## Available information for users

| **Car Multimedia System User’s Manual** | This guide introduces your system’s functions and explains how to use them. To use your system correctly and safely, read this guide before using the system. |
| **Car Multimedia System Quick Reference Guide** | This guide combines key information into a quick reference. Use this guide to refer to descriptions and instructions more quickly and easily. |
| **Quick Guide** | This guide is the help built into the system. You can access basic information on how to control the system and a brief description of major functions directly on the system screen.  
  - How to access the guide: On the Home screen, touch **All Menus ➤ Quick Guide**.  
  For safety, this quick guide will not be displayed while the vehicle is moving. Park your vehicle in a safe location before accessing the quick guide. |
Symbols used in this guide

**Warning**
Indicates important information related to user safety. Failure to follow warnings may result in death or serious personal injury.

**Caution**
Indicates important information related to user safety. Failure to follow cautions may result in personal injury, or damage or malfunction your vehicle.

**Note**
Indicates helpful information for convenient use.

*if equipped
Indicates descriptions for optional features.

This guide covers all specifications, including all trim models and optional specifications. It may include descriptions for features that are not equipped in your vehicle.
Safety warnings

For safety, follow the instructions below. Failure to do so may increase the risk of a traffic accident, which may result in death or personal injury.

⚠️ About driving

Do not operate the system while driving.
- Driving while distracted may result in a loss of vehicle control, potentially leading to an accident, severe personal injury, or death. The driver’s primary responsibility is the safe and legal operation of a vehicle, and any handheld devices, equipment, or vehicle systems which divert the driver’s attention from this responsibility should never be used during operation of the vehicle.

Avoid watching the screen while driving.
- Driving while distracted may lead to a traffic accident.
- Stop your vehicle in a safe location before using functions that require multiple operations.

Stop your vehicle first before using your mobile phone.
- Using a mobile phone while driving may lead to a traffic accident.
- If necessary, use the Bluetooth Handsfree feature to make calls and keep the call as short as possible.

Keep the volume low enough to hear external sounds.
- Driving without the ability to hear external sounds may lead to a traffic accident.
- Listening to a loud volume for a long time may cause hearing damage.

⚠️ About handling the system

Do not disassemble or modify the system.
- Doing so may result in an accident, fire, or electric shock.

Do not allow liquids or foreign substances to enter the system.
- Liquids or foreign substances may cause noxious fumes, a fire, or a system malfunction.

Stop using the system if it malfunctions, such as no audio output or display.
- If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

🔍 Note

If you experience any problems with the system, contact your place of purchase or dealer.
Safety cautions

For safety, follow the instructions below. Failure to do so may result in personal injury or damage to the system.

⚠️ About operating the system

Use the system with the engine running.
- Using the system for a long time when the engine is stopped may discharge the battery.

Do not install unapproved products.
- Using unapproved products may cause an error while using the system.
- System errors caused by installing unapproved products are not covered under the warranty.

⚠️ About handling the system

Do not apply excessive force to the system.
- Excessive pressure on the screen may damage the LCD panel or the touch panel.

When cleaning the screen or button panel, make sure to stop the engine and use a soft, dry cloth.
- Wiping the screen or buttons with a rough cloth or using solvents (alcohol, benzene, paint thinner, etc.) may scratch or chemically damage the surface.

If you attach a liquid-type air freshener to the fan louver, the surface of the louver may become deformed due to the flowing air.

⚠️ Note

If you experience any problems with the system, contact your place of purchase or dealer.
HYUNDAI VEHICLE OWNER PRIVACY POLICY

Your Hyundai vehicle may be equipped with technologies and services that use information collected, generated, recorded or stored by the vehicle. Hyundai has created a Vehicle Owner Privacy Policy to explain how these technologies and services collect use and share this information.

You may read our Vehicle Owner Privacy Policy on the Hyundaiusa.com website at:

If you would like to receive a hard copy of our Vehicle Owner Privacy Policy, please contact our Customer Connect Center at:
Hyundai Customer Care
P.O. Box 20850
Fountain Valley, CA 92728
800-633-5151
consumeraffairs@hmausa.com

Hyundai's Customer Connect Center representatives are available Monday through Friday, between the hours of 5:00 AM and 7:00 PM PST and Saturday and Sunday between 6:30 AM and 3:00 PM PST (English).

For Customer Connect Center assistance in Spanish or Korean, representatives are available Monday through Friday between 6:30 AM and 3:00 PM PST.

System overview

Component names and functions
Turning the system on or off
Controlling the touch screen
Getting to know the Home screen
Getting to know the driving assistance screen
Component names and functions

1 RADIO button
   • Press to turn on the radio. While listening to the radio, press to change the radio mode.

2 MEDIA button
   • Press to play content from a media storage device.
   • If you have multiple media storage devices, select one from the media selection window.

3 SEEK/TRACK button
   • While using an AV function, change the station/track/file (except for the AUX mode).
   • While listening to the radio, press and hold to search for a station.
   • While playing media, press and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

4 PWR button/VOL knob
   • Press to turn AV (radio/media) on or off.
   • Press and hold to turn off the screen and the sound.
   • Turn to the left or right to adjust the system sound volume.

5 Reset button

Note: Depending on vehicle models and specifications, the illustration above may differ from the product’s actual appearance and layout.
6 HOME button
   • Press to access the Home screen.

7 PHONE button
   • Press to start connecting a mobile phone via Bluetooth.
   • After a Bluetooth phone connection is made, press to access your call history.

8 Custom button (★)
   • Press to use a custom function.

9 SETUP button
   • Press to access the settings screen.

10 TUNE knob/FILE knob/ENTER button
   • While listening to the radio, turn to adjust the frequency or change the channel.
   • While playing media, turn to search for a track/file.
   • During a search, press to select the current track/file.

Note: Depending on vehicle models and specifications, the illustration above may differ from the product's actual appearance and layout.
Voice recognition button ( микрофон)
- Press to start voice recognition.
- If the system does not support voice recognition, press to start voice recognition of a connected smartphone via phone projection.
- Press and hold to end voice recognition.

MODE button
- Press to switch between AV (radio/media) modes.
- Press and hold to turn AV (radio/media) on or off.

Volume lever (+/-)/Mute button ( громкость)
- Push up or down to adjust the volume.
- Press to mute or unmute the system.
- While playing media, press to pause or resume playback (except for the iPod mode).

Up/Down lever ( вверх/вниз)
- While using an AV function, change the station/track/file (except for the AUX mode).
- While listening to the radio, push and hold to search for a station.
- While playing media, push and hold to rewind or fast forward (except for the AUX and Bluetooth audio modes).

Call/Answer button ( телефон)
- Press to start connecting a mobile phone via Bluetooth.
- After a Bluetooth phone connection is made, press to access your call history. Press and hold to dial the most recent phone number. When a call comes in, press to answer the call.
- During a call, press to switch between the active call and the held call. Press and hold to switch the call between the system and the mobile phone.

Call end button ( закрыть)

Note: Depending on vehicle models and specifications, the illustration above may differ from the product’s actual appearance and layout.
Turning the system on or off

1. To turn on the system, start the engine.

2. When the safety warning appears, read it and touch **Confirm**.
   - To change the display language, touch **Language**.

   ![Safety Warning]

   Drive safely and obey traffic rules. Watching this screen while the vehicle is in motion can lead to a serious accident. Some data may be incorrect. Read safety instructions in manual.

   ![Control Panel]

   The system turns off when you stop the engine (ACC Off).
   - When you turn back on the system, the previous mode and settings will remain intact.

   ![System Off]

   • If you do not want to use the system while driving, you can turn off the screen and the sound by pressing and holding the [PWR] button on the control panel. To use the system again, press the [PWR] button.
**Warning**

- Some functions may be disabled for safety reasons while the vehicle is moving. They work only when the vehicle stops. Park your vehicle in a safe location before using any of them.
- Stop using the system if it malfunctions, such as no audio output or display. If you continue using the system when it is malfunctioning, it may lead to a fire, electric shock, or system failure.

**Caution**

- You can turn on the system when the key ignition switch is placed in the "ACC" or "ON" position. Using the system for an extended period without the engine running drains the battery. If you plan on using the system for a long time, start the engine.

- If you turn on your system without starting the engine, a battery warning will appear. Once the engine starts, the battery warning will disappear.

**Note**

To avoid having audio play at an excessive volume when you start the engine, adjust the volume level before stopping the engine. You can also set the system to decrease the volume level automatically. On the Home screen, touch **All Menus ➤ Setup ➤ Sound ➤ Priority** and activate the **Start-up Volume Limit** option.
Controlling the touch screen

Your system is equipped with a touch screen. You can perform various functions via touch inputs.

⚠️ Caution

- Do not apply excessive pressure to the touch screen or touch it with a pointed object. Doing so may damage the touch screen.
- Do not let any electrically conductive material contact the touch screen. A shock from static electricity may cause the system or the touch screen to malfunction.

➡️ Note

If you wear regular gloves, you will not be able to control the touch screen. Remove your gloves or wear gloves designed for use with a touch screen.

Touch

Touch an object lightly and lift your finger. You can perform a function or select an option.

Touch and hold

Touch an object and hold it for at least one second without lifting your finger. You can rewind or fast forward media by touching and holding an appropriate button.
Drag
Touch and hold an object, drag it, and then drop it on a new location. You can move the selected object to another location or skip ahead or replay part of a song.

Swipe
Swipe the screen lightly in an appropriate direction. This is an easy way to scroll through a menu or list quickly.

Getting to know the Home screen
From the Home screen, you can access various functions.

1. Current time and date
2. System status icons ➤ See p.10-2 "System status icons."
3. AV information. Touch to activate the corresponding AV mode in full screen.
4. Connection information. The connection status and function icons are displayed.
5. Access the All Menus screen.
6. Access the My Menu screen. ➤ See p.2-2 "Setting up My Menu."
Getting to know the driving assistance screen

You can view the outside of your vehicle on the system screen. Depending on vehicle models, the screens displayed in this section may differ from the actual screen.

⚠️ Caution

The distance shown in the rear view screen may differ from the actual distance. For safety, be sure to visually check the rear, left, and right sides of your vehicle.

Rear view screen (common)

When you put the transmission shift lever in the "R" (Reverse) position while the engine is running, the system screen will automatically display the rear view and the parking guides.

Run applications and view the quick guide.
Access the settings screen.

Note
To move to the Home screen from another screen, touch 🔁.

• Driving direction lines (yellow) ① ②
These lines show the directions of the vehicle according to the steering angle.

• Neutral direction lines (blue) ③
These lines indicate your vehicle's expected path with the steering wheel in the neutral position. It can help you determine whether the vehicle is in the correct position in a parking space and prevent you from parking too close to the next vehicle.

• Crash warning lines (red) ④
These lines are to prevent a collision.
**Warning**

When backing up, make sure to follow the guidelines below:

- Before entering your vehicle, always check the area behind your vehicle.
- Do not solely rely on the rear view camera when backing up. Always ensure that it is safe to back up by checking behind you and looking in the rearview mirrors.
- Always back up slowly and stop immediately if you suspect that a person, especially a child, might be behind you.

**Note**

- The rear view screen remains active even if you move the transmission shift lever to any position other than the "R" (Reverse) or “P” (Park) position after backing up. When you drive at 15 km/h or faster, the rear view screen will be deactivated and the system will display the previous screen automatically.

- The parking guides show your vehicle's path according to the steering angle.

- If an object comes too close to your vehicle as you are backing up, a warning beep will sound. To prevent an accident that might result if you do not hear the beep, you can set the system to decrease the volume level of any media playing automatically when the vehicle is in reverse. On the Home screen, touch **All Menus** ➤ **Setup** ➤ **Sound** ➤ **Priority** ➤ **Back-up Warning Priority**.
Surround view monitor (*if equipped)

The surround view monitor feature enables you to view the surroundings of your vehicle by using multiple cameras installed in the vehicle.

Checking your surroundings while driving

Press the \( \text{button} \).

- The front view with the surround view is displayed on the screen.
- The feature is activated only in the following conditions:
  - When you are driving at 15 km/h or less with the transmission shift lever in the “D” (Drive) position
  - When you stop with the transmission shift lever in the “D” (Drive) or “N” (Neutral) position

Steering-interactive camera

Checking the rear top view

With the rear top view feature, you can look down at what is behind you.

On the rear view screen, touch \( \text{button} \).

1. These lines indicate the space necessary to open the tailgate of your vehicle. It can help you see if there is enough space to open the tailgate after parking and if there is any obstacle to opening it.
2. This line represents an extension of your vehicle’s center. It shows the path of your vehicle’s center according to the steering angle.
To deactivate the surround view screen, press the [ ] button.

**Note**
If an open door or tailgate or a folded outside rearview mirror is detected while the surround view monitor is active, an alert icon will appear on the left side of the screen.

### Checking your surroundings while backing up

When you move the transmission shift lever to the "R" (Reverse) position, the rear view will appear on the screen automatically.

Touch one of the icons at the bottom of the screen to check the corresponding direction.

</table>

**Note**

If you put the transmission shift lever in the "P" (Park) position, the surround view monitor will not work.
Setting the surround view screen

To change the screen settings, touch the surround view screen.

- **Display Guidelines**: Set to display the parking guides on the rear view screen.
- **F/R Proximity Warnings**: Set to receive a warning message when the surround view monitor detects an object close to the front or rear of your vehicle.
- **Front View Mode**: Select a default view to be displayed when you activate the surround view monitor while driving.
- **Rear View Mode**: Select a default view to be displayed when the surround view monitor is activated while backing up.
Useful features

- Setting up My Menu
- Using Voice Memo
- Using phone projection
- Using SiriusXM™ data services
Setting up My Menu

Add your frequently used functions or favorites to My Menu to access them quickly from the Home screen. You can add up to 24 items to My Menu.

   - If you have already added items, on the My Menu screen, touch Menu ➤ Add.

2. Select items to add and touch Add ➤ Yes.

Editing My Menu

You can rearrange the items added to My Menu.

2. Drag an item to a desired location.

Using Voice Memo

You can record voice memos using the microphone installed in your vehicle and play voice memos on your system.

On the Home screen, touch All Menus ➤ Voice Memo.
Using phone projection

Phone projection enables you to connect your Android smartphone or iPhone to your system and use their functions via the system. You can perform and control your smartphone applications by using the larger screen and enhance your use of the system.

**Caution**

- Use only applications that are compatible with phone projection. Using incompatible applications may cause problems for your system or smartphone.
- Only compatible applications will be displayed on the phone projection screen. You can also check compatible applications by visiting the following websites:
  - Apple CarPlay: https://www.apple.com/ios/carplay
  - Android Auto: https://www.android.com/auto

**Note**

- Voice memo recording mutes the function in operation or pauses media playback.
- If you make or answer a call while recording a voice memo, the recording pauses. If an emergency call or Auto Crash Notification (ACN) call is connected, the recording will stop and the recorded voice memo will be saved automatically.
Connecting your iPhone via Apple CarPlay

Before using Apple CarPlay, be sure to check the following:

**Apple CarPlay support on your iPhone**

Visit the Apple homepage (https://www.apple.com/ios/carplay) and check the iPhone models that support Apple CarPlay.

**Apple CarPlay activated or updated on your iPhone**

On your iPhone, ensure that Apple CarPlay is activated. If your iPhone does not have the function, update the iPhone's operating system to the latest version.

Start Apple CarPlay by following the steps below:

1. On the Home screen, touch **All Menus ➤ Setup ➤ Phone Projection ➤ Apple CarPlay ➤ Enable Apple CarPlay.**

2. Connect your iPhone to the USB port in your vehicle via the cable supplied with the iPhone.
   - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK.**

⚠️ **Caution**

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.
3 If your iPhone is locked, unlock it and agree to use phone projection.
   • When the iPhone is recognized successfully, Apple CarPlay appears on the Home screen.

4 On the Home screen, touch Apple CarPlay.

5 Use your iPhone's functions, such as calling and messaging, on your system.
   • Touch an icon on the screen to run an application or perform a function.
     - Touch the Apple home icon ( homosex) to move to the main screen of Apple CarPlay.
     - Touch the HYUNDAI icon ( homosex) to move to the Home screen of your system.

6 To end Apple CarPlay, remove the USB cable from your system.

Note
   • When a USB cable is connected to your system, you cannot change the phone projection settings.
   • Depending on Apple's policies, applications or functions that are compatible with Apple CarPlay, such as navigation apps or media players, may change. To check compatible applications, visit the Apple homepage (https://www.apple.com/ios/carplay).
   • To use phone projection in optimized environments, update your smartphone’s operating system to the latest version.
Connecting your Android smartphone via Android Auto

Before using Android Auto, be sure to check the following:

**Android Auto support on your smartphone**

Visit the Google homepage (https://www.android.com/auto) and check the regions, device types, and models that support Android Auto.

**Android Auto installed on your smartphone**

Download and install the Android Auto application from Google Play. If you are in a region where Android Auto is not supported, you cannot install the application.

- Depending on the connected device's hardware, firmware, and operating system versions, the recognition time may vary.
- Using phone projection may result in mobile communication charges.
- Depending on the network signal status, some functions may not work correctly.
- Avoid controlling your smartphone while phone projection is in use.
- While you are using Apple CarPlay, the following functions are unavailable:
  - Bluetooth
  - Blue Link calls
  - System's voice recognition (iPhone's voice recognition is available.)
  - USB and iPod modes
  - Volume control (depending on the connected device)
  - Searches using the [TUNE/FILE] knob
  - Android Auto
Start Android Auto by following the steps below:

1. On the Home screen, touch **All Menus ➤ Setup ➤ Phone Projection ➤ Android Auto ➤ Enable Android Auto**.

2. Connect your smartphone to the USB port in your vehicle via the cable supplied with the smartphone.
   - If you are connecting the device for phone projection for the first time, read the message on the notification pop-up window and touch **OK**.

   **Caution**
   
   Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

3. If your smartphone is locked, unlock it and agree to use phone projection.
   - When the smartphone is recognized successfully, **Android Auto** appears on the Home screen.

4. On the Home screen, touch **Android Auto**.

5. Use your smartphone's functions, such as calling and messaging, on your system.
   - Touch an icon on the screen to run an application or perform a function.
   - Press the [📞] button on the steering wheel to start Google voice recognition.
   - Press the [MODE] button on the steering wheel to select and start a media player installed on your smartphone, in addition to the system's AV modes.
   - Press the [📞] button on the steering wheel to start using Bluetooth call functions.

6. To end Android Auto, remove the USB cable from your system.
- Using phone projection may result in mobile communication charges.
- Depending on the network signal status, some functions may not work correctly.
- Avoid controlling your smartphone while phone projection is in use.
- While you are using Android Auto, the following functions are unavailable:
  - Bluetooth audio
  - Blue Link calls
  - System's voice recognition (smartphone's voice recognition is available.)
  - USB and iPod modes
  - Searches using the [TUNE/FILE] knob
  - Apple CarPlay

- Note
  - When a USB cable is connected to your system, you cannot change the phone projection settings.
  - Depending on Google's policies, the icons on the main screen of Android Auto may change.
  - Depending on Google's policies, applications or functions that are compatible with Android Auto may change. To check compatible applications, visit the Android homepage (https://www.android.com/auto).
  - To use phone projection in optimized environments, update your smartphone's operating system to the latest version.
  - Depending on the connected device's hardware, firmware, and operating system versions, the recognition time may vary.
Using SiriusXM™ data services

You can access an array of information with SiriusXM data services.

Note
SiriusXM is a paid satellite radio service.

On the Home screen, touch All Menus ➤ SiriusXM Data.

1. View weather information. ➤ See p.2-10 "Viewing weather information."
2. View sports information. ➤ See p.2-12 "Viewing sports information."
3. Stay on top of current stock values and trends in the stock market. ➤ See p.2-11 "Viewing stock information."
4. View fuel price information and search for a nearby service station. ➤ See p.2-10 "Viewing fuel price information."
5. See what is playing now and search for a nearby theater. ➤ See p.2-13 "Viewing the latest movie information."
Viewing weather information

1 On the Home screen, touch **All Menus ➤ SiriusXM Data**.

2 Touch **Weather**.

3 View today’s weather information in your city.
   • To view weather forecasts for today and the next four days, touch **5 Days**.
   • To view weather information of another area, touch **Other City**.
   • To view warnings and advisories for adverse weather conditions, such as tornadoes, tropical storms, and blizzards, touch **Warnings and Advisories**.

Viewing fuel price information

1 On the Home screen, touch **All Menus ➤ SiriusXM Data**.

2 Touch **Fuel Prices ➤ Nearby Stations**.
3 Search for nearby gas stations and check or compare fuel prices.
   • To sort the search results, touch the option menu (▼) and select a sorting option.
   • To set a service station as one of your favorites, touch

   ![Nearby Stations](image)

   Note

   To access your list of favorite gas stations, touch **Favorite Stations** on the main screen.

### Setting a filter for searching for gas stations

1. On the Home screen, touch **All Menus**  ➤ **SiriusXM Data**.
2. Touch **Fuel Prices**  ➤ **Filters**.
3. Select the type of fuel your vehicle uses and your favorite brands.

### Viewing stock information

1. On the Home screen, touch **All Menus**  ➤ **SiriusXM Data**.
2. Touch **Stocks**  ➤ **Add**.
3 Search for your favorite stock by entering a stock symbol in the search bar and then touch ★ to add it to the list.
   • Repeat this step to add more stock symbols.

Now you can check information on your stock every day by touching All Menus ► SiriusXM Data ► Stocks.

4 Note
To delete a stock symbol from your favorites list, touch ★

Viewing sports information

1 On the Home screen, touch All Menus ► SiriusXM Data.

2 Touch Sports.

3 Select the sport that interests you.
   • To set up a list of your favorite teams and check their daily results and schedules, touch My Teams.
4 View real-time scores and schedules for major events and games.

Creating a list of your favorite teams

1 On the Home screen, touch All Menus > SiriusXM Data.

2 Touch Sports > My Teams > Add.

3 Search for your favorite team by entering its name in the search bar and then touch ★ to add it to the list.
   • Repeat this step to add more teams.

Now you can check your favorite team's scores and schedules every day.

Note
To delete a team from your favorites list, touch ★.

Viewing the latest movie information

1 On the Home screen, touch All Menus > SiriusXM Data.
2 Touch Movies ➤ Top Movies.

3 View information about the latest movies.
   • To reorder the titles on the list, touch the option menu (▼) and select an option.
   • To view detailed information about a movie, touch .

1 On the Home screen, touch All Menus ➤ SiriusXM Data.

2 Touch Movies ➤ Nearby Theaters.

3 Search for nearby theaters and view their location information.
   • To sort the search results, touch the option menu (▼) and select a sorting option.
   • To view detailed information about a theater, touch .
   • To set a theater as one of your favorites, touch ★.
Creating a list of your favorite theaters

1. On the Home screen, touch All Menus ➤ SiriusXM Data.

2. Touch Movies ➤ Favorite Theaters ➤ Add.

3. Find your favorite theater from the list and touch ★.
   • Repeat this step to add more theaters.

Radio

- Turning on the radio
- Changing the radio mode
- Scanning for available radio stations
- Searching for radio stations
- Saving radio stations
- Listening to saved radio stations
- Listening to HD Radio™
- Listening to SiriusXM™ radio
Turning on the radio

On the Home screen, touch All Menus ➤ Radio.

Display the options list.
- **Station List**: Access the list of available radio stations.
- **Delete Presets**: Delete saved radio stations from the preset list.
- **Info**: Set to display text information received from the current broadcasting station.
- **Sound Settings**: Customize the system sound settings.
  ➤ See p.8-2 "Setting the system sound."

Move to the previous screen.

Radio station information

Preset list

Select a radio mode.

Activate the HD Radio mode.

Preview each radio station for five seconds and select the station you want.

Changing the radio mode

On the radio screen, touch **Band** and select a desired mode.

- Alternatively, press the [RADIO] button on the control panel or the [MODE] button on the steering wheel. Each time you press the button, the radio mode switches to FM ➤ AM ➤ SiriusXM in order.
Scanning for available radio stations

You can listen to each radio station for a few seconds and select the one you want.

1. On the radio screen, touch **Scan**.
   - The system provides a preview of each radio station on the available stations list for five seconds.

2. When you find the radio station you want to listen to, touch **Scan** to stop the scan.
   - You can continue listening to the current radio station.

Searching for radio stations

To search for the previous or next available radio station, press the [ SEEK] button on the control panel.

- To select a radio station from the available stations list, touch **Menu ► Station List** on the radio screen.
- You can also press and hold the [ SEEK] button to search for frequencies quickly. When you release the button, the next available radio station is selected automatically.
Saving radio stations

You can save your favorite radio stations and listen to them by selecting them from the preset list.

On the radio screen, touch and hold an empty slot from the preset list.

• The radio station you are listening to will be added to the selected slot.

Note

• You can save up to 40 radio stations.
• If the preset list is full, you can replace one of your favorite stations with the station you are listening to. Touch and hold the station you want to replace.

Listening to saved radio stations

Select one of the radio stations in the preset list.

• Alternatively, push the \(\wedge/\vee\) lever on the steering wheel to change the radio station.

Listening to HD Radio™

If you enable HD Radio reception by touching \(\text{HD Radio}\), you can listen to HD Radio stations in areas where they are available. When HD Radio signals are received, the radio will switch from the analog mode to the HD mode.
In the HD mode, HD Radio station buttons are displayed at the top of the radio screen. Touch a button to select one of the available HD Radio stations.

Note
HD Radio is only available in metropolitan areas.

Program Info: Presents song name, artist, station IDs, and other relevant data streams.

Digital Sound
Digital, CD-quality sound. HD Radio™ Technology enables local radio stations to broadcast a clean digital signal. AM sounds like today's FM and FM sounds like a CD.

HD2/HD3
FM stations can provide additional digital-only audio programming on HD2/HD3 Channels.
Listening to SiriusXM™ radio

You can listen to radio channels provided by SiriusXM, a satellite radio service. Various kinds of channels, such as music, sports, and news, are available via streaming or live broadcast.

**Note**

- SiriusXM service requires a subscription (sold separately) after the three-month trial included with the vehicle expires. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call Sirius XM at 1-866-635-2349 to cancel. See Customer Agreement for terms and conditions at www.siriusxm.com.
- Programming is subject to change.
- Sirius satellite service is available only to those at least 18 years of age and older in the Continental United States (including Puerto Rico) with coverage limitations.
- Traffic information is not available for all markets. See siriusxm.com/traffic for details.

**On the radio screen, touch Band ➤ SiriusXM.**

1. Access the list of available SiriusXM radio channels.
2. Display the options list.
   - **Delete Presets**: Delete saved radio stations from the preset list.
   - **What is on My Presets?**: View broadcast schedule.
   - **Featured Favorites**: Listen to groups of channels provided by SiriusXM.
   - **Sound Settings**: Customize the system sound settings.
     - See p.8-2 "Setting the system sound."
Searching for SiriusXM radio channels

You can select a channel from the available SiriusXM channels list.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Channel List.

3. Select a category and a channel.
   - To skip a channel when scanning with the [SEEK] button or [TUNE] knob, touch Skip.

Note

The icon will be shown next to the first 10 SiriusXM channels saved. Once preset channels are saved, broadcasts from these channels will be buffered automatically for your convenience each time you start your vehicle.
Selecting channels by using channel numbers

If you know the exact channel number, you can enter it to select the channel directly.

1 On the radio screen, touch Band ► SiriusXM.

2 On the SiriusXM radio screen, touch Direct Tune.

3 Enter a channel number and touch OK.

Viewing the program schedule

You can view the program schedule and information for the channels stored in your preset list.

1 On the radio screen, touch Band ► SiriusXM.

2 On the SiriusXM radio screen, touch Menu ► What is on My Presets?.

3 Set a date and time on the top line of the screen.
   • To select a date, touch the date display field at the top left of the preset list and select a date and time zone.
   • To select a time, touch ◀ or ▶.
Select a channel and a program to view its detailed information.

Note

If there is hidden information, an arrow will appear next to the program. Touch the arrow to view the hidden information.

Listening to Featured Favorites channels

You can listen to Featured Favorites channels on SiriusXM radio. Multiple sets of channels can be broadcast and can be changed by SiriusXM.

1. On the radio screen, touch Band ➤ SiriusXM.

2. On the SiriusXM radio screen, touch Menu ➤ Featured Favorites.
Media player

Using the media player
Using the USB mode
Using the iPod mode
Using the AUX mode
Using the media player

You can play music stored in various media storage devices, such as USB storage devices, smartphones, and iPods.

1. Connect a device to the USB port or the AUX port in your vehicle.
   • Playback may start immediately depending on the device that you connect to the system.

2. Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • If you have multiple media storage devices, press the [MEDIA] button again and select a media mode from the media selection window.

Note

• When you connect an Apple device, playback does not start automatically and the AV information area remains in the previous mode. You cannot touch the AV information area to start playback. To start the media player in the iPod mode, press the [MEDIA] button on the control panel.
• You can also change the mode by pressing the [MODE] button repeatedly on the steering wheel.
• Depending on vehicle models and specifications, available buttons or the appearance and layout of the USB/AUX ports in your vehicle may vary.
Controlling the media player

Use the buttons at the bottom of the playback screen to control the media player.

Rewinding/Fast forwarding

Touch and hold | or | to rewind or fast forward. Alternatively, press and hold the |TR| button on the control panel.
• You can also push and hold the |/| lever on the steering wheel.

Restarting the current playback

Touch K to restart the song currently playing. Alternatively, press the |TRACK| button on the control panel.
• You can also push the |/| lever downward on the steering wheel.

Pausing/Resuming playback

Touch I to pause playback. Touch | to resume playing your music.
• You can also press the | | button on the steering wheel.

Note

The iPod mode does not support pausing or resuming playback with the | | button.
Playing the previous or next song

To play the previous song, touch \( \mathbb{K} \) twice or press the \( [\mathbb{\checkmark} \mathbb{TRAC}] \) button twice on the control panel. To play the next song, touch \( \mathbb{\checkmark}\mathbb{\downarrow} \) or press the \( [\mathbb{TRAC}] \) button on the control panel.

- You can also use the \( [\mathbb{\uparrow}/\mathbb{\downarrow}] \) lever on the steering wheel.

Note

- On the control panel, turn the \( [\mathbb{FILE}] \) knob to find the desired song and press the knob within five seconds to play the file.
- If no control is detected within five seconds, the search is canceled and the screen displays information about the song currently playing.

Playing repeatedly

Touch Repeat to play a file on repeat. The repeat play mode changes each time you touch it. The corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available repeat play modes may vary.

Playing in random order

Touch Shuffle to shuffle an album or playlist. The shuffle play mode is activated or deactivated each time you touch it. When you activate the shuffle mode, the corresponding mode icon will be displayed on the screen. Depending on the current media or playlist, available shuffle play modes may vary.

Note

For specific descriptions of each media mode, refer to the corresponding section. The description on the Bluetooth audio mode is included in the "Bluetooth" chapter.
Using the USB mode

You can play media files stored in portable devices, such as USB storage devices and MP3 players. Check compatible USB storage devices and file specifications before using the USB mode. ► See p.10-8 "USB mode."

Listening to music

1 Connect your USB device to the USB port in the vehicle.

2 Touch the AV information area on the Home screen or press the [MEDIA] button on the control panel.
   • The media player is displayed in full screen.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch USB Music from the media selection window.

Using the USB mode

1 Access the files list.
2 Display the options list.
   • **Hide Current File**: Delete the file that is playing currently from the system.
   • **Sound Settings**: Customize the system sound settings. ► See p.8-2 "Setting the system sound."
3 Move to the previous screen.
4 Information about the song currently playing
5 Repeat play mode
6 Shuffle play mode
7 Number of files on the current playlist
8 Playback time and playback position
**Note**

Only USB storage devices formatted in FAT16/32 formats support deleting files. You can find the deleted files in the "Hidden_" folder.

**Caution**

- Start the engine of your vehicle before connecting a USB device to your system. Starting the engine with a USB device connected to the system may damage the USB device.
- Be careful of static electricity when connecting or disconnecting a USB device. A static discharge may cause a system malfunction.
- Be careful not to let your body or external objects contact the USB port. Doing so may cause an accident or a system malfunction.
- Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.
- Do not use a USB device for purposes other than playing files. Using USB accessories for charging or heating may cause poor performance or a system malfunction.

**Note**

- When connecting a USB storage device, do not use an extension cable. Connect it directly to the USB port. If you use a USB hub or an extension cable, the device may not be recognized.
- Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
- When you disconnect a USB device, a distorted noise may occur.
- The system can play only files encoded in a standard format.
- The following types of USB devices may not be recognized or work correctly:
  - Encrypted MP3 players
  - USB devices not recognized as removable disks
- A USB device may not be recognized depending on its condition.
- Some USB devices may be incompatible with your system.
- Depending on the USB device's type, capacity, or the format of files, USB recognition time may be longer.
- Depending on the specification, some USB devices may not support charging via a USB connection.
### Searching for music files on a file list

Access a file list to search for and select a song.

1. On the music playback screen, touch **List**.

2. Touch the screen to open a folder, move to another category, or play a music file.

   ![iPod mode screen](image)

   - Display the options list.
   - **Now Playing**: Move to the location of the file currently playing while searching for a music file in another folder/category. This option is disabled when a file in the current playlist is playing.

### Using the iPod mode

You can listen to music stored on your Apple devices, such as an iPod or an iPhone. Check compatible Apple devices and iOS specifications before using the iPod mode. [See p.10-10 “iPod mode.”](#)

1. Connect your Apple device to the USB port in your vehicle using the cable supplied with the Apple device.
   - When connected, the device will begin charging. Music playback will not start automatically.

   ![iPod mode screen](image)
2 On the control panel, press the [MEDIA] button.
   • If you have multiple media storage devices, press the [MEDIA] button again and touch iPod from the media selection window.

   ![Image of media playback screen]

1. Access the files list.
2. Display the options list.
   • **Sound Settings**: Customize the system sound settings. ▶ See p.8-2 "Setting the system sound."
3. Move to the previous screen.
4. Information about the song currently playing
5. Repeat play mode
6. Shuffle play mode
7. Number of files on the current playlist
8. Playback time and playback position

⚠️ **Caution**

Do not connect and disconnect a USB connector repeatedly in a short time. Doing so may cause an error in the device or a system malfunction.

### Searching for music files on a file list

Access a file list to search for and select a song.

1. On the music playback screen, touch **List**.
2. Touch the screen to move to another category or play a music file.

   ![Image of file list]

1. Move to the previous screen.
2. Move up to another category.
If you connect your device to the system while playback is in progress on the device, you may hear a high pitch sound just after the connection. Connect the device after stopping or pausing playback.

Connecting your device during a download or synchronizing with iTunes may cause an error. Connect the device after the download or synchronization is complete.

If you connect an iPod nano (except for the 6th generation) or an iPod classic, the brand logo will be displayed on the device screen. For an iPhone and an iPod touch, the logo will not be displayed.

Notes on connecting Apple devices

• Ensure that the iOS and firmware of your device is up-to-date before connecting it to your system. Outdated devices may cause a system error.
• If your device’s battery is low, the device may not be recognized. Check the battery level and, if necessary, charge the battery before connecting the device to your system.
• Use an Apple-approved cable. Using an unapproved cable may cause a distorted noise or an error during playback.
• Fully insert a USB connector into the USB port. Failure to do so may cause a communication error.
• When your device is connected to the USB port and the AUX port simultaneously, it is recognized in the AUX mode. The device stays in the AUX mode even if the AUX cable is not connected to the system. To play music in iPod mode, disconnect the AUX cable from the device or change audio output of the device to "Dock."

Notes on playing Apple devices

• Depending on the model, your device may not be recognized due to unsupported communication protocols.
• The order of the songs displayed or played on the system may differ from the order of the songs stored in your device.
• Podcasts and audiobooks will play on your system if the dedicated applications are not installed on your Apple device. You can access those files in the Other category.
Using the AUX mode

You can listen to audio from your vehicle's speakers by connecting external devices, such as smartphones and MP3 players.

Connect an external device to the AUX port in your vehicle using an AUX cable.

- The AUX mode starts automatically and the sound is heard via your vehicle's speakers.

Display the options list.
- **Sound Settings**: Customize the system sound settings.
  
  ➤ See p.8-2 "Setting the system sound."

Move to the previous screen.

- Podcasts and audiobooks may not play or may not be displayed on your system if your Apple device has iOS 6.0 or later installed.
- In an iPhone, the audio streaming function and iPod mode control may conflict. If an error occurs, disconnect and reconnect the USB cable.
- When using an iPhone or an iPod touch, do not control the device while it is connected to your system. An error may occur.
- If you make or receive a call during playback via an iPhone, the music may remain paused after you end the call. If you do not hear the music after ending a call, check the device to see if the music is paused.
- Do not duplicate a song in multiple folders. One song saved in multiple folders may cause an error with search and playback functions.
- If you perform a media control function, such as stop or repeat, just before a song ends, the song information displayed on the screen may not match the song currently playing. This is not a system error. Restart the iPod mode on the system or pause and resume playback on your device.
Note

- Because the system works as an output device of the connected external device in the AUX mode, you cannot use controls other than the volume control. Use controls on the external device to control playback.
- The sound volume for the AUX mode is adjusted separately from the other modes.
- Depending on the device type, using an external device with the power cable plugged into the power jack may cause a distorted noise.
- If the AUX cable is plugged into the system without an external device, a distorted noise may occur. Remove the AUX cable from the AUX port when an external device is not connected.
Bluetooth

Connecting Bluetooth devices
Using a Bluetooth audio device
Using a Bluetooth phone
Connecting Bluetooth devices

Bluetooth is a short-range wireless networking technology. Via Bluetooth, you can connect nearby mobile devices wirelessly to send and receive data between connected devices. This enables you to use your devices effectively.

To use Bluetooth, you must first connect a Bluetooth-enabled device to your system, such as a mobile phone or an MP3 player. Ensure that the device you want to connect supports Bluetooth.

⚠️ Warning

Park your vehicle in a safe location before connecting Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.

📝 Note

• On your system, you can use only Bluetooth Handsfree and Audio features. Connect a mobile device that supports the Bluetooth Handsfree or Audio feature.

• For more information on Bluetooth-enabled devices and their functional compatibility, visit the HYUNDAI Motor America website (https://www.hyundaiusa.com/bluetooth).

Pairing devices with your system

For Bluetooth connections, first pair your device with your system to add it to the system's list of Bluetooth devices. You can register up to five devices.

   • If you are pairing a device with your system for the first time, you can also press the [ ] button on the steering wheel. Alternatively, on the Home screen, touch All Menus > Phone.

2. On the Bluetooth device you want to connect, activate Bluetooth, search for your vehicle's system, and then select it.
   • Check the system's Bluetooth name, which is displayed in the new registration pop-up window on the system screen.
3 Ensure that the Bluetooth passkeys displayed on the Bluetooth device screen and the system screen are the same and confirm the connection from the device.

4 Choose whether or not to connect the Bluetooth device to your system prior to other devices.
   - If you grant priority to the Bluetooth device, it will be connected automatically to the system when you turn on the system.

5 If you are connecting a mobile phone, permit the system to access and download your data from the device.
   - Downloading data is only for Bluetooth call functions. Permission is not required if you are connecting an audio device.

Note
- It may take a while for the system to connect with the device after you permit the system to access the device. When a connection is made, the Bluetooth status icon appears at the top of the screen.
- You can change the permission settings via the mobile phone's Bluetooth settings menu. For more information, refer to your mobile phone's user guide.
- To register a new device, repeat steps 1 to 5.
- When a device is connected to the system via Bluetooth, you cannot pair another device.
- If you do not want the system to connect with the device automatically, deactivate Bluetooth on your device.
Connecting a paired device

To use a Bluetooth device on your system, connect the paired device to the system. Your system can connect with only one device at a time.

1. On the Home screen, touch All Menus ➤ Setup ➤ Bluetooth ➤ Bluetooth Connection.

2. Touch Connect next to the device you want to connect.
   - If another device is already connected to your system, disconnect it. Touch Disconnect next to the device.

   ![Bluetooth connection screen]

   - View Bluetooth help.
   - Connect the device.
   - Disconnect the device.
   - Pair a new device with your system.
   - Delete paired devices. Downloaded data from devices will also be deleted.

Note

- If a connection ends because a device is out of the connection range or a device error occurs, the connection will be restored automatically when the device enters the connection range or when the error is cleared.
- If a connection is unstable due to a communication error, reset Bluetooth by touching All Menus ➤ Setup ➤ Bluetooth ➤ Default Factory Settings, and then re-connect the device.
Disconnecting a device

If you want to stop using a Bluetooth device or connect another device, disconnect your currently connected device.

1. On the Home screen, touch **All Menus ➤ Setup ➤ Bluetooth ➤ Bluetooth Connection**.
2. Touch **Disconnect** next to the device.
3. Touch **Yes**.

Deleting paired devices

If you no longer want a Bluetooth device paired or if you want to connect a new device when the Bluetooth device list is full, delete paired devices.

1. On the Home screen, touch **All Menus ➤ Setup ➤ Bluetooth ➤ Bluetooth Connection ➤ Delete Devices**.
2. Select the devices you want to delete and touch **Delete**.
   - To delete all paired devices, touch **Mark All ➤ Delete**.
3. Touch **Yes**.
Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle's speakers.

On the control panel, press the [MEDIA] button.
- If you have multiple media storage devices, press the [MEDIA] button again and touch Bluetooth Audio from the media selection window.

1. Display the options list.
   - **Connections**: Customize the Bluetooth connection settings. ► See p.5-2 "Connecting Bluetooth devices."
   - **Sound Settings**: Customize the system sound settings. ► See p.8-2 "Setting the system sound."

2. Move to the previous screen.
3. Information about the song currently playing
4. Repeat play mode
5. Shuffle play mode
6. Restart the current playback. Touch twice to play the previous file. You can also press the [TRACK] button on the control panel or use the [▲/▼] lever on the steering wheel.
7. Pause or resume playback.
8. Play the next file. You can also press the [TRACK ▲] button on the control panel or use the [▲/▼] lever on the steering wheel.
9. Change the repeat play mode.
10. Activate or deactivate the shuffle play mode.

Using a Bluetooth audio device

You can listen to music stored in the connected Bluetooth audio device via your vehicle's speakers.

On the control panel, press the [MEDIA] button.
- If you have multiple media storage devices, press the [MEDIA] button again and touch Bluetooth Audio from the media selection window.
Using a Bluetooth phone

You can use Bluetooth to talk on the phone hands free. View call information on the system screen, and make or receive calls safely and conveniently via the vehicle's built-in microphone and speakers.

**Warning**

- Park your vehicle in a safe location before connecting any Bluetooth devices. Distracted driving can cause a traffic accident and lead to personal injury or death.
- Never dial a phone number or pick up your mobile phone while driving. Use of a mobile phone may distract your attention, making it difficult to recognize external conditions and reducing the ability to cope with unexpected situations, which may lead to an accident. If necessary, use the Bluetooth Handsfree feature to make a call and keep the call as short as possible.

**Note**

You can use voice commands to make calls more safely and eliminate the need to look at the screen while you are driving.

► See p.6-2 "Starting voice recognition."
Making a call

If your mobile phone is connected to the system, you can make a call by selecting a name from your call history or contacts list. You can also enter a phone number on the keypad.

1 On the Home screen, touch All Menus ➤ Phone.
   • Alternatively, press the [📞] button on the steering wheel.

2 If you have multiple paired mobile devices, select a mobile phone from your list of paired devices.

3 Select a phone number from your call history.
   • You can find the number you want by pushing the [✓/✓] lever on the steering wheel. You do not need to touch the screen.
   • To select a phone number from your contacts list, touch Contacts.
   • To enter a phone number manually, touch Dial.
4 To end the call, press the [📞] button on the steering wheel or touch **End** on the call screen.

**Using your call history**

1 On the Bluetooth phone screen, touch **Call History**.

2 Select a call record from the list to make a call.

![Call History Screen](image)

- **Display the options list.**
  - **Download**: Download your call history.
  - **Bluetooth Settings**: Customize the settings for Bluetooth. ➤ See p.8-5 "Setting Bluetooth."
- **View all call records.**
- **View only dialed calls.**
- **View only received calls.**
- **View only missed calls.**

**Note**

- Some mobile phones may not support the download function.
- Up to 50 call records will be downloaded per individual list.
- Call duration and time information will not be displayed on the system screen.
- Permission is required to download your call history from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone's permission setting.
- When you download your call history, any old data will be deleted.
Using the contacts list

1. On the Bluetooth phone screen, touch Contacts.

2. Select a contact from the list to make a call.

![Contacts Screen]

### Note

- Only contacts in the supported format can be downloaded and displayed from the Bluetooth device. Contacts from some applications will not be included.
- Up to 5,000 contacts can be downloaded from your device.
- Some mobile phones may not support the download function.
- Depending on the system’s specifications, some of the downloaded contacts may be lost.
- Contacts stored both in the phone and in the SIM card are downloaded. With some mobile phones, contacts in the SIM card may not be downloaded.
- If you have set up speed dial numbers on the mobile phone, you can make a call by touching and holding a speed dial number on the keypad. Depending on the mobile phone type, the speed dialing function may not be supported.
- Permission is required to download contacts from the mobile phone. When you attempt to download data, you may need to permit the download on the mobile phone. If the download fails, check the mobile phone screen for any notification or the mobile phone’s permission setting.

1. Display the options list.
   - **Download**: Download your mobile phone contacts.
   - **Search**: Enter a contact’s name or phone number to search the list.
   - **Bluetooth Settings**: Customize the settings for Bluetooth. [See p.8-5 “Setting Bluetooth.”]
2. Select an initial letter to find contacts quickly.
• Depending on the mobile phone type or status, downloading may take longer.
• When you download your contacts, any old data will be deleted.
• You cannot edit or delete your contacts on the system.
• When you connect a new mobile phone, your contacts downloaded from the previous mobile phone will not be displayed, but they will remain in your system until you delete the previous phone from the device list.

Using the keypad

1. On the Bluetooth phone screen, touch Dial.

2. Enter a phone number on the keypad and touch to make a call.

Note

You change your Bluetooth connection settings by touching .

Answering calls

When a call comes in, a notification pop-up window of the incoming call appears on the system screen.

To answer the call, touch Accept.
• Alternatively, press the button on the steering wheel.
To reject the call, touch **Reject**.

- Alternatively, press the [ nộ] button on the steering wheel.

**Note**

- Depending on the mobile phone type, call rejection may not be supported.
- Once your mobile phone is connected to the system, the call sound may be output through the vehicle’s speakers even after you exit the vehicle if the phone is within the connection range. To end the connection, disconnect the device from the system or deactivate Bluetooth on the device.

**Using options during a call**

During a call, you will see the call screen shown below. Touch a button to perform the function you want.

1. Turn off the microphone so the other party cannot hear you.
2. Adjust the microphone volume.
3. Switch the call to your mobile phone. Depending on the mobile phone type, this function may not be supported.
4. End the call.
5. Display the keypad.
Switching between calls

If your mobile phone supports call waiting, you can accept a second call. The first call is put on hold.

To switch between the active call and the held call, touch **Switch** or touch the phone number displayed on the call screen.

⚠️ Note
Depending on the mobile phone type, this function may not be supported.

- If the caller information is saved in your contacts list, the caller’s name and phone number will be displayed. If the caller information is not saved in your contacts list, only the caller’s phone number will be displayed.
- You cannot switch to any other screen, such as the AV screen or the settings screen, during a Bluetooth call.
- Depending on the mobile phone type, call quality may vary. On some phones, your voice may be less audible to the other party.
- Depending on the mobile phone type, the phone number may not be displayed.

⚠️ Note (continued)
- Depending on the mobile phone type, this function may not be supported.
Setting up your favorites list

If you register frequently used phone numbers as your favorites, you can find them and dial them quickly.

1. On the Home screen, touch All Menus ➤ Phone.
   - Alternatively, press the [ ] button on the steering wheel.

2. On the Bluetooth phone screen, touch Favorites.

3. Touch Menu ➤ Edit and select a contact from your contacts list.
   - If you have not yet added any favorites, touch Add New.

4. Touch ✽ next to the phone number you want.
   - The star icon changes to orange and the phone number is added your favorites list.

Note

- You can register up to 10 favorites for each device.
- To delete one of your favorites, on the favorites list, touch Menu ➤ Delete.
- When you connect a new mobile phone, your favorites set for the previous mobile phone will not be displayed, but they will remain in your system until you delete the previous phone from the device list.
Voice recognition

Starting voice recognition
Viewing the voice recognition help
Available voice commands
Using Siri Eyes Free
Before starting voice recognition

• The system can recognize only specified voice commands. ► See p.6-7 "Available voice commands" or the on-screen help of the voice recognition.

• To increase the recognition rate, keep in mind the following when saying a voice command:
  - Say a command naturally and clearly.
  - Say a command in the direction of the microphone, keeping your body straight in the driver's seat. The microphone is located at the top part of the inside rearview mirror.

• Voice recognition will end automatically in the following situations:
  - When a call comes in or when you make a call
  - When you connect or remove a media storage device
  - When the front view or rear view camera turns on (*if equipped)
  - When you start another function by pressing a button, such as the [RADIO] or [MEDIA] button.

• Voice recognition will be affected by the ambient noise in the following situations:
  - When a window or the sun roof is open, causing a loud sound made by the wind
  - When the air conditioner or heater is set to a high air volume level (level 3 or lower is recommended)
  - While you are driving through a tunnel
  - When severe vibrations and noises occur while driving on a unpaved or uneven road
  - When severe noises occur due to heavy rain or a storm

Starting voice recognition

With voice recognition, you can use your system's functions without controlling the screen or buttons. This can help you maintain focus while driving and avoid any dangerous situations.

Use voice recognition to perform functions safely and conveniently.
Use voice recognition by following the steps below.

   Voice recognition status
   - [Voice Recognition]: Waiting for your command
   - [Voice Guidance]: Playing a voice guidance
   - [Command Processing]: Processing your command

2. Recognized command. The voice volume level is indicated as a bar graph while you are saying a command.

3. Primary voice commands you can use

4. End voice recognition.
2 After the voice guidance ends and you hear a beep, say a command, such as "Music" or "Call."
   ► See p.6-7 "Available voice commands" or the on-screen help of the voice recognition.
   • The system displays the recognized command at the top of the screen and performs the corresponding function.
   • If an additional command is required for performing the function, available commands for the next step are displayed on the screen. Say or touch a command.
   • When there are multiple commands similar to the recognized command, the system displays the numbered candidates on the screen. Say the number corresponding to the command you want.

3 To end voice recognition, say "Exit" while the system is waiting for your command.
   • Alternatively, press the [Exit] button on the steering wheel or touch Exit on the voice recognition screen.

Note
   • To skip a voice guidance, press the [Exit] button on the steering wheel.
   • To extend the waiting time, press the [Exit] button while the system is waiting.
   • If your system does not support voice recognition, press the [Exit] button on the steering wheel to start the connected smartphone's voice recognition via phone projection. ► See p.2-3 "Using phone projection."
Adjusting the voice guidance volume

You can adjust the volume of the voice guidance to an appropriate level for using voice recognition while driving.

While you are using voice recognition, turn the [VOL] knob on the control panel.

Viewing the voice recognition help

You can see how to perform various functions by voice commands.

⚠️ Caution

For safety, voice recognition help will not be displayed while the vehicle is moving. Park your vehicle in a safe location to view the on-screen help.

1. On the steering wheel, press the [\\] button.

2. Touch Help on the voice recognition screen or say "Help" while the system is waiting for your command.
3 To view full help information on how to use voice commands, touch  at the bottom of the screen.

• To view help on how to use voice commands for a specific function, touch  next to the function name you want.

4 To close the help screen, touch Exit on the voice recognition screen or say "Exit" while the system is waiting for your command.

**Note**

• To view a list of available voice commands for each function, say or touch a function name you want.
• After accessing a list of voice commands, you can perform a function by saying or touching a command.
• You can view a list of available voice commands without activating voice recognition. On the Home screen, touch All Menus ▶ Voice Commands.

</table>

*These commands are available only in certain situations.
Using Siri Eyes Free

When you connect an Apple device that is compatible with Siri to your system via Bluetooth, you can use Siri Eyes Free. This allows you to perform the functions of your system and Apple device with voice commands so that you can devote your full attention to driving.

First, ensure that your Apple device supports Siri and that you have activated Siri.

1 Connect your Apple device to your system via Bluetooth. ► See p.5-2 "Connecting Bluetooth devices."

2 On the steering wheel, press and hold the [ ] button.

3 On the Siri screen, touch Speak.

4 Say a command.
   • You can perform the functions related to Bluetooth calls on the system and other functions on your Apple device.
   • Press the [ ] button to restart Siri.

5 To end Siri, press and hold the [ ] button.

Siri Eyes Free is enabled only while you are driving. When you put the transmission shift lever in the "P" (Park) position or apply the parking brake, you disable this function.

Note

Different Apple devices may have different functions enabled and may vary in how they respond to Siri commands, depending on the type of device and the iOS version.
Blue Link services
Activating the service
Locating the Blue Link buttons
Using the Blue Link menu
Using safety and security services
Contacting the Blue Link Center
Blue Link services

Blue Link provides connected car services, such as roadside assistance and emergency rescue, via the latest IT and communication technologies.

Once subscribed, you can access Blue Link services via the buttons on the inside rearview mirror. You can also access other useful features using the Blue Link menu on your system.

Refer to the Blue Link Service Manual for more Blue Link features.

Note

- You must be an active Blue Link subscriber or within the initial free trial period to receive Blue Link services, including Auto Crash Notifications.
- Depending on conditions, such as the vehicle type, the system type, or the subscribed service package, available services may vary.
- Some services may incur additional charges.
- Services may be modified, added, or deleted according to changes in the company's policies.

Activating the service

Once you sign up for Blue Link, you must activate the service to use it on the system.

On the Home screen, touch All Menus ➤ Blue Link ➤ Blue Link Settings ➤ Service Activation.

Caution

Do not stop the engine while the activation is in progress. Doing so may cause a system malfunction.

Note

- If the activation fails, contact the Blue Link Center at (855) 2-BlueLink.
- While the activation is in progress, the system buttons will be locked.
Service limitations

Because the Blue Link service is provided via mobile networks, the use of the service may be restricted depending on the mobile network status. Check the network signal icon at the top line of the screen to see if the network signal strength is proper.

Note

- It is recommended to use the service when the network signal icon has more than four signal bars.
- Depending on the mobile network status, the use of the Blue Link service may be affected in the following places:
  - In a building or tunnel
  - In a mountain or dense forest
  - On a road close to cliffs
  - In an area with a lot of high buildings
  - On a highway or a road under overpass
  - Out of a service area based on the mobile network service provider's coverage policy

Locating the Blue Link buttons

You can access Blue Link services via the buttons on the inside rearview mirror.

1 Call the Blue Link Center.
2 Call for an emergency service.

Note

- Depending on vehicle models and specifications, the illustration may differ from the product's actual appearance and layout.
- Use the button to start the navigation application installed on your smartphone via phone projection.
Using the Blue Link menu

You can use the Blue Link service via the Blue Link menu on the system.

On the Home screen, touch All Menus ➤ Blue Link.

Viewing driving information

You can see your driving patterns by checking information such as driving time, distance, idling time ratio, and speed distribution. Use driving information for safe and economical vehicle operation.

1 On the Home screen, touch All Menus ➤ Blue Link ➤ Driving Info.

2 View your vehicle's driving information.
   • To view the latest information, touch Update.

1 View your vehicle's driving information. ➤ See p.7-4 "Viewing driving information."
2 Check your vehicle's abnormal conditions and view the diagnosis result. ➤ See p.7-5 "Diagnosing your vehicle."
3 Activate the Blue Link service to use it on the system or access modem information.
Check the result displayed on the screen.

Note

A diagnosis result provided by this service is only an estimated result based on the signals from your vehicle. Visit a Hyundai Motor Company Service Center or a service coordinator for a detailed diagnosis.

Diagnosing your vehicle

You can diagnose your vehicle. The information will be sent to the Blue Link Center. You can receive diagnosis results from a representative and use additional services, such as towing, route guidance to a repair shop, or a maintenance reservation.

1 Park your vehicle in a safe location.
   • You can start a diagnosis only when the vehicle stops, because some components cannot be diagnosed while the vehicle is moving.

2 On the Home screen, touch All Menus ► Blue Link ► Vehicle Diagnostics.
   • A remote diagnosis will begin. Refrain from using your system until the diagnosis is complete and the result is displayed on the screen. If you move to another screen while a diagnosis is in progress, the diagnosis will be canceled.

Note

You can use this function only when your vehicle is stationary with the engine is running.
Using safety and security services

In situations of emergencies or accidents, you can use various kinds of assistance.

Auto Crash Notification

This service provides you with immediate assistance when an accident occurs and an airbag is deployed. If this happens, an Auto Crash Notification (ACN) signal, containing your customer and location information, will be transmitted to the Blue Link center automatically.

Once the signal is received, a response specialist will attempt to establish voice communications with you and forward any pertinent information to Blue Link emergency services.

Note

The Auto Crash Notification feature is subject to adequate mobile network coverage, signal strength, and battery power, and is only available in the 50 US states.
SOS

You can request Blue Link emergency services.

In an emergency, press the [SOS] button on the inside rearview mirror.

Vehicle information and location will be sent to specially trained response specialists, who assist in coordinating the dispatch of appropriate emergency assistance to you.

- The response specialist will remain connected with you until the first emergency assistance arrives.
- To end the SOS call, press the [SOS] button.

Stolen Vehicle Recovery

If your vehicle is reported stolen, the Blue Link center can provide assistance to the police in an attempt to recover the vehicle. A stolen vehicle report will be filed with the appropriate police department.

Vehicle slowdown

This feature enables law enforcement to gradually reduce the engine power of the vehicle, thus slowing it down to safe levels. A warning will be sent to the driver prior to the slowdown procedure.

Vehicle immobilization

This feature enables law enforcement to send a signal to the vehicle that immobilizes the engine management system, thus preventing startup. This feature is only valid when the vehicle ignition is off. If the ignition is on or the engine is running when the signal is sent to the vehicle, the signal will be saved for later immobilization.
Contacting the Blue Link Center

You can contact a Blue Link Center representative directly to request help or make inquiries.

On the inside rearview mirror, press the button.

• When connected to the Blue Link Center, ask a representative for the service you need.
• To end the call, press the button.
Settings

Setting the vehicle environment
Setting sounds
Setting the system screen
Setting the Home screen
Setting the screen saver
Setting voice recognition
Setting Bluetooth
Setting the system environments
Setting the vehicle environment

You can change the settings related to driving or the interior and exterior environment of your vehicle.

On the Home screen, touch All Menus ➤ Setup ➤ Vehicle.

Heated/Ventilated Features

Set the steering wheel heater and the driver seat heater or ventilation to be controlled automatically.

The auto control mode will be deactivated if you operate the heater or ventilation controls manually. Selecting this option again or restarting the vehicle will reactivate the auto control mode.

Setting sounds

You can change the settings related to sounds, such as the speaker volume and sound effects.

Setting the system sound

On the Home screen, touch All Menus ➤ Setup ➤ Sound.

Note

- Depending on vehicle models or specifications, available options may vary.
- Depending on the system or amplifier specifications applied to your vehicle, available options may vary.
Position
Select a location where sound will be concentrated in the vehicle. Touch a desired location on the seat image or touch the arrow buttons to move the focus. To set sound to be centered in the vehicle, touch 📚.

Volume
Adjust the volume levels for various system features, including phone projection.

Tone
Adjust the output level for each sound tone mode.

Priority
• **Back-up Warning Priority**: Set to decrease the audio volume to hear a backup warning prior to other sounds while backing up your vehicle.
• **Start-up Volume Limit**: Set the system to automatically decrease the volume when turned on, if the volume has been set to too high of a level.

---

**Advanced (if equipped)**
Set the advanced sound options or apply various sound effects.
Depending on the amplifier specifications, available sound options and effects may vary.

**Default**
Reset your sound settings to the default values.

---

**Note**

To turn the touch sound on or off, touch **Beep** at the top of the sound settings screen.
Setting the system screen

You can change the settings for the screen display.

On the Home screen, touch **All Menus ➤ Setup ➤ Display.**

<table>
<thead>
<tr>
<th>Mode</th>
<th>Set the screen brightness to be adjusted automatically according to ambient lighting conditions or set the screen to stay bright or dark continuously.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Illumination</strong></td>
<td><strong>Link to Cluster Illumination Control</strong> enables the system brightness to be adjusted according to the instrument cluster's brightness. If this feature is deactivated, you can adjust the brightness for the day or night mode according to your setting in the <strong>Mode</strong> option.</td>
</tr>
<tr>
<td><strong>Default</strong></td>
<td>Reset your screen settings to the default values.</td>
</tr>
</tbody>
</table>

Setting the Home screen

You can change the menus displayed on the Home screen. Personalize the Home screen by adding your favorite menus.

1. On the Home screen, touch **All Menus ➤ Setup ➤ Home Screen.**

2. Find a desired menu from the list on the right and drag it to the location you want.
   - The existing menu moves to the list on the right and the new menu is added to its previous location.
   - Touch **Default** to reset your home screen settings to the default values.
Setting voice recognition

You can change the guidance type for voice recognition.

1. On the Home screen, touch **All Menus ➤ Setup ➤ Voice Recognition**.

2. Select a guidance type you want.

Setting the screen saver

You can select a screen saver option to be displayed when you turn off the screen by pressing and holding the [PWR] button on the control panel.

1. On the Home screen, touch **All Menus ➤ Setup ➤ Screen Saver**.

2. Select a screen saver option.
   - **Digital**: The digital clock is displayed.
   - **Analog**: The analog clock is displayed.
   - **None**: No screen saver is displayed.

Setting Bluetooth

You can change the settings for Bluetooth connections.

On the Home screen, touch **All Menus ➤ Setup ➤ Bluetooth**.

---

Note

Once you change the menus displayed on the Home screen, it may affect how to access or perform some functions. If you cannot find a function you want from the Home screen, touch **All Menus** to access or perform it.
Setting the system environments

You can customize system environment settings, such as the time and date, display language, and more.

Setting the display language

1. On the Home screen, touch All Menus ➤ Setup ➤ Language.
2. Select a language.

Note

This setting will not affect user data, such as MP3 file names.

<table>
<thead>
<tr>
<th>Bluetooth Connection</th>
<th>Pair new Bluetooth devices with your system, or connect or disconnect a paired device. You can also delete paired devices.</th>

- The signal strength displayed on the screen may differ from the signal strength displayed on the connected mobile phone.
- Depending on vehicle models and specifications, some status icons may not be displayed.
FAQ

Bluetooth

Q  How do I pair a Bluetooth device with the system?

A  On the Home screen, touch **All Menus ► Setup ► Bluetooth ► Bluetooth Connection ► Add New**. From the Bluetooth device you want to connect, search for and pair with your system. When you enter or confirm a Bluetooth passkey displayed on the system screen, the device is registered to the system's Bluetooth device list and connected to the system automatically. ► See p.5-2 "Connecting Bluetooth devices."

Q  What is a passkey?

A  A passkey is the password used to authenticate the connection between the system and the mobile device. The passkey needs to be entered only once when you pair a mobile phone for the first time. The initial passkey is "0000." You can change it by touching **All Menus ► Setup ► Bluetooth ► Bluetooth System Info ► Passkey**.

Q  What kinds of functions can I use with Bluetooth?

A  You can connect your mobile phone to make or answer calls hands free. You can also connect audio devices, such as MP3 players and mobile phones, to listen to music in your vehicle. ► See p.5-7 "Using a Bluetooth phone," p.5-6 "Using a Bluetooth audio device."

Q  What is the difference between pairing a device and connecting a device?

A  Pairing occurs through authenticating the system and a mobile device. Devices paired with the system can be connected and disconnected until they are deleted from the system. Bluetooth Handsfree features, such as making or answering calls or accessing contacts, are supported only in mobile phones connected with the system.
Q I changed my mobile phone that was registered to the system via Bluetooth. How can I register my new mobile phone?

A You can register additional devices to your system by following the instructions to pair a device. Up to five devices can be added to your system's Bluetooth device list. To delete a registered device, on the Bluetooth device list, touch Delete Devices, select the devices to delete, and touch Delete. ➤ See p.5-2 “Connecting Bluetooth devices.”

Q How do I answer a call?

A When a call comes in and a notification pop-up window appears, press the [📞] button on the steering wheel or touch Accept on the screen.

To reject the call, press the [📞] button on the steering wheel or touch Reject on the screen.

Q What should I do if I want to switch the call to my mobile phone while on a call via the system?

A Press and hold the [📞] button on the steering wheel or touch Use Private on the screen to switch the call to your mobile phone.

Q How do I access the contacts in my mobile phone from the system?

A When connecting your mobile phone to your system, permit the system to access the contacts saved in the mobile phone. The contacts will be downloaded to the system. To open the downloaded contacts list, press the [📞] button on the steering wheel and touch Contacts on the phone screen. You can search for a contact to make a call or add it to favorites. ➤ See p.5-7 “Using a Bluetooth phone.”
**AV function**

**Q** What kinds of AV functions does my system have?

**A** Your system provides you with the radio and media player (USB, iPod, AUX, etc.). For more information, see the corresponding chapters.

**Q** I want to move to the previous or next song without touching the screen while driving. How do I do this?

**A** Push the [▲/▼] lever on the steering wheel to move to the previous or next song.

**Q** What is the range of my wireless connection?

**A** A wireless connection can be used within about 10 m (about 33 ft). The maximum Bluetooth range may be affected by the usage environment, such as the vehicle type, the system platform, or the connected mobile phone.

**Q** How many mobile devices can be paired?

**A** Up to five devices can be paired with your system.

**Q** Why is call quality sometimes poor?

**A** Check your mobile phone's reception sensitivity when call quality deteriorates. The call quality may deteriorate when the signal strength is low.

Call quality may also become poor if metal objects, such as beverage cans, are placed near the mobile phone. Check to see if any metal objects are near the mobile phone.

The call sound and quality may differ depending on the type of mobile phone.
Broadcast reception

Q  No sound is heard or a distorted noise is heard when listening to the radio while driving.

A  Depending on the location, the reception may deteriorate due to obstacles. If the reception diminishes, change the radio station to another one.

Attaching a window film including metal components to the rear window equipped with a glass antenna may lower radio reception.

How to self-check a system fault

Q  My system does not operate normally. What should I do?

A  Check your system by referring to the solutions explained in the troubleshooting sections. ➤ See p.9-2 “Solutions.”

If the system still does not operate normally after following the relevant instructions, press and hold the reset button.

If the problem persists, contact your place of purchase or dealer.

## Important information

Before using your system, read and follow all instructions and safety information provided in this user's guide (“User's Manual”). Not following precautions found in this guide can lead to an accident or other serious consequences.

## Keep this guide in your vehicle

When kept in the vehicle, this guide will be a ready reference for you and other users unfamiliar with the system. Ensure that before using the system for the first time, all persons have access to this guide and read its instructions and safety information carefully.

## Warning

Operating certain parts of this system while driving can distract your attention away from the road, and possibly cause an accident or other serious consequences. Do not change system settings or enter data non-verbally (using your hands) while driving. Stop the vehicle in a safe and legal manner before attempting these operations. This is important since while setting up or changing some functions as you may to distract your attention away from the road and remove your hands from the steering wheel.
General operation

- **Prolonged views of screen**
  Do not access any function requiring a prolonged view of the screen while you are driving. Pull over in a safe and legal manner before attempting to access a function of the system requiring prolonged attention. Even short views of the screen may be hazardous if your attention has been diverted away from your driving.

- **Volume setting**
  Do not raise the volume excessively. Keep the volume at a level where you can still hear outside traffic and emergency signals while driving. Driving while unable to hear these sounds could cause an accident.

FCC Certification

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Trademarks

- The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by HYUNDAI is under license.
- A Bluetooth® Wireless Technology enabled cell phone is required to use Bluetooth® Wireless Technology.
- Bluetooth® Wireless Technology phone compatibility can be checked by visiting https://www.hyundaiusa.com/bluetooth.
- Google, Android, Android Auto, and Google Play are registered trademarks of Google Inc.
- Apple®, Apple CarPlay™, iPad®, iPad mini™, iPhone®, iPod®, iPod classic®, iPod nano®, iPod touch®, and iTunes® are a registered trademark of Apple Inc.
- Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc.
- Other trademarks and trade names are those of their respective owners.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to this device not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum 20 cm between the radiator and your body. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter unless authorized to do so by the FCC.
