Bluetooth phone screen, touch ✉️.

3. Select a message from the list.

4. View the message details.
Note

• Depending on the mobile phone type, replying to received messages may not be supported.

• To edit or delete templates, park your vehicle in a safe location first and use your mobile phone's messaging function. You cannot edit or delete your messages on your system.

• When you connect an iPhone, you may have some restrictions on receiving messages.
  - If the caller information is saved in your contacts list, only the caller's name will be displayed.
  - If the caller information is not saved in your contacts list, only the caller's phone number will be displayed.
  - Replying to received messages is not available.
  - If the message notification setting is disabled or the option for viewing content on the lock screen is disabled, messages will not be received by your system.

• Depending on the system language, converting the message to voice may not be supported.
Starting voice recognition

With voice recognition, you can use your system's functions without controlling the screen or buttons. This can help you maintain focus while driving and avoid any dangerous situations.

Use voice recognition to perform functions safely and conveniently.

On the steering wheel, press the button. Voice recognition starts with a voice guidance.

1 Voice recognition status
   • : Waiting for your command
   • : Playing a voice guidance
   • : Processing your command

2 Recognized command. The voice volume level is indicated as a bar graph while you are saying a command.

3 Primary voice commands you can use

4 End voice recognition.

| Send Message     | You can send a text message to one of your mobile phone's contacts. Say a contact's name and then enter the message content by following the guidance.  
This command is available only if Blue Link is activated. |
| Send Message to <Name> | You can send a text message to that specific contact. Enter the message content by following the guidance.  
This command is available only if Blue Link is activated. |
Command | Function
--- | ---
Send Message to <Name> <Message> | You can send a text message to that contact more directly. This command is available only if Blue Link is activated.
Change Bluetooth Device | You can search for and connect another Bluetooth device.

**Note**
To use call commands, your mobile phone must be connected to the system via Bluetooth and your contacts must be downloaded.

### Navigation commands

<table>
<thead>
<tr>
<th>Command</th>
<th>Function</th>
</tr>
</thead>
</table>
| Find <POI or Address> | You can search for a designated POI name or address. For example, say "Find Hyundai dealerships" or "Find Hyundai dealerships in Seattle."
<p>| Find Address in &lt;State&gt; | You can search for a location with its address in a designated state. Say an address in order of the house number, street, and city. |
| Find &lt;POI&gt; | You can search for a designated category of POIs nearby. |
| Frequently Visited Points | You can select a location from the list of your frequently visited points. Say the number of the location you want. |
| Address Book | Access the address book screen. |
| Previous Points | You can select a location from the list of your previous destinations, frequently visited points, and starting points. Say the number of the location you want. |</p>
<table>
<thead>
<tr>
<th>Command</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Previous Destinations</td>
<td>You can select a location from the list of your previous destinations. Say the number of the location you want.</td>
</tr>
<tr>
<td>Previous Starting Points</td>
<td>You can select a location from the list of your previous starting points. Say the number of the location you want.</td>
</tr>
<tr>
<td>Traffic Information</td>
<td>Access the traffic information screen.</td>
</tr>
<tr>
<td>Go Home</td>
<td>Set the location saved to the Go Home shortcut button in your address book as your destination.</td>
</tr>
<tr>
<td>Go to Work</td>
<td>Set the location saved to the Work shortcut button in your address book as your destination.</td>
</tr>
<tr>
<td>Change Home</td>
<td>You can change the location saved as your home.</td>
</tr>
<tr>
<td>Change Work</td>
<td>You can change the location saved as your work.</td>
</tr>
<tr>
<td>Pause Route</td>
<td>Pause the navigation guidance.</td>
</tr>
<tr>
<td>Resume Route</td>
<td>Resume the navigation guidance.</td>
</tr>
<tr>
<td>Turn Guidance On</td>
<td>Unmute the navigation guidance.</td>
</tr>
<tr>
<td>Turn Guidance Off</td>
<td>Mute the navigation guidance.</td>
</tr>
<tr>
<td>Zoom In</td>
<td>Zoom in on the map.</td>
</tr>
<tr>
<td>Zoom Out</td>
<td>Zoom out from the map.</td>
</tr>
<tr>
<td>Cancel Route</td>
<td>Stop the navigation guidance and cancel your current destination.</td>
</tr>
<tr>
<td>Destination Information</td>
<td>View information on the distance and time to your current destination.</td>
</tr>
<tr>
<td>Route Options</td>
<td>Find another route.</td>
</tr>
<tr>
<td>Emergency Services</td>
<td>You can select a location from the list of nearby police stations, hospitals, dealerships, and roadside assistance services. Say the number of the location you want.</td>
</tr>
<tr>
<td>Command</td>
<td>Function</td>
</tr>
<tr>
<td>-------------------------</td>
<td>--------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Police Stations</td>
<td>You can select a location from the list of nearby police stations. Say the number of the location you want.</td>
</tr>
<tr>
<td>Hospitals</td>
<td>You can select a location from the list of nearby hospitals. Say the number of the location you want.</td>
</tr>
<tr>
<td>Dealerships</td>
<td>You can select a location from the list of nearby motor dealerships. Say the number of the location you want.</td>
</tr>
<tr>
<td>Roadside Assistance</td>
<td>You can select a location from the list of nearby roadside assistance services. Say the number of the location you want.</td>
</tr>
<tr>
<td>Show Route</td>
<td>View the entire route on the map.</td>
</tr>
</tbody>
</table>

**Note**

- When you use a command starting with "Find," the system searches for locations within the state or province where your vehicle is currently located. To search for locations in another state or province, say the state or province name first and then say the location you want.
- Some commands, such as "Cancel Route" or "Show Route," are available only when a destination is set.
- When **Use Blue Link Network** is selected in the **Setup > Voice Recognition > Use Network** menu, a Blue Link subscription is required to use voice commands for finding POIs or addresses. If you do not have a Blue Link subscription or do not want to use server-based voice recognition, deactivate the option.
## Radio commands

<td>AM &lt;530 to 1710&gt;</td>
<td>Turn on the AM radio with that frequency.</td>
</tr>
<tr>
<td>SiriusXM &lt;0 to 999&gt;</td>
<td>Turn on the SiriusXM radio with that frequency.</td>
</tr>
</tbody>
</table>

## Other commands

<table>
<thead>
<tr>
<th>Command</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Help</td>
<td>Move to the help screen.</td>
</tr>
<tr>
<td>Line &lt;1 to 4&gt;*</td>
<td>Select an item with the designated number on a list. Simple numbers, such as &quot;One&quot; or &quot;Two,&quot; can be recognized.</td>
</tr>
<tr>
<td>Yes*</td>
<td>Accept a notification asking for your confirmation in an exceptional situation.</td>
</tr>
<tr>
<td>No*</td>
<td>Deny a notification asking for your confirmation in an exceptional situation.</td>
</tr>
<tr>
<td>Next*</td>
<td>If there are more than five items on a list, scroll to the next page.</td>
</tr>
<tr>
<td>Previous*</td>
<td>If you scroll to the next page of a list, scroll back to the previous page.</td>
</tr>
<tr>
<td>Manual Input*</td>
<td>When using the Dial Number command, open the keypad to enter a phone number manually.</td>
</tr>
<tr>
<td>Go Back*</td>
<td>Move to the previous screen.</td>
</tr>
<tr>
<td>Exit</td>
<td>End voice recognition.</td>
</tr>
</tbody>
</table>

*These commands are available only in certain situations.*
Using Siri Eyes Free

When you connect an Apple device that is compatible with Siri to your system via Bluetooth, you can use Siri Eyes Free. This allows you to perform the functions of your system and Apple device with voice commands so that you can devote your attention to driving.

First, ensure that your Apple device supports Siri and that you have activated Siri.

1. Connect your Apple device to your system via Bluetooth.

2. On the steering wheel, press and hold the [X] button.

3. On the Siri screen, touch **Speak**.

4. Say a command.
   - You can perform the functions related to Bluetooth calls on the system and other functions on your Apple device.
   - Press the [X] button to restart Siri.

5. To end Siri, press and hold the [X] button.

Siri Eyes Free is enabled only while you are driving. When you put the transmission shift lever in the “P” (Park) position or apply the parking brake, you disable this function.

**Note**

Different Apple devices may have different functions enabled and may vary in how they respond to Siri commands, depending on the type of device and the iOS version.
FAQ

Navigation

Q  How do I update the map?

A  You can download the latest map data by using the SD card provided with your system.

Q  The navigation system guides me to incorrect bypasses and notifies me the position of speed cameras too late.

A  You can search for an alternative route by reconfiguring the route options. On the navigation screen, touch Menu ► Route ► Route Options and set the options and search for other routes.

If your system is outdated, update the system's software and map data with the latest version.

Bluetooth

Q  What kinds of functions can I use with Bluetooth?

A  You can connect your mobile phone to make or answer calls hands free. You can also connect audio devices, such as MP3 players and mobile phones, to listen to music in your vehicle.
Q What is the difference between pairing a device and connecting a device?

A Pairing occurs through authenticating the system and a mobile device. Devices paired with the system can be connected and disconnected until they are deleted from the system. Bluetooth Handsfree features, such as making or answering calls or accessing contacts, are supported only in mobile phones connected with the system.

Q How do I pair a Bluetooth device with the system?

A On the Home screen, touch All Menus ➤ Setup ➤ Bluetooth ➤ Bluetooth Connection ➤ Add New. From the Bluetooth device you want to connect, search for and pair with your system. When you enter or confirm a Bluetooth passkey displayed on the system screen, the device is registered to the system’s Bluetooth device list and connected to the system automatically.

Q What is a passkey?

A A passkey is the password used to authenticate the connection between the system and the mobile device. The passkey needs to be entered only once when you pair a mobile phone for the first time.

The initial passkey is "0000." You can change it by touching All Menus ➤ Setup ➤ Bluetooth ➤ Bluetooth System Info ➤ Passkey.
Q I changed my mobile phone that was registered to the system via Bluetooth. How can I register my new mobile phone?

A You can register additional devices to your system by following the instructions to pair a device. Up to five devices can be added to your system's Bluetooth device list. To delete a registered device, on the Bluetooth device list, touch **Delete Devices**, select the devices to delete, and touch **Delete**.

Q How do I answer a call?

A When a call comes in and a notification pop-up window appears, press the [📞] button on the steering wheel or touch **Accept** on the screen.

To reject the call, press the [📞] button on the steering wheel or touch **Reject** on the screen.

Q What should I do if I want to switch the call to my mobile phone while on a call via the system?

A Press and hold the [📞] button on the steering wheel or touch **Use Private** on the screen to switch the call to your mobile phone.

Q How do I access the contacts in my mobile phone from the system?

A When connecting your mobile phone to your system, permit the system to access the contacts saved in the mobile phone. The contacts will be downloaded to the system. To open the downloaded contacts list, press the [📞] button on the steering wheel and touch [Contacts] on the phone screen. You can search for a contact to make a call or add it to favorites.
Q What is the range of my wireless connection?

A A wireless connection can be used within about 10 m (about 33 ft). The maximum Bluetooth range may be affected by the usage environment, such as the vehicle type, the system platform, or the connected mobile phone.

Q How many mobile devices can be paired?

A Up to five devices can be paired with your system.

Q Why is call quality sometimes poor?

A Check your mobile phone’s reception sensitivity when call quality deteriorates. The call quality may deteriorate when the signal strength is low.

Call quality may also become poor if metal objects, such as beverage cans, are placed near the mobile phone. Check to see if any metal objects are near the mobile phone.

The call sound and quality may differ depending on the type of mobile phone.

AV function

Q What kinds of AV functions does my system have?

A Your system provides you with the radio and media player (USB, iPod, AUX, etc.). For more information, see the corresponding chapters.
Q I want to move to the previous or next song without touching the screen while driving. How do I do this?

A Push the [.characters missing] lever on the steering wheel to move to the previous or next song.

Broadcast reception

Q No sound is heard or a distorted noise is heard when listening to the radio while driving.

A Depending on the location, the reception may deteriorate due to obstacles. If the reception diminishes, change the radio station to another one.

Attaching a window film including metal components to the rear window equipped with a glass antenna may lower radio reception.

How to self-check a system fault

Q My system does not operate normally. What should I do?

A Check your system by referring to the solutions explained in the troubleshooting sections.

If the system still does not operate normally after following the relevant instructions, press and hold the reset button.

If the problem persists, contact your place of purchase or dealer.
